The great number of parties, (including the mateninent physicians of the Pravince.) who have testified to the efficacy of these waters, whish it has placed them high in the estimation of the palot, has induced some other proprietors of scaled mineral springs, to try to put their waters as the same footing with the Plantagenet. Nothing can be more absurd than this. These other insure Springs have been known to the public in some instances for fifty years, and in that time what have they done? Have they anything to show for the patronage they have received from the patronage they have received from the public How have they around since the Plantagenet Waters were insuduced to the Public, and in that short-space of the what has become of other Springs, which were known before them? CREDIT RATES OF PREMIUM.

THE great and decided success which has attended this Institution, has induced the Directors to HEDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at much loser Rates of Premium than those of any other Assurance Company & ansacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of FREMIUM which have been so highly approved, and are so by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured-in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.
