A Scotchman in search of work was recently given employment as a laborer at a shipyard. His first job was to carry several heavy planks. After he had been at it for about two hours he went to the foreman and said:—"Did ah tell you ma name when I started to work?" "Yes," replied the foreman, "you said it was Thompson." "Oh, then its alright," said the Scot. as he looked towards the pile of planks he had yet to carry. "Ah was just a wunnerin' if you thoct Ah said it was Sampson."

A report comes from Penetanguishene that 75% of the young pigs have died in that locality this spring. As a similar condition of affairs is reported from other places in the Province, an unusual scarcity of hogs is predicted for the Fall. No one seems able to explain the reason of the extraordinary number of deaths among the young porkers.

An Englishman was once persuaded to see a game of baseball, and during the play, when he happened to look away for a moment, a foul tip caught him on the ear, and knocked him senseless. On coming to himself, he asked faintly:—"What was it?" "A foul—only a foul!" "Good heavens!" he exclaimed. "I thought it was a mule."

Rosy Checks For Pale Girls—Don't be barred from strength and spirit, don't give in to illness and despair. Ferrozone supplies tone and vigor through which all functions of womanly life are maintained and fortified. From New Richmond, Que., comes the following statement from Mrs. Isidore Boissoneault: "I take deep pleasure in testifying to the powerful influence of Ferrozone. For years my daughter has been pale and sickly—showed signs of advanced anaemia. Her lips got so white and her cheeks so devoid of color I feared consumption. The Monetary Times of May 11th says, "In Western Canada money is tighter than it has been for many years. Over-speculation and bad weather to a large degree are responsible for this. A leading banker stated recently that loans on unimproved real estate are impossible to obtain, and even on fully modern buildings they are charged for at a rate of from seven to eight per cent. The banks appear to be acting on instructions and have refused many loans they would have accepted a year ago." Continuing, the Times says: "Weather conditions are very bad for 1907 crop. Snow and rain have been of almost daily occurrence, preventing the already delayed work on Western farms. Although reports have been published telling of the progress made with seeding, it is doubtful if much has yet been done. Many districts do not expect to have any seed sown before the end of this week. The result will be a decreased wheat acreage, with an increase in oats, barley and flax. The elevators throughout the country are full of wheat, with a large quantity still in the farmer's hands, estimated at fully 20,000,000 bushels.

Why Spring Brings Weakness

WINTER WEAKENS THE SYSTEM AND ALLOWS DISEASE GERMS TO ENTER.

Great epidemics, such as fevers, infectious skin diseases and pestilence break out in the spring.

Winter shuts out fresh air from many homes, and only a few get even a little sunshine. The blood naturally grows thin, colorless and diseased,—we tire easily, sleep poorly and have headaches. In this conditions we are easy prey to sickness and fill the hospitals and graveyards.

You must create resistance and strength. The blood must be purified, must be given power to expel the seeds of spring fever.

Day by day your appetite improves,—this means more food is transformed into nutriment that will build and energize weak organs. Think it over—Ferrozone is a wonderful tonic, in fact it is more because it establishes health that lasts. Thousands use it in the spring and thereby cleanse and restore the entire system to a perfect condition. You'll feel the uplifting power of Ferrozone in a weak, it's bound to help you if you only give it the chance. Sold by all dealers, 50c a box or six boxes for \$2.50; be sure of the name Ferrozone.
