Dear Val. :

I have your letter of the 25th.

You should stick pretty closely to those who gave the undertaking; the claim you have on them is strong. If General McRae directly concurred, I would press the matter very strongly with him.

I have to be here practically all of my time. I can only take up anything like this when I get to Ottawa which is only for a few hours once every two weeks. Will do the best I can.

Yours truly,

Arthur Meighen
