We have just published the "Canadian Mining Manual, 1914."

This is a handbook of information concerning the mining industry in Canada.

The first part of the book gives general information concerning the chief minerals produced in the Dominion, and reviews by provinces.

The second part "Mining companies operating in Canada," gives useful information concerning location and character of properties, capitalization, officers, results of operations, etc. Companies are listed alphabetically and also according to product. This is an invaluable reference book for those who have machinery or supplies to sell to mining companies.

The book of 280 pages is well illustrated, printed on good paper, and bound in cloth. The price is \$2.00 post paid. Shall we send you a copy?
