

STRIKE OF 30,000 TAILORS.

13,000 Out Now, Others Likely to Quit Work To-day.

Half of the Men Had Left Union, But Are Being Re-enrolled.

Shops Which Have an Agreement Are Not Affected.

New York, Aug. 4.—Seven thousand coat tailors went on strike in 150 shops in Manhattan yesterday in addition to the 6,000 who went on strike in Brooklyn last week.

At a mass meeting of the locals of the Brotherhood of Tailors in Clinton Hall early yesterday afternoon it was decided to make the strike general throughout New York and vicinity.

Committees went through the shops after the meeting and called out several thousand more coat tailors and by tomorrow it is expected that about 30,000 will be on strike.

This is the largest strike of coat tailors that has taken place in six years. At least one-half of the strikers are non-union men who were formerly in the union, but dropped out after they gained some temporary concessions.

The Brooklyn strikers prepared a schedule of demands yesterday. They ask 10 per cent. increase in wages for week workers, a general nine hour work day and the abolition of task work.

ed for Waterworks rolls. The committee will also deal with the city engineer's report on a petition for a water main on Hilliard street, and the request of the Ontario Lantern Co., for the removal of a drinking fountain situated close to their factory.

The 37th annual meeting of the American Public Health Association will be held at Richmond, Virginia, in October. Dr. Roberts Medical Health Officer, will be in attendance, and read a paper on the clean milk campaign in Hamilton.

Inspector John Brick swooped down on a rags and metal merchant on Main street yesterday and demanded a \$5 license fee. Very guileless the industrious one argued that he was from North Bay, and was not liable. That might have gone with it, but not so with John. That license fee must be paid within 30 many hours, or a more or less painful interview with Magistrate Jells would follow.

School taxes fall due this year on August 15, previously they have been due in September, and were divided into two payments. In this way the taxes for the year are divided into three instalments.

The following building permits have been granted:

E. B. Patterson, brick dwelling on Mary street, between Barton and Robert, for C. Childs, to cost \$1,000. T. Tallman Brass & Metal Company, a brick stable on Wilson street, between Sanford avenue and Arthur, at a cost of \$500.

James Bryer, brick dwelling, corner Main street and Westmoreland avenue, for Dr. B. Blain, at \$4,200.

City Forester Filer, of Buffalo, yesterday paid for 340 quarts of tussock moth cocoons. The quantities were estimated by the size of the cans, bottles and bags in which the children took them to Humboldt Park and Masten Park High School. Naturally, some of the youngsters tried to be tricky and there were twigs, leaves and pieces of cotton among the cocoons, which had to be deducted. The department pays ten cents a quart. Three hundred and forty quarts of cocoons a day will make quite a difference in the ravages of the tussock next year. Buffalo did the same thing last year, and the result is that there is a very noticeable decrease this year.

CZAR ASHORE.

Visits Osborne Naval Station With King Edward.

French Press Pleased at Meeting of Monarchs.

Paris, Aug. 4.—Commenting upon the exchanges at Cowes between King Edward and Emperor Nicholas, the French press generally is of the opinion that the words of the British sovereign intimate that England expects Russia to develop her constitutional institutions, and express great satisfaction at the prospect of closer relations between Great Britain, France and Russia.

Cowes, Aug. 4.—Emperor Nicholas, who is here on a visit to King Edward, came ashore from the imperial yacht Standart this afternoon for the first time since his arrival last Monday, and in company with King Edward visited the naval station at Osborne. Their majesties drove in a closed brougham.

MAN IN CASE.

The Bullet That Struck Him Intended For Woman.

So Mrs. Neville Castle Told the Police To-day.

New York, Aug. 4.—The bullet from her little .22-caliber revolver that struck and slightly injured William D. Craig late yesterday in a corridor of the Waldorf-Astoria was intended for herself, declared Mrs. Neville Castle to-day at police headquarters, where she was taken before arraignment in court after a night spent in a cell in the Tombs prison.

"I intended to kill myself," Mrs. Castle told the Detective Bureau's chief, "and had the pistol in my hand, but he was struck by the bullet. I had intended for myself. I knew Mr. Craig went to the rooms of the Rocky Mountain Club in the Waldorf-Astoria to read, and as he passed me without taking notice of my presence I said to him, 'Will, don't pass without noticing me. I am going to finish myself.'"

According to Mrs. Castle's statement Craig told her to go ahead and do it. "Mr. Craig has been an admirer of me ever since I was a tot," she said. "I have never annoyed or molested him in any way. His wife and I are distant cousins, but we are not now on friendly terms. This is because Mr. Craig told Mrs. Craig in my presence that he admired me. It is only natural that Mrs. Craig should defend her husband. I would do that if I were in her place."

Mrs. Castle's maiden name was Mary Scott and she is the daughter of H. H. Scott, a merchant of San Francisco. After coming east several years ago Mrs. Castle appeared in several theatrical productions.

CAN YOU HIT YOUR NOSE?

Gotham Court Sends Woman Who Failed in Test to Hospital.

New York, Aug. 4.—Mrs. Harriet Rebecca Berry's failure to hit the tip of her nose with her index finger while her eyes were closed convinced Magistrate O'Connor that there were grounds for believing her mentally unbalanced. Accordingly he committed her to the psychopathic ward at Bellevue hospital for five days.

Mrs. Berry appeared in the west court to-day charged by Madeline Zanderweah, who lived with her, with having attempted to choke her to death. Five days in the hospital will determine whether Mrs. Berry will be formally committed to the insane asylum.

Mrs. Zanderweah declared that while she was sleeping yesterday Mrs. Berry tried to strangle her. Her screams, she said, prevented Mrs. Berry from carrying out her intention.

Mrs. Berry says Dr. Eliot, of Harvard, stole her ideas of a new religion from a book that she wrote entitled "The Individual Development of Man," testified Mrs. Zanderweah. "She has been acting strangely of late and I fear she will do me serious injury."

Dr. F. W. Robertson said he had been engaged by members of the Berry family several years ago to inquire into her sanity and found she was suffering from delusions. Dr. Hugh Kidder, an alienist, who says he has treated Mrs. Berry for twelve years, swore she was given to strange beliefs and actions.

"I have not heard enough to convince me that Mrs. Berry is dangerous or that the public would suffer if she was allowed her freedom," said Magistrate O'Connor. "Therefore, I am going to ask a few questions myself."

"How old are you?" was his first interrogation. "Forty-seven years," promptly replied Mrs. Berry.

"Why should your relatives wish you to be placed in an asylum?" "Because I own property and bank accounts, and they wish to take charge of my affairs and get my money."

"Now, Mrs. Berry, I will ask you to close your eyes," said the magistrate. "Take your index finger and strike it on the point of your nose," said the court.

Mrs. Berry jabbed her eye with the first attempt. She dented her chin with effort number two. She became excited by the test and in a rain of jabs succeeded in striking every part of her face except the objective point.

"Gentlemen," said the magistrate, turning to the medical experts, "that convinces me that she should be examined. This is an old, reliable test and she has failed."

Mrs. Berry was graduated from the New York Hospital for Nurses in 1892 and from the Sloan Maternity Hospital Training School. She is a widow.

CAMMILLE ADMITTED IT.

(Continued from Page 1.)

It was noticed that the bill was a Confederate and therefore valueless. Information was at once given to the police, and a description of the woman supplied. The aid of Budimir Protich, the Crown interpreter, who has a wide knowledge of the foreigners, was secured. He went to work intelligently, and soon had his case ready.

The particular feature of the description of the woman was a ring. Protich knew the woman who wore such a ring. He went to the house on Saturday, but the woman was house cleaning, and did not have the ring on. He waited around on Sunday, and saw her come out on the street dressed up. He then went up and spoke to her, and noticed the ring on her finger. A warrant was applied for, and she was arrested last night.

She told Mrs. Berry, I will ask you to close your eyes," said the magistrate. "Take your index finger and strike it on the point of your nose," said the court.

Mrs. Berry jabbed her eye with the first attempt. She dented her chin with effort number two. She became excited by the test and in a rain of jabs succeeded in striking every part of her face except the objective point.
