Fashion Craft Clothes

*You spend money for clothing,
Why not get the most for it?
What makes good clothes?*

WORKMANSHIP first, that is what makes a garment keep its shape, look well and wear well. Every garment is made and finished as if our whole reputation depended on that garment. STYLE must be considered. You want correct fashion, clothes of class, shown to date. Wear our clothes and wherever you may be (if travel) you have the peace of assurance that you are correctly garbed.
