CHERRY PECTORAL.

For the rapid Cure of COUGHS, COLDS, HOARSNESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, there is none more important than that of man-kind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands of thousands every year. Indeed, the most almost remarkable fact is, that this remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following:—If you desire further enquiry to my American Almanac, which the agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these statements.

Office of Transportation, Lausens R. R., S.C., Aug. 4, 1853.

J. C. AYER. Dear Sir.—My little son four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him, pronounced him a dead child. Having used your CHERRY PECTORAL in California, in the winter of 1850, for a severe attack of Bronchitis, with wonderful success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning, and by ten o'clock at night, I had decided a change for the better, and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent.—For all afflictions of the Throat and Lungs, I believe it the best medicine extant. A feeling of great languor, fatigue, promises me in advance you these blessings—best for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,

J. D. POWELL, Capt. Trans., L. R.R.

Rock Hill, (Somerset Co.) N. J., July 21, 1853.

Dr. J. C. AYER.—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of no cases where the heat they can say in, is not too much for the good it has done.

I take pleasure in selling it, because I know that I am doing a service to the worth of their money, and I feel gratified in seeing the benefit it confers.

Please send me a further supply, and believe me

Yours, with respect,

JOHN C. WHITLOCK.

Almost number of certificates can be sent you, if you wish it.

Windsor, C. W., June 26, 1853.

J. C. AYER. Sir.—This very certify that I have used your CHERRY PECTORAL with great effect, and it is my sincere belief that I should have been in my grave this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my conviction when I tell you it is a priceless remedy.

Yours very respectfully,

D. A. McCULLIN, Attorney at Law.

Wilmington, Pa., September 25, 1853.

Dr. J. C. AYER. My dear Sir.—Your medicine is much approved of by those who have used it here, and its composition is such as to insure and maintain its reputation. Invariably recommended for pulmonary affections, as do many of our principal physicians.

I am your friend,

C. F. STREETER, M. D.
