WORLD OF SPORT

FOOTBALL

The Chatham football team will
play a game with the Pere Mar-
quette team on Tecumseh Park to-
morrow afternoon at half past four
o'clock.

CRICKET

Chatham cricketers are a happy
lot this morning. Yesterday a team
representing Chatham and composed,<
with one exception, of the young
cricketers of this city, defeated the
strong D. A. C. team. The game was
something in the nature of an ex-
periment. It has been foreseen that,
sooner or later, the team must have
new blood, as some of the older
members found that they were ap-
proaching the "dehelerizing" age, and
reason of this, and business ties,
could not keep in the game.

Yesterday they gave place to
"colts" and the experiment turned
out successfully. The first innings
by nine runs in the first innings.
The locals went to bat first and
scored 63, being all out before lunch.
Some of their supporters were in-
clined to feel gloomy but the wise
ones said to wait for revelations.
These came when the colts took the
field, and by some phenomenal catch-
es and stops disposed of D. A. C.
for 54. Chatham had another in-
nings, in which they piled up 62, but
as time did not allow of giving D.
A. C. another the first.
For the home team the batting
of Frank Richardson was the feature
—14 not out in the first and 17 in
the second. His performance is all
the more meritorious when the splen-
did bowling of the opposing team is
taken into consideration. Lindsay,
new face on the team, and Taylor,
also attained double figures.

and forced an entrance quietly, go-
ing straight to Dulmage's room.

He awakened as the first two men
entered and, believing burglars were
about to loot the place, showed fight.

The other nine entered, one by one,
and he stared at each in amazement,
and then with increasing fear, seeing
in the mysterious, silent proceedings
premeditated and concerted action.

He was seized and dragged from
the bed.

Then he began to plead and, when
he was not answered, protested and
pleaded again, and then struggled
desperately.

His captors forced him to a well. A
rope was tied around his waist and
he was lowered into the icy water,
raised and lowered again and again
for half an hour, being immersed for
half a minute at a time.

Finally he was pulled to the sur-
face and carried to a post, for he
was benumbed and exhausted.

The lash of a horsewhip was wield-
ed by brawny arms, cut across his
back until his shirt was torn to
shreds and the flesh raw. Then, and
only then, was he released.

VICTORIA PARK

Master Car Builder Lowery, of the
Pere Marquette, was in the city the
other day and, under the guidance of
Conductor Turtle, visited the differ-
ent points of interest in the Maple
City. When he was shown Victoria
Park he made the comment that it
was one of the prettiest spots he had
ever seen.

"If I had that park," said he to
Mr. Turtle, "I would give up my de-
sire to become President of the
United States, if we had that park
on the other side we would make it
a feature and have it remodelled into
one of the prettiest and most up-to-
date spots on the continent."
