

CITY AND COUNTRY

From Thursday Morning's Leader.
-E. M. Saunders, of Moose Jaw, was in the city yesterday.

-Commissioner Perry, R.N.W.M.P., left for the West yesterday.

-Rev. Father Gerritsma, C.M.I. in charge of Esterhazy mission, is in the city.

-Mrs. Sharmas, of Ottawa, is in the city visiting her mother, Mrs. Bettschen.

-Insp. Pelletier, R.N.W.M.P., has returned from an inspection trip along the main line of the C.P.R.

-It has been decided to erect the incinerator on part of the north half of block 199.

-The many friends of "Sandy" McDonald were pleased to see him driving around the city yesterday, looking much improved in health.

-C. J. Rosborough, of Grenfell, was in the city yesterday attending the annual meeting of the Saskatchewan Branch of the R.C.C.C.

-Mr. and Mrs. H. M. Tait, who have made Regina their home for over a year now, will leave for Winnipeg in a few days, where they will in future reside.

-Mrs. and Miss Morris, of Winnipeg, who have been guests of Commissioner and Mrs. Perry for several weeks, left for Victoria, B. C., by yesterday's delayed westbound.

-The contract has been let for the erection of the large R. H. Williams business block on Rose St. the Saskatchewan Realty Co. being the successful tenderers, the price being close upon \$50,000.

-The City Clerk has been instructed to call for tenders for two 250 h.p. steam boilers and other machinery required for the extension of the electric light plant in accordance with the report recently made by the City Electrician.

-Dr. J. C. Black and Dr. Rothwell are leaving for Rochester where Dr. Rothwell will be operated upon by Mayo Brothers. Dr. Black will then go farther east where he will spend a couple of weeks before returning to the city.

-The Saskatchewan Upholstering Co., wholesale manufacturers of upholstered furniture, is one of the latest concerns to settle in the city. The members of the new company are W. J. Boyle, recently with the McCarthy Supply Store, L. E. Weaver and G. A. Barnes.

-J. M. Young has had about 500 trees planted on his property north of Lewdney street, between the old government buildings and the western city limits. Messrs. McCallum, Hill & Co. are also having some planted on their Wascana and Lakewood property, south of the city, where they will put in over three thousand.

-Mr. G. Saunders, of Winnipeg, is in the city to interview the Local government, concerning some land at Grenfell left some twenty years back to a child. Mr. Saunders states he has met with great courtesy from the authorities, however, he is somewhat pessimistic as to the result of his mission. Mr. Saunders is District Deputy of Winnipeg district Sons of England, and on Monday evening visited the lodge here in Regina, where he met with a royal reception befitting the name of the city of Regina.

-The Northern Bank yesterday moved into their new \$125,000 block on Scarth Street where their business will in future be conducted. Although established for so comparatively short a time, the growth of the bank's business has been such as to justify the erection of what is without question one of the finest business blocks, if not indeed the finest, in the Province, a tribute not only to the bank itself, which is essentially a western corporation, but also to the growth of business in the city.

-Mr. Conley of the Regina Trading Co., has received the sad intelligence of the death of his eldest son Robert H. Conley which took place at Winnipeg. The deceased was a man of about 40 years of age and had been ill for only a short time of pneumonia. Additional sadness is added to the melancholy event by reason of the fact that another of Mr. Conley's sons is dangerously ill here at Regina with the same disease and the afflicted father could not leave the one to hasten to the bedside of the other. Up to Tuesday night little hope was entertained for the recovery of the son here but the young man then took a turn for the better and his complete recovery is now regarded as certain.

-In conversation with a representative of the Leader, Mr. A. P. Ketchen, deputy commissioner of agriculture, took a very optimistic view of the general situation in the province. Not for many years, he said, had the seed sown into the ground in better shape. Owing to the presence of a larger amount of moisture than was the case in former years the soil was mellow and formed a first rate seed bed. Since May 24 the weather in most parts of the province had been just what was wanted. It had been old timers' weather. Last year with the early spring the ground got very dry before the June rains came on. With regard to the quantity of wheat sown the deputy commissioner thought that there was quite as much seed in the ground as in former years, if not more, though the normal increase in the wheat acreage which they had legitimately looked for had not been maintained. On the other hand there had been quite an abnormal increase in the seeding of coarse grains. The involuntary holding over of large quantities of grain had undoubtedly caused hardship and embarrassment to many farmers of the province, but compensation had come in the shape of larger yields. It was also clear that the farmers were going to realize high prices for the growing crop, seeing that October wheat was selling for 35 cents a bushel. Unfortunately there was little prospect of the labor stringency being relieved this year owing to the large number of men requisitioned for construction work. However, the farmers with their better financial position would, if necessary, be able to pay more for labor.

-From Friday Morning's Leader.
-R. E. A. Leach, Inspector of Dominion Lands offices, arrived in the city last evening.

-Messrs Shannon have resumed work on their sewerage contract. High's steam trenching machine being at work on Fifteenth Ave.

-Judge Johnstone, accompanied by Court Reporter T. Powell, went to Moose Jaw yesterday for the purpose of holding special sittings of court today.

-With 18 "hello girls" already employed in the telephone exchange on Hamilton St., the local manager of the Bell company is still requiring additional girls.

-Mrs. T. B. Patton, of Regina, won the prize offered by the Young-Thomas Soap Company for the name for the washing powder to be manufactured by them in Regina. The firm will announce the name when they put the washing powder on the market.

-"Saskatchewan Labor's Realm," is the title of a small weekly journal devoted to the interests of labor, the first number of which has just made its appearance. The Realm, which is under the editorship of Hugh Peat, is endorsed by the Regina Trades and Labor Council.

-The Zenner Disinfectant Co. of Detroit, Mich., with a Canadian plant at Windsor, Ont., have been so successful in the sale of their goods in Western Canada that they have arranged for branch houses at the following points: Winnipeg, Calgary, Regina, Vancouver and Victoria.

-W. D. McBride, provincial manager of the North American Life; H. P. Andrews, provincial manager of the Federal Life Company; J. Addison Reid, of the Manufacturers' Life and J. W. Mowbray of the Metropolitan Life, can hereafter be seen at night elected members of the Board of Trade.

-The farm of Thomas Garry, M. L. A. for Yorkton, was the scene of a serious fire on Tuesday of last week when two large stables were completely destroyed. Fortunately Mr. Garry with the assistance of his neighbors was able to save all the horses and live stock and the greater part of the harness and other contents of the buildings.

-A. C. Stokes, formerly manager of the shoe-fitting department of the H. W. Laird Co., has severed his connection with that firm and started in business upon his own account. Mr. Stokes who has several show rooms on Hamilton street, makes a specialty of every description of office wood interior fittings for offices, stores and private houses, some of the most elaborately fitted stores in the province having been furnished under his supervision. Among the contracts that he now has on hand is included the hard wood finishings of the Brown and MacKenzie Block.

-The Greenock (Scotland) Herald in commenting upon the recent special edition of The Leader, recalls the fact that James Brown, who for long acted as organist in St. Paul's church, is a Greenockian. The same paper referring to the statement in The West that the question of Regina's water supply was solved twenty years ago by Mr. Dan Macalister, M.C.E. who stated that the Boggy Creek springs would supply a city of 50,000 inhabitants, says that the "Mr. Macalister in question is Greenock's own water engineer and that he and Mr. Brown are half brothers." It will thus be seen, concludes the Herald, "that at least two Greenockians have had a say in the rapid rise of 'The Queen City of the Plains'."

-From Saturday Morning's Leader.
-W. H. Sissons, of Yellow Grass, is in the city this week attending the Methodist Conference.

-The tender of Wm. Newman & Co. for the new compensating and storage basins has been accepted. The cost will be \$24,850.

-J. W. Emrick, of Syracuse, N.Y., representative of the Smith Premier Typewriter Co., is in the city for the purpose of appointing a provincial representative for Saskatchewan.

-A. J. Trow, accountant of the Union Bank at Saskatoon, has been transferred to Regina to fill a similar position in the branch here. Mr. Trow arrived in the city last evening.

-Archbishop Langevin arrived in the city yesterday from Moose Jaw and stayed overnight. The Archbishop will visit several Arcadia line points previous to returning to Winnipeg.

-From Monday's Morning Leader.
-On Thursday last a destructive fire occurred at the house of Mr. Dyer, butcher of Penses, the house being burned to the ground and a loss of \$1,800, with no insurance, incurred. But for a security water the fire would have been put out in its early stages and but little damage would have been done. Mr. Dyer is a recent arrival from England.

-The following scores were made by the cadets at the Barracks in the Canada Military Rifle League Saturday morning, June 8:

Table with 3 columns: Name, Score, Total. Includes Wilfrid Tripp, Harold Brown, Roy Boyd, V. H. Stewart, Wm. O'Rand, Harry Hindson, Fred Mollard, Mervyn Tripp, Herbert Gardiner, Karl Mielkeboro, William Laird.

-The parade of the 16th Mounted Rifles called by Major Whitmore for Saturday afternoon was not very large, owing to the inclemency of the weather. However, twenty-four enthusiastic troopers turned out and were taken in hand by Inspector Church, who put them through the various sectional and squadron movements. The men did very well considering that most of them are new to the work and were congratulated by Inspector Church. The next parade is called for 7 p.m. Tuesday evening and a full attendance is requested.

-From Tuesday Morning's Leader.
-W. J. Irwin has resigned from the staff of the provincial land titles office and taken up a position in the Dominion lands office.

-The Kettle River Quarries Co. commenced laying the concrete base on Hamilton street yesterday preparatory to the putting down of the erected blocks.

-General Booth, of the Salvation Army, passed through the city on last night's westbound express en route home to England after his trip to China and Japan.

ONE DAY'S OPPORTUNITIES GONE IN SPECIAL SALE OF SQUARES AND RUGS

A generous throng of buyers were here yesterday taking part in the special sale of Squares and Rugs. There was keen buying in all the advertised lines, and seldom has the first day of a sale seen so much business done. 'Tis true, however, that every reduced price means a sacrifice, and that buyers of house furnishings are getting most unusually big values. The reason lies in the fact that we desire an immediate stock adjustment.
