HAY-MAKING HELPERS BUILT JUST RIGHT FOR YOU

Hear the Dain story before you equip yourself with any hay-making implement. When you have heard it, you will buy more wisely than otherwise you could. For you, like every up-to-date farmer, want the kind of implements that cost least in the long run—and that kind bears the Dain trade-mark. Read here of three perfected hay-makers. Then ask for further facts that there is not room here to print.

THIS MOWER WON'T FAIL YOU

Dain Mowers are so built that, in the rare event of a smash, an inexpensive part repairs them. Consider the value of this detail.

Every Dain Vertical Lift Mower comes to you only after a test so tremendous it would make scrap of any ordinary implement. For sixty minutes we run this machine at a speed your horses never could. We do our best to wreck it. If we can't, you can't. It has merits you should let us tell you all about.

EASY DRAFT

The weight of the cutter bar is carried on the wheels, held down to its work by a giant-strength spring. The moment the horses move, the knife begins cutting, — not a motion wasted. Whole machine built with surplus strength in every part. You'll not be bothered by breakages if you get a Dain Vertical Lift Mower.

YOU WOULD VALUE THIS RAKE

This Side Delivery Rake double-discounts any hay-tedder you ever saw. Its triple set of teeth, turning slowly, put the hay in shape for curing without injuring the leaves or stalks. Turns the swathes upside down in a loose windrow, open to sun and air, so it cures quickly and retains all its nutriment. Simple construction, and almost break-proof. Priced most reasonably, too.

LEAST FRICTION

Dain Implements are built to reduce friction to the last degree; to withstand usage that would speedily wreck ordinary farm tools; and are designed for simplicity, strength and serviceability. Your mind will be easier and your purse heavier if you study the Dain Line before you outfit yourself with hay-making implements.

EXAMINE THIS LOADER

One man on the hay-rack, and this Loader easily handles a swath or windrow as fast as a team can walk. Its force-feed, and the side sills narrowing toward the top, make it the easiest-loading machine of its kind. Oil-tempered teeth that won't get sprung; malleable one-piece ground-rake. Eleven other exclusive betterments. No bothersome chains nor cogs, and fewest parts possible. Get details.

Besides the Success Roller-Bearing Manure Spreader, we make Vertical Lift Mowers, Side-Delivery Rakes, Hay Loaders, Hay Presses and Ensilage Cutters. Each is ahead of all its kind. Ask for details about any of these you are interested in. Write to us today—NOW.

BEST RESULTS ARE OBTAINED FROM ADVOCATE ADVERTISEMENTS.

"It must be time to make a light," he thought; so he fixed his little lamp, hung it up, and betook himself to work. He had one boot already finished; he turned it around, looked at it: "Well done." He put away his tools, swept off the cuttings, cleared off the bristles and ends, took the lamp, put it on the table, and took down the Gospels from the shelf. He intended to open the book at the very place where he had yesterday put a piece of leather as a mark, but it happened to open at another place. The moment Avdyeitch opened the Testament he recollected his last night's dream. And as soon as he remembered it, it seemed as though he heard someone stepping about behind him. Avdyeitch looks around, and sees—there, in the dark corner, it seemed as though people were standing; he was at a loss to know who they were. And a voice whispered in his ear:

"Martuin—ah, Martuin! did you not recognize me?"

"Who?" uttered Avdyeitch.

"Me," repeated the voice. "It's I," and Stepaniutch stepped forth from the dark corner; he smiled, and like a little cloud faded away, and soon vanished.

"And this is I," continued the voice; both the old woman and the boy with the apple stepped forward; both smiled and vanished.

Avdyeitch's soul rejoiced; he crossed himself, put on his eye-glasses, and began to read the Evangelists where it happened to open. On the upper part of the page he read:

"For I was an hungered, and ye gave me meat: I was thirsty, and ye gave me drink: I was a stranger, and ye took me in."

And on the lower part of the page he read this:

"Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me."

And Avdyeitch understood that his dream did not deceive him; that the Saviour really called upon him that day, and that he really received Him.

GOSSIP.

Two carloads of young Shorthorn bulls are wanted by C. A. Archibald, of Truro, Nova Scotia, as stated in his advertisement in the Wants and For Sale column in this issue. Mr. Archibald purposes attending the Shorthorn sale of D. Birrell & Son, Greenwood, Ont., on Tuesday, June 20th, and suggests that parties having for sale young bulls about eighteen months old, write him, in care of Messrs. Birrell. Mr. Archibald will leave home for Ontario about the 14th, and will plan to attend the Birrell sale.

Official records of 244 Holstein-Friesian cows were accepted by the American Holstein Association from May 13th to May 15th, 1911. This herd of 244 animals, of which much over one-half were heifers with first or second calves, produced in seven consecutive days, 100,023 lbs. of milk, containing 3,692.911 lbs. of butter-fat, thus showing an average of 3.69 per cent. fat. The average production for each animal was 409.9 lbs. of milk, containing 15.135 lbs. of butter-fat; equivalent to 58.6 lbs. or 27.9 quarts of milk per day, and 17½ lbs. of the best commercial butter per week.

Dunure Buchiyvie, the two-year-old Clydesdale stallion recently imported by McCallum Bros., Brampton, Ont., and whose picture appears on another page in this issue, was awarded second prize at Ayr Spring Show, April, 1911, in a very strong class. The Scottish Farmer reports him as "a big colt, with fine, hard, flinty bone, excellent pasterns, goes close and straight, and should make an effective sire. He was bred by John McMillan, Barneil, Kirkmichael, and sired by Baron of Buchiyvie, the best breeding son of Paron's Pride, and his dam was by Labera, by Hiawatha. He was purchased at a high price, but his high-class breeding and superior individual makeup, indicate a brilliant record as a show horse and sire."

Desk Weary? Get a Gun

From breakfast to the office and from the office back to supper, day after day—a monotonous grind. Get back to nature—back where the air is 100 per cent. pure and fairly reeks with health. Get away out where you can watch the sun rise over the marsh—where you can spend glorious, healthful hours punting slowly through the reeds in a bit of a flat boat for some shots at a bunch of fat mallards.

To reach Nature's wild things you must get where civilization isn't—and when you lose yourself in such a place with mind and eye constantly on the alert, and every muscle in play, you'll forget that you were ever in an office—you'll be nearer to the original man animal—nearer physical betterment and mental rest. This, a gun will do for you; and the best for solid satisfaction you can get is the

Tobin Simplex Gun

Hemmingford, Que.

GOSSIP.

In another column of this issue will be found a very excellent opportunity to secure a couple of good young Yorkshire hounds at reasonable prices. See N. K. Weaver's advertisement.

Israel Groff, Elmira, Ont., ordering a change in his advertisement of Shorthorn cattle and Berkshire and Yorkshire swine, states that he has a choice lot of cows and heifers in calf for sale, and some choice young bulls coming on for the fall trade; also Berkshire and Yorkshire pigs of show material. Mr. Groff breeds high-class stock. Elmira is on the G. T. R., ten miles from Berlin.
