Spectacular Hockey.

FELDIANS DEFEAT ST. BON'S IN FAST GAME—SPLENDID INDIVIDUAL PLAY—3600 SPECTATORS—GOVERNOR PRESENT.

The Feldians defeated the St. Bon's by 8 goals to 6 in last night's game, which was the most spectacular of the season. What was probably the largest number of spectators that ever attended a local hockey game, was present, and long before the start, the Rink was filled to overflowing. His Excellency the Governor and suite occupied the Director's Box. The game was remarkable more for the excellent individual play exhibited, more than anything else. While team work was more in evidence than in former games, there was room for improvement in this direction. Organised "rooters" for both sides raised a deafening clamor during the game. The boys from Bishop Field College and St. Bon's College turned out in large numbers to urge on the old boys of their schools to greater efforts.

GREAT GOALTENDING.

The work of both goalkeepers was excellent and both Hunt and Halley well deserved the applause which their great saving called forth. Nix was always in readiness and at one time was compelled to defend his goal with a stick, but a new one was handed him before he could take the remnants of his old one. Halley had not the experience of the Feldian goalie and was not quite prepared for some of the tricky shots which got past him, but nevertheless there was little fault to be found with his play. He should, however, remain in his goal more than he does.

GOOD STICKHANDLING.

For the Feldians, Tait played the best game of his life and showed form throughout. He says that he was playing for the school. His stickhandling was a treat to watch, and his defence work contributed largely to the success of his team. Ewing was responsible for some well placed goals and he appeared to be the hardest worker on the Feldian team. Payn was also in good form, and Rendell and Winter did excellent work. Callahan, Muir, Cahill and Phelan were the mainstay of the St. Bon's. Callahan's stick handling was very tricky and pretty to watch. Cahill worked very hard from start to finish and his efforts were often successful in helping his side to score. Muir was another hard worker and several times broke through his opponents defence,

although his attempts to score did not come off. Phelan was the star of the St. Bon's. His skating and excellent stick handling combined with a powerful shot, resulted in several goals for his team. With a little more weight behind him he would be the best man on the ice this year. Jack Higgins got in some fine stickhandling during the second period. Judged by previous games this season, far too many men had to be penalised, and several more should have been sent to the fence. This tendency to spoil the game and it is to be hoped that cleaner play will characterise all future games.

FAST PLAY FROM START.

Sharp at 7.30, Referee Jack Tobin started the game. From the beginning, play was very fast. In fact, so hot was the pace at the opening, that it was apparent it could not be maintained throughout. The puck was brought from goal to goal in quick succession. Following a man being hit by the fence, the game stopped for two minutes, but despite his absence, St. Bon's opened the scoring through Cahill, who took the puck down the boards and sent a non-stop in to Nix. Soon afterwards, Winter was sent to cool his heels in the penalty box, and while he was off the ice, Tait secured the puck near the St. Bon's goal and scored. Following the centre, Cahill had a good try but was robbed of his net by the St. Bon's. Tait and Payn had a combined try at the St. Bon's net. Winter next stick-handled through but Halley rushed out on him and brought off an excellent save. Jack Higgins then skated through the Feldian defence but Nix was too good for him. The Feldians took the lead soon after, when Ewing beat Halley after getting the disc from a puck-off near the St. Bon's goal. Three minutes later, at the end of the period, Ewing obtained the puck in mid ice and brought it through the opposing defence, placing it behind Halley for the Feldian's third goal. Before the end of the period Callahan was penalised for slashing. No further goals resulted. In the 5-1

SECOND PERIOD

play was not quite so fast. Three minutes from the start, Tait made a spectacular dash through and succeeded in finding the net. With a majority of three goals against them the St. Bon's urged on their players to greater efforts. Nix was again in hot money minutes. Following play near the Feldian goal, the disc came off Tait's stick, and entered the net, making the St. Bon's second score. Shortly after this Payn was sent off for two

minutes, but celebrated his return by scoring from a fine wing shot after the first minutes play. A few minutes later he was again sent to the fence and was followed there by Rendell. There was no further scoring during the period, although Higgins made several good attempts.

EXCITING PLAY.

Almost as soon as the puck was centred at the commencement of the third period, Harold Rendell was sent to the box for a minor infringement of the rules. The St. Bon's for a time surrounded the Feldian goal and Phelan finally beat Hunt with a long shot. Soon afterwards, Phell went right through the goal, the St. Bon's fourth goal. At this juncture, Pavn and Tait who had been taking a rest, were let loose and soon. Pavn got through and scored. Just over a minute later he again went through, and this time, put both puck and goaler into the net. Soon after, Ewing was given a two minutes rest, and while he was off, Phelan went down ice, and again beat Nix with a long shot. With the score 7-5 in the Feldians' favour, St. Bon's renewed their efforts but could not penetrate their opponents' defence. Pavn went off for two minutes, but, despite this, the Feldians added another goal to their score, and two minutes later Higgins closed the scoring for the game with a well placed shot which was too much for Nix. Two more penalties were awarded before the game closed, Rendell and Callahan getting two minutes each. Several good efforts were made by both teams, to no avail, and the final goal went with the Feldians victorious by 8 to 6.

Preparations for Royal Wedding.

LONDON, (Associated Press).—Arrangements for Princess Mary's wedding to Viscount Lascelles at Westminster Abbey the last week in February are beginning to take form. The Lord Chamberlain, the Duke of Atholl, has been commissioned by the King to draw up a sketch of the proposed ceremonial and the State Chamberlain, Sir Douglas Dawson, will prepare the program. The sending out of the invitations to the Duke of the Ceremonial Department of the St. James Palace. A fortnight's notice is usually considered sufficient for such oc-

Annual Meeting

ST. GEORGE'S COAL FIELDS, LTD.
—OLD BOARD OF DIRECTORS
ELECTED EN BLOC.

There was a very large attendance at the annual meeting of the shareholders in the St. George's Coal Fields, Ltd. held in the Board of Trade Rooms last night. The President, Mr. J. J. St. John, occupied the chair, and called the meeting to order at 8.15. The Secretary-Treasurer read the minutes and submitted the financial statement. The latter showed that expenditures had been made with the utmost economy, being nearly all spent in development work. A short resume of what had been accomplished for the year was then given. Mr. Freeman's visit to England in connection with placing the property on the market showed that he had met with considerable success, and that in the spring of the year a large company will send out engineers to make an examination with a view to operating on an extensive scale. Mr. Freeman's visit to the U.S.A. and his dealings with the Americans, as the report showed that in June last operations on the Barachols River section were resumed. The Furlong seam, which showed 21 inches of coal at the outcrop, was driven on for 180 ft., showing an average of from 2 to 3

ft. of coal. Several pits were also dug on the surface of the seam and in one place a five foot seam of clean coal was exposed. At the present time a separate coal seam has been opened up, and according to the latest scientific information seven of them gave a total width of 25.10 inches, and are well within the range of workable seams. They are:—

	Feet	Inches
Howley	4	2
Cherry	2	2
Jukes	5	5
Furlong	3	0
Murray No. 1	3	3
Murray No. 2	5	4
Tom Diamond	2	6

The Murray seam has been traced over a distance of 7 miles, and where it has been opened up at the outcroppings the seam showed from 4 feet 5 inches to 7 feet of clean coal. The report was received with applause. Mr. F. W. Meaney in making the adoption, complimented the executive on their showing. He said he was aware that the difficult times of last year made it almost impossible for the directors to negotiate the sale of the property. This retarding influence was felt the world over, and could be seen in our own country when one of the largest coal enterprises failed to carry out owing to the stringency of the money market, and had to seek relief from the Government. As the St. George's Coal Co. depended entirely on the goodwill of the people he re-

regretted that certain statements made semi-officially had been prejudicial. The promises made by the Government to the George's Coal Company (which had not yet been fulfilled) caused the company to lose a lot of working capital, as the directors assuming that the promises would be carried out withdrew the stock from the market. Mr. Meaney said, however, that he did not believe that there was any deliberate intention on the part of the Government to defraud the company. The speaker, spokesman of the Government was persuaded by certain interests to assist financially in the working of other areas that did not contain coal in commercial quantities. The speaker said he believed that the clouds of depression were passing, and that by putting their shoulders to the wheel for a year would see the success of the venture. Mr. Freeman in reply to several questions re cancelling the sale of shares, stated that the Government at that time promised financial assistance, and \$500,000 was voted by the Legislature to develop the West Coast coal areas. Mr. Coaker was quoted as saying that St. George's coal property was too valuable an asset to allow to fall into the hands of foreign capitalists.

Mr. Freeman also mentioned the visit to the coal fields made by several eminent geologists, neither of whom could understand why they were not being worked.

Messrs O'Reilly, Robinson, James

Hamlin, Barter and Moore also took part in the debate. Mr. Meany's motion for adjournment of the report was seconded by Mr. C. T. James. The election of officers then took place, the old directorate, with the exception of Hon. D. A. Ryan, being re-elected on motion of Mr. J. Dee, seconded by Mr. C. T. James. Mr. Ryan, who is absent from the country, resigned his position on the Board, and his place was taken by Mr. J. Dee, on motion of Mr. J. T. Meany seconded by Mr. P. J. Shea. The election of officers was conducted by Mr. J. Robinson and P. Berrigan. The officers for 1922 are as follows:—

President—J. T. St. John.
Sec.-Treas.—T. J. Freeman.
Directors—F. Hamlin, Wm. Campbell, J. A. Hiscock, J. J. Duff, Capt. E. English, sr.

After the usual votes of thanks were given to the assistant J. T. St. John addressing the meeting, expressed his confidence in the successful outcome of the undertaking. There was, he said, no question at all about the quantity of coal present, and the rumors that the seams petered out or ended abruptly were without foundation. In fact, he said, that the further the development went the more valuable the property became, and instead of the seams narrowing they increased as they were uncovered. Regarding the depth of which the coal measures descended that no man could tell. So far as the trial shafts

that the Executive should stand. They will remain in the hands of the men's representatives. Mr. J. Gardner presided at the meeting which was held in the Hall. It was announced that members were now engaged on a plan and that 100 more would be employed when the quinquennial next week. Full authority was given to those who had no relief work, was granted to the committee who will give this attention to-day.

Mercantile Ho

The excellent goal-keeping of the Hardware was one of the hockey game between Grocery and Hardware departments. Bowring Bros. played at the Prince's Rink. The Hardware team was composed of the male members of the team, Gordon Moore for the Grocery, G. Bartley and R. Johnstone. With their goalkeeper, was in a uniform. There is some promise among both teams and the League would be well to keep an eye on them.

Preparations for Royal Wedding.

LONDON, (Associated Press).—Arrangements for Princess Mary's wedding to Viscount Lascelles at Westminster Abbey the last week in February are beginning to take form. The Lord Chamberlain, the Duke of Atholl, has been commissioned by the King to draw up a sketch of the proposed ceremonial and the State Chamberlain, Sir Douglas Dawson, will prepare the program. The sending out of 2,000 invitations is the task of the Ceremonial Department at St. James' Palace. A fortnight's notice is usually considered sufficient for such occasions. The King and Queen as a rule invite personally their own relatives from abroad. Not all the guests at Westminster Abbey will be able to see the wedding ceremony. The choir and the transepts will be set apart for the royal family, the diplomatic corps, personal friends of the Viscount and Princess, and the members of the royal households and suites. The others will have to be content with a view of the procession. The wedding will be solemnized by the Archbishop of Canterbury, or in his absence, by the Archbishop of York. A wedding reception will probably be held in the ballroom at Buckingham Palace, at which the famous royal gold plate service will be displayed. The confectionary for all the condestate functions is made by the confectioners at the Palace and it is presumed they will make the wedding cake.

Shipping Notes.

S.S. Bornholm sailed for Halifax and Boston at 5 p.m. yesterday.

Schooner Harriett has cleared for Oporto taking 3000 quintals of codfish, shipped by Harris & Co.

Tug Hugh D. left for H. Grace yesterday to tow the schooner Gordon Moulton to St. John's.

Schooner Helen Jaan has entered to load at Fortune for Oporto for the estate of the late J. E. Lake.

S.S. Canadian Saver sailed yesterday afternoon for Halifax.
