thrown. For the months of May and dime. When we find 44's tops selling at 28: 7'40, and 2.4'8's yarn's procurable at 28: 26, 1t is easy to understantly why spinners are complaining and closing their riabits at every opportunity.

A routh citicalization which makes night to the selling the 8d, diference, brivet in the gire of 4's tops and 2.4'8's tarns, but when the 8d, diference brivet in the gire of 4's tops and 2.4'8's tarns, but when the standard townships. The market is purely an universal at having to turn that gualation at the price, it shows that sometimes is radically wrome. A man at least the price, it shows that sometimes is radically wrome. A man at least its must have 7d, to 1'gd to caves here cost, hence the justification for many time complaining bitterly at the universal production of the wool trade to day, in conditions of the wool trade to day, in conditions of the wool trade to day, in conditions of the wool trade to day, in the price it is, and to see standing min the price it is, and to

ment of wool, the presence of a fe American buyers lending color to the belief that United States operation have been conducted on a considerab scale. The outstanding feature to-dais a very keen enquiry for cased Ne Zealand fine crossbred fleeces, the being a strong demand for everything a strong demand for everything above 50°s quality. Even Funta Arabove 50°s quality. Even Funta Arabove qualities seem to be out of trunciliar. This persistent demand helping to strengthen the hands of toy makers, although they are not findin trade at all active.

BETTERMENT PREDICTE

With Advent of Mid-Year lifle Capa city in all Branches will be Sharpfy Ingreased.

in a quiet way and early orders are said to have been fair. There seems is be no hurry, however, to open samples although most of the mills are boding forward to a big spring business as stocks are said to be down to a very comfortable level, and many of the restrictions which have handicapied the past two seasons will be removed and buyers will purchase with a greater amount of freedom than has sen the case in some time. Strines are very pepular in samples now on the predominating colors.

80 far cloths for men's wear have had a father poor reception. The fielding houses continue very slack; in animber of cases are closed down altogether so that the buyers have little enouragement in placing orders for six spring stuff. The fall season along the clothiers is close at hand, buy as in previous years, as orders are on the books show a very considerable decrease from the average for this line. with Advent of Mid-Year line capacity in all Branches will be
Sharply Increased.

(Special to Journal of Commerce.)
Cleveland, June 25.—Increased operations in the steel industry folowing the turn of mid-year are predicted to day by the "Iron Trade Review." This suthority states:

"With the advent of the mid-year idle capacity in all branches of iron and steel industry will be sharply increased.

Many mills are preparing to hand down for periods varying from two weeks to a month for making alterations and repairs. Eighteen independent sheet and tin plate plants operations and repairs. Eighteen independent sheet and tin plate plants operations and repairs. Eighteen independent sheet and tin plate plants operations and repairs. Eighteen independent sheet and tin plate plants operations and repairs. Eighteen independent sheet and tin plate plants operations and repairs. Eighteen independent sheet and tin plate plants operated without effecting an agreement for year beginning July 1.

Operations on Lake Superior iron ranges are being greatly cyrtailed. The Stevenson mine, one of the biggest producers on the Mesaba Range, has been placed on the idle list, and Ogle, Bay. Norton & Co., of Cleveland, have cased operations on the Bristol. Chatter of the steel of the sharp and Berkshire mines on the Menninee range, Empire on the Marquette, Montreal on the Gogebic and Woodbridge on the Mesaba Few mines are being operated to their normal output, and it is predicted that shipments from the great Mesaba read when a special show a decline from 12,000,000 to 15,000,000 tons from movement of last year, when 22,000,000 tons were shipped.

During the month of July additional merchant hiast furnace capacity will

00000000000000000

Liabilities of the H. B. Chaflin Company, whose failure was
announced last night amount to
at least \$25,000,000 and some
reports say that they total
\$34,000,000. A very large pari
of these represent commercial
paper of interior houses carrying the Chafflin endorsement.
The company itself has not
been a heavy borrower on paper, inasmuch as houses at interior points were known as
Chafflin houses. The great bulk
of the paper endorsed by the
firm was really one-name paper of the H. B. Chafflin Company.

(Special to The Journal of Commerce.)
New York, June 25.—Failure of the H. B. Clarftin Company to-day, was foot meexpected. A violent drop in the shares of the United Dry Goods Company, yeaterday afterfrom, on the Stock Exchange was closely followed by studied rupnor of an impending collapse in the dry goods trade. Several conferences between John Claffin and interested bankers took place late has sirght. At their conclusion, it was strongly in demand that unless help was forthcoming before this morning a failure would be inevitable. Endorsement by the Claffin Company, of some of its customers who were slow in paying, is understood to have been one of the chief causes of the company's downfall. This in turn made it impossible for the Claffin Commade it impossible for the Claffin Co. To meet its own obligations, now falling due. Furthermore, the customers motes had been discounted at various banks.

An involuntary Petition. (Special to The Journal of Commerce.)
