## As Supplied to H. M. Penitentiary.

Editor Evening Telegram.  
Dear Sir,—I would like to ask a favour of you, one that will not cost you much, and at the same time one that will be doing me a favour for which I will be ever thankful. I am only a poor labouring man, eager to work, but of any kind is scarce. It's a true saying, that "Tory Times are Hard Times." I am not sick or perhaps I could get into the Hospital. I do not like the idea of trying the "Poor House," as I know that they would not admit me. These are the respectable places where I would not be ashamed to satisfy my craving, and where the best is not too good. Now seeing that there is no chance for me in either of these institutions, the favour I ask of you is this. Will you help me to get into the "Penitentiary." You can do it easily. All I ask you to do is to leave your office door open to-night, and at the same time to leave a few loose cents around. I will be there about 3 in the morning and make such a fuss that I will be caught in the act of burglary. Failing in this the few cents will come in fine to get a couple of "Old Tomes" when the pubs open to try another scheme. I want to do it to-night if possible, so as to be brought up before Judge Knight in the morning (no pun) and get sentenced as I particularly want to get down before dinner. Now I have not told you yet the cause of my craving. Well, it's this: I read in the Morning News that they are serving the "prison" inmates with the now famous "Selling Fish" at meals, alternately, with the ordinary salt, and it is to get a taste of this that I would not mind spending a few days at the "Hotel Quilt Vidi."

By the way, that's a great ad. for the new fish, and they say "that they find it a decided improvement in the scale of prison dietery." Yes, and I have an improvement on that as an ad which would further advance the sale. I don't mind telling you in the anticipation of your helping me out and that is, "that every wrapper on the fish should be labelled 'Selling Fish' as supplied to the guests of His Majesty's Penitentiary, St. John's. Don't breathe this yet as I may get a \$1,000 or so for the idea. Trusting that you will see your way clear to grant my request.

I remain yours,  
YOUNG SHARK.

## Injured by Falling Tree

A man named Staples was badly injured last week by the falling of a tree. The accident occurred in the woods back of the quarry. While engaged in cutting down a tree, the latter fell with a crash and Staples being unable to reach a place of safety in time was struck by the falling timber. He received several bad wounds about the head and his son, who was with him, not being able to remove the heavy tree from the prostrate form of his father, the latter was obliged to wait an hour or more until assistance arrived. The wounds were dressed by Dr. McDonald and at last accounts the man was resting comfortably.—Western Star.

**MINES CLOSED.**—Owing to the mildness of the weather yesterday both of the mines were closed, but, however, after last night's frost there will be good ice sheets to-night.

## Mary in a New Role. Puts Her Views in Verse.

Editor Evening Telegram.  
Dear Sir,—  
Tonight it is rather frosty.  
The wind is North by West,  
I'm sitting by the fire  
Mending Tom's sleeve vest.  
Remember, 'tis not a white vest, sir,  
But good warm corduroy;  
For he goes in for wood to-morrow,  
sir,  
As coal is too dear to buy.

Poor Tom must go without a dog,  
For the "Society" here, alas,  
Must raise a large amount of sheep  
To eat the two-blade grass.

I'm thinking of Uncle Ben, sir  
And the way he despised the  
ponds;  
I must tell him that one of the  
"clams," sir,  
Found its way to fair St. John's.

I'm awful glad to hear from Jane,  
And 'twill be to me great joy.  
To entertain my worthy friend  
When we celebrate John Guy.

Tom has stood for member,  
And did not stand in vain.  
So we're going on a pleasure trip,  
Tom and I and Jane.

But I hope my Tom won't do,  
As other men have done,  
Take Jane to all the theatres,  
And let me stay at home.

Tom says the bills will all be paid  
By the Poor Man's Government;  
The first-class fares and best hotels  
Won't cost us one red cent.

We'll see more while we're away,  
I'm sure we'll never tire;  
And whisper, sir, one of the best,  
The Festival of Empire.

Already we've commenced to laugh  
At the way we fooled the boys;  
But they haven't sense enough to see  
We took them for a "rise."

But sake's alive, 'twas all a dream,  
I'm still but Tommy's Min.;  
The clock just struck eleven, sir,  
And Tom he just came in,  
So good-night, from yours, etc.,  
MARY.

## Youthful Thieves Arrested.

All yesterday Detective Byrne and Sgt. Noseworthy were out, the latter in plain clothes, looking up the thief who robbed Jackman's store, Saturday night. Their efforts were rewarded by capturing the two well known young thieves, Lidstone and Peddie, of the West End, boys who are homeless and left to run about the city. We learn that after arrest they confessed to the commission of the deed. For several years past these youths have repeatedly been before the court for theft, and during two months past have broken into 4 different stores.

## S. S. Bloodhound Reports Seals.

Messrs. Baine Johnston & Co. this morning had a wire from Capt. Jacob Winsor of the Bloodhound which read:—  
"Have five immature white coats. Wind west, big sea on."

## POLICE COURT NEWS.

In the police court to-day a drunk was discharged and another was fined \$2 or 7 days.  
Walter Lidstone and Archibald Peddie were each up charged with the larceny of \$20 cash from E. M. Jackman's store on the 3rd inst. and two pairs of rubbers valued at \$3. The boys were remanded and may again be arraigned to-morrow.

## Lecture on Placentia.

H. W. LeMessurier, Esq., Assistant Collector of Customs, will lecture before the members of the T. A. & B. Society Tuesday evening next, taking as his subject "Placentia." On Easter Monday night he will deliver the same lecture to the members of the Star of the Sea Society at the ancient French capital. A treat is in store for those who attend this lecture here, for it will be interspersed with anecdotes and quaint stories, and that the subject will be handled well none who have heard Mr. LeMessurier in the past will doubt.

## New Steamship Co.

A new steamship company was formulated yesterday when a number of local people purchased from Baine Johnston & Co. the s.s. Euphrates. The new company will be known as the Euphrates S. S. Co., with Mr. Frank Macnamara, the well known business man of Queen's Street, as its acting managing director. The boat will ply between Bell Island and other points in Conception Bay, taking passengers and freight. This is a great necessity, as the trade is increasing in the Bay. Though a good deal of the stock has been subscribed here, most of it has been taken up at the Island. She will be commanded by Capt. George Stewart.

## Hat Debate.

An interesting Hat Debate was held in the British Club Room last night, and proved to be most instructive and entertaining. Such questions, viz.: Is the Municipal Council justified in raising a loan for Civil Government? Is the Press fulfilling its destiny? Should Seals share in the insurance on the loss of cargo? Should Women Exercise the Franchise? How can we Lower the Cost of Living? etc., etc., have not only some interesting observations. The speakers were Messrs. Withycombe, Carberry, Maidment, (2), Edgecombe, Chafe, Ude, Johnston and others. The Society's President, Mr. W. H. Goodland, occupied the chair.

## Puts an End to Stomach Misery.

Indigestion, Gas, Heartburn or Dyspepsia vanish in five minutes.

Every family here ought to keep some Diapiesin in the house, as any one of you may have an attack of indigestion or stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a distressed, out-of-order stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heart burn, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapiesin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or feverish feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is at any drug store, waiting for you.

These large 50-cent cases contain more than sufficient to cure almost any chronic case of Dyspepsia, Indigestion or any other Stomach troubles.

## Train Notes.

The west bound express left Bls. at 8:25 a.m. to-day.  
The incoming express left Port aux Basques at 8:50 a.m.

The Bruce express left at 6 p.m. yesterday took out Mr. Dove, Mr. Scaplin, Rev. Fr. Donnelly, J. Baxter and 40 others, including six sealers who could not get berths.

The local arrived at 9:50 last night bringing J. Walsh, J. Walters, J. Power, Mr. McGuire, Capt. and Mrs. Dunne, M. Murphy and 15 others.

**BUYERS EN ROUTE.**—The Virginian, from which ship a marooned man was rescued here Wednesday, arrived at Halifax last evening. Mrs. R. G. Rendell and Miss Carbery were on board with it. It is thought, others of our buyers. They are now on their way to Sydney to connect with the s.s. Bruce for home.

## Lecture on Ireland.

A full house greeted Rev. Father O'Callaghan last night when he came forward at the Star of the Sea Hall to deliver a lecture on "Ireland." Amongst the audience were His Grace the Archbishop, Rev. Fr. St. John and Rev. Fr. Sheehan.

After the President, Mr. E. M. Jackman, had introduced the lecturer the interesting recital of the story of Ireland began. Father O'Callaghan amused and delighted the audience with his vivid description of scenes and beauty spots in the Old Land; some very beautiful pictures were thrown on the screen. The stories that were interspersed were marked by a charming blending of pathos and humour. Some beautiful Irish songs were rendered on the gramophone which added a pleasing variety to the entertainment. The lecture was highly appreciated. At the conclusion Mr. W. J. Higgins proposed a vote of thanks which was seconded by Mr. W. F. Trelogan and carried unanimously.

## Sad Fatality While Bird Shooting.

It falls to our pen to add another to the list of fatalities that have occurred in this neighborhood within the past twelve months. On Friday, 25th, the news spread rapidly through the settlement that a young man named Arthur Hynes, living with his uncle Paul Aucoin, lightkeeper at Long Point, had on the previous day drifted out the bay while out shooting sea birds at some distance from the shore and that there being no other boat in the vicinity of the light-house and the keeper's nearest neighbors being from home at the time, no assistance could be rendered the drifting man. This information was brought here by a messenger from Mr. Aucoin, who seeing that no assistance could be rendered from his quarters sent word to friends here to go to the rescue of the unfortunate man, whom he thought from the direction in which the wind was blowing may have driven into Fox Island or into some of the coves on the eastern side of the bay. A search party started out and managed to reach Fox Island, but their quest was fruitless, and from the view obtained from the Islands it was seen that the whole shore northward was lined with heavy slob ice through which no boat could force its way to land in that direction, and it became evident that in the ordinary course of events no reasonable hope of the poor fellow's safety or recovery could be entertained. The young man was a general favorite and his sad and untimely end has caused a widespread feeling of regret and sorrow and evoked feelings of the deepest sympathy for his mourning relatives.

Rev. Fr. Hawkins in the course of his sermon on Sunday last referred in feeling language to the sad event, and drew from it an instructive lesson on the uncertainties of life. "Verily in the midst of life we are in death," Western Star.

## THE PAINS OF THE AGED.

Are usually due to the tendency of the kidneys to wear out as age advances, giving rise to the accumulation of poisons in the blood and causing backache, lumbago, aching limbs and rheumatism. Dr. Chase's Kidney-Liver Pills are particularly prized by aged people because they can be relied upon to invigorate the action of the liver, kidneys and bowels and so remove the cause of aches and pains.

## Association Football.

Editor Evening Telegram.

Dear Sir,—An item headed "Visiting Footballers from Scotland" appears in yesterday's Chronicle which is rather misleading in its reference to the famous Hampden Park amateurs of Scotland. The said item, as far as a cutting from the Scottish Referee—referring to the visit of Mr. Mark Chaplin, President of the N.B. Football League, to Glasgow—is all right, but when your contemporary refers to the popular Glasgow "Spiders," i.e., the "Queen's Park" or "founders," i.e., the "Queen's Park" or "founders," as many times champions of the Scottish League, he displays profound ignorance of Scottish League football, as the "Spiders" have never been anywhere near the head of the League championship table and, as a matter of fact, have only recognized the League and identified themselves with it during the last 10 years.

As one who was closely connected with the renowned "Spiders" in the late seventies, when the Association World rang with the praise of the "prince of dribblers," James Weir, and noted all round men such as Harry and Peter McNeil, Campbell, McKinnon and Tom Hight, of Queen's Park, and as "one" Scotchman who would be intensely delighted to welcome the famous amateur team of to-day to St. George's Field, I wish, with your permission, Mr. Editor, through your columns thus to set right the scribbler of the Chronicle. Thanking you in anticipation for space,  
Yours truly,  
OLD SPIDER.

## Placentia Notes.

Dr. H. Chisholm arrived on Monday on his way to Odeon to deal with the diphtheria there.

Last week many people got in their summer supply of ice.

The rabbit season closed on March 1st. On that day we had more rabbits than we had for all the winter.

Messrs. J. Greene and H. Greene are building a saw mill at Point Verde. It will be run by water-power, and should prove successful.

Many dories are being built at Point Verde this winter. The fact is every fisherman there is building one for himself.

On Easter Monday night, Mr. H. W. LeMessurier, of St. John's, will deliver a lecture in the S. S. Hall on "Old Placentia."

Black duck, tur and other wild birds are very plentiful around the wharves. Quite a number have been shot.

The regular monthly meeting of the S. S. A. was Sunday, the 6th, for the nomination of officers. As there was no opposition, the old officers were re-elected.

It is with deep regret we chronicle the demise of Mrs. E. Bonin. The deceased lady had been ailing for a long time. Her husband pre-deceased her some years ago. She leaves a mother and three sons.

It is with sorrow, we tell of the sad ending of the darling daughter of Mr. and Mrs. M. Greene. She contracted that awful disease, diphtheria, and in a few days succumbed.

Out of the vast number of Irish people that inhabited this place at one time, there is but one now remaining. That person is a man in the person of Mr. Maurice Dee. This old Irishman left his home in Ireland when a mere boy of but twelve years of age, and worked his way out here. Although well advanced in years he can still sing and dance an Irish tune.

A true Irishman can jig a bit. And sing the Wearing of the Green. And cheer for Erin's Emerald Isle. And make love to his sweet Colleen.

The road that my last notes referred to as being torn away is now being repaired. It is always good to speak upon a thing like that. They are only temporarily fixing it until the spring.

The mine I referred to in my last notes as to be described this week is going to be worked in June.

This mine is situated at Broad Cove, North East. It was successfully worked by Capt. Mitchell in the year 1865; but at that time there was an enormous amount of money expended on it. The quartz or copper that is taken from the mine is of a paying quality but does not exist in large quantities. The principal object all along is to try and locate the proper lode, which has not been located yet. Professor Murray pointed out some years ago, that this lode

## Frozen Herring Duty.

Special to Evening Telegram.  
WASHINGTON, D. C. March 10.  
Complaining that the govt. has placed itself in the position of contending that fish should be frozen before being caught to be "naturally frozen" a Boston firm of fish dealers has asked representative Roberts of has asked representative Roberts of sury dept. against a recent ruling. The letter says that the Treasury dept. held that fresh herring naturally frozen was not dutiable as frozen fish at three fourths of one cent duty per pound but that this was modified by a letter on March 5th from the dept. addressed to the collector at Boston saying that their seemed to be some misunderstanding. The latter letter held that fish frozen in tubs or on decks, of vessels after they had been caught cannot be classed as naturally frozen and therefore are subject to the old duty of three fourths of one cent a pound.
