City Engineer Estimated \$50,000, But the Commiltee Cut it Down by \$10,000.

Mention of Cataract Company's Offer Seems to Irritate the Fighting Aldermen.

The Fire and Water Committee held a special meeting this merning to consider the question of installing new electric pumps for the Beach. After the report of the sub-committee, which went to Buffalo and Schenectady for information, was read, Ald. Farrar vigorously protested against what he termed hasty legislation on such an important matter. Mayor Stewart replied that if a majority of the Council decided to night to send the by-law for a vote for a return to the ward system it would be essential to send up the by-law for pumps at the same time.

City Engineer Barrow gave the aldermen a shock when he read the estimate of the cost. It was \$50,000, made up as follows:

Two six million gallon pumps and motors \$20,000 Connections to mains and wells \$5,000 Connections to mains and wells was read, Ald, Farrar vigorously pro-tested against what he termed hasty leg-

Ald. Farrar brought a ton of wrath down on his head by suggesting that the Cataract Power Company's offer be con-sidered.

"A lot has been said about that, and a for has been said about that, and very improperly said," declared the Mayor. "When we get ready to ask them for tenders it will be time enough to discuss that. The Cataract Company has no claim on us."

"They never gave no anything that

said Chairman Clark. That talk of giving

"I think to, too," said the Chairman.
It was agreed that the ratepayers
rould be asked to vote \$40,000. The

Thomas McAndrew, a boss of the factory, was looking out of a window when he saw four people enter the yard and load some brass into a bag. He and another man gave chase. The oldest man, apparently the leader, got away, but one of the three smaller ones was caught, and gave the names of the other two. The man's name is so far unknown. This morning they were all found guilty and remanded till to-morrow for sentence. The three are: Timothy Murphy, 147 James north, 17 years old; Joe Milligan, 24 Guise street, 17 years old.

Thomas Johnson, who told the Magistrate such a fairy tale as to where he got Frank E. Walker's brace and bit last week, was sent to the jail for three months to-day.

MURDEROUS ASSAULT BY CRAP SHOOTERS.

P. C. May Broke in Upon Game in a Stable in the North End.

Was Beaten With His Own Baton Until He Became Unconscious.

Yesterday afternoon Constable Ernest May was the victim of a murderous asault at the hands of a gang of crapshooters in the stables at Browne's wharf. He was doing plain clothes duty about 4.30 on his wheel, and after visiting all the likely spots about which people had made complaints he made a beeline for Browne's wharf as a forlorn hope. When he got there he spied a number of youths playing some game in an open shed, but when they saw him they all ran. One of them went into the stables, and the constable heard subdued voices asking "Who is he?" There did not appear to be many there, and as the majority of the gang had gone the other way, the constable went in to investigate, and found a crap game in full swing. He immediately called upon those present to surrender and give their names, but instead some one yelled, "Knock him out." May drew his baton and then the crowd attacked him. One, a man about 5 feet 7 inches and 35 years old, grabbed the baton, and, wrenching it out of the constable's hand, proceeded to beat him upon the head. As. May was sitting on his first assailant, he had no chance to defend himself, and after being hit a number of times he succumbed to the blows and fell unconscious. Before he lost consciousness, he remembers, the club broke at one of the blows, and his assailant picked up the pieces and renewed the assault. Some time after this two men passing along near the wharf noticed a bloody man staggering ple had made complaints he made a beeline for Browne's wharf as a forlorn

EAST ENDERS DELIGHTED WITH THE IMPROVEMENTS.

St. Patrick's Church Property Was the Admiration of Everybody Yesterday.

East-enders are much delighted with the improvements being made around St. Patrick's Church. Since the new presbytery has been sufficiently completed to allow the priests of the parish to move in, the old picket fence has been removed from the whole of the Victoria avenue side of the property and from part of the King street front, and the effect is grand. The broad boulevard that was formerly outside the fence has been added to the wide lawn on the west side, and the ivy-covered church, in the richness of its fine gothic, as seen behind the two,rows of trees, with its broad green foreground, is doubled in beauty by the absence of the old fence. The improvement was commented upon by hundreds of people yesterday, and many expressed curiosity to East-enders are much delighted with know if the change was to be perma-

MILD SMALLPOX.

A Case Brought to This City From Toronto.

The city has a case of smallpox under narantine. Dr. Roberts, Medical Health Officer, was informed shortly after 4 'clock yesterday that Eva Hutchinson, a 13-year-old girl, residing at 86 Merrick street, was suffering from the disease. After returning from a visit to her aunt in Toronto about three weeks ago, the girl was taken ill, and confined ago, the girl was taken ill, and exitined to her room. Yesterday at noon Dr. Dillabaugh was called in, and at once decided it was smallpox. Dr. Roberts, after verifying the report, at once took steps with Chairman Quinn, to isolate the house. They secured a man to see that no re left the house, and a policeman was on guard, too, last night.

J. E. Wilkie, a gas fitter and plumber, lives at 86 Merrick street. Mr. Wilkie was rather surprised when he prepared to leave his house this morning and was ordered back. There are three families in the house: Mr. Wilkie and his wife; a newly married couple; the patient, her

in the house: Mr. Wilkie and his wife; a newly married couple; the patient, her mother and grandmother.

Dr. Roberts says there is no danger of an outbreak. He is quite satisfied the girl contracted the disease in Toronto, and he has notified Dr. Sheard, of that city. The case is a mild one, the doctor says. The people have lived in Hamilton nearly all their lives. The owners of the house, it is said, are auxious for the patient to be taken away and cared for by the city. The Board of Health will meet to-night to consider the question of isolating the case in a tent.*

work of cleaning out the basins is progressing. The basin which is being cleaned out has been cut off so that no sediment can come through the pipes. Should the one basin, however, not prove sufficient the other one will be reopened. Ald Clark says the story that the well has not been propriy cleaned out is not true. The color in the water, he says, was due to the fact that when the conduit was opened wide the heavy current carried the little sediment that remained in it through to the pumps. There will be no further trouble from that source. The chairman says that the City Engineer, Engineer McFarlane and Myles Hunting, caretaker of the basins, are looking after the work.
