THE BABY'S BEDTIME

This is the baby's bedtime, Dimplechin climbs on my knee With Muzzer, I'st dest as s'ee'p' An' tired as I tan be. So I take up the dear little darling, And undress the weary feet. That have been making since daylight A music, busy and sweet. Tell me a pretty tory. She pleads in her drowsy way, And I ask, as I cuddle and kiss her, What shall I tell you pray? Tell me—and then she pauses To rub each sleepy eye— How ze little pid does to market, An' ze little pids all e'y. Then I tell, as I smooth the tangles Ever at war with the comb, How the big pig went to market, And the wee ones stayed at home, And I count off the pigs I tell of, On her rosy toes once more, And she laughs at the pitty tory As if never heard before. Then I fold her hands together, Upon her breast; and she, In her listless, sleepy fashion, Repeats her prayer with me. Before it is ended the blossoms Of her eyes in slumber close, But the words that are left unuttered He who loves the children, knows. Then I lay the bright head on the pillow With a lingering good-night kiss, Thinking how much God loved me— To give me a child like this. And I pray as I turn from the bedside He will help me guide aright The feet of the dear little darling I leave in His care tonight. —Eben E. Rexford.

A one year old grand-child of Mrs. D. Lamont, left in her care, one day last week, recalled a cup of hot fat from the table, and in attempting to drink it, turned it down its neck, burning his throat and chest very badly, but from which under the care of Dr. Burgess it is recovering.

Mr. H. McDonald had quite an ill turn on Wednesday, but is again able to be in his store.

Mr. Wm. Marsters and family left on Friday for their home in Chelsea, Mass., after several weeks stay here. A farewell picnic party was held on the place of his grand fathers, Capt. Daniel Marsters, on Thursday.

EXHIBITION NOTES

An important change has been made in the Prize List in the requirement for Breeders Young Herd in the pure bred classes. As amended—only the females are necessarily both owned and bred by the Exhibitor. The bulls can be purchased but must be owned by the Exhibitor within the Province in which he resided at least three months before the Exhibition opens.

The Grand Stand on the Exhibition Grounds has been reroofed and was used for the first time at the Firemens Tournament. Precautions have been taken by way of extra ties and bracing which will prevent a recurrence of the mishap of last winter when the roof was carried away.

Entries are coming in very fast in all classes and the prospects are that the showing in the various departments will be the largest in the history of the Exhibition. This is no doubt due in part to the free carriage of freight concession made by the I. C. R. and D. A. R. and the fact of there being no Exhibition in either St. John or Charlottetown.

The Poultry Building which has been doubled in capacity since the Exhibition of 1900 is now about completed. A large part of the addition will be used for cage birds. The action of the Commission in largely increasing the prize list in this department has met the enthusiastic approval of fanciers who will respond with an attractive show.

The Attractions Programme is about completed. It will be second to none yet offered. Official programmes are now in preparation giving full particulars. These may be had by dropping a line to the Secretary at Halifax.

G. W. Hunt of the Ottawa Fruit Exchange in a letter to the Picton Times says he has received about the last of his reports from the various apple districts, and find the crop is very light, not only in Canada, but in the United States, Great Britain and Germany as well. In Prince Edward County Astrachans and Duchess will be a fairly good crop, in fact all fall varieties show up fairly well there, but Spies and Baldwins are only 40 per cent of a crop. Greenings 60 per cent, and Kings 70 per cent. In Northumberland County a fairly good crop of Spies and Russets is promised. The best yield in the Niagara district is promised from Spies, while Greenings, Russets and Ben Davis will not show over one-fourth a crop. In Bruce there will not be half a crop on the average.

Great Britain will not have nearly as good a crop this year as last year. Mr. Hunt says it will not surprise him to see Ontario farmers getting \$2 per barrel on the trees for good varieties. In fact, he believes two dollars will be under, rather than over the mark for good winter varieties.—Toronto Sun.

LONG LIFE IS INHERITED

This statement you can prove by investigation. When a person whose ancestors had long lives dies in middle age you can in nine cases out of ten trace the cause to disordered kidneys and consequent suffering from Bright's disease, rheumatism, fatty heart or dropsy. Dr. Chase's Kidney-Liver Pills prevent and cure these fatal and painful diseases as no other preparation was ever known to do. One pill a dose, 25 cents a box.

Mr. Garrett P. Serviss, of Ithaca, N. Y., a scientific writer, declares that the recent hot spell was caused by the thinning of the vapors surrounding the sun, and that the probabilities are that the next four years will witness even greater outbursts of the sun's fury. It is to be trusted that Mr. Serviss is more ignorant than he pretends to be, or that the sun will recover its lost overcoat.—Montreal Gazette.
