HOLSTEIN
BREEDERS

THESE TWO
HERD SIRES

have added to the Mapleton herd, the heaviest producing blood in the Holstein world—the blood that has produced over seventy-five per cent of the present records for milk and butter production.

Sir Pontiac Clothilde
Korndyke (Present Herd Sire)

He is in the sale—the highest opportunity to secure a mature son of Pontiac Korndyke ever offered Holstein breeders in Canada. Some one will get a bargain—he throws 85 per cent heifers and 15 of his heifer calves are to be sold. They'll start you right.

THIS is the class of animals you will be bidding on at Iroquois on June 10th. If you need something choice, you cannot afford to be anywhere but at Mapleton. Come and buy young stuff that will produce Records and Wealth for you.

THE CATALOGUE will give you every detail about this sale—send a card for one to-day. Rise up these animals that are open to you but once. Decide to come to Mapleton—Remembering that this is strictly a breeders' dispersal sale—every animal faultless and a bona fide member of herd and every one must be sold on the above date.

N.B.—For our visitors a free "bus" will meet all trains at Iroquois (G.T.R.) up till 1 p.m. You may rest assured we'll make you comfortable at Mapleton. Lunch at noon. Bids by wire, phone or mail will be given every attention. Mail a card for catalogue.
