THE HECLA PIPELESS FURNACE.

Thousands of these heating systems have been installed, are giving every satisfaction, and you are safe in buying a Pipeless Furnace—absolutely safe—if it is a "Hecla." For those who live in districts where wood is still the fuel ordinarily used we recommend the "Hilborn" Pipeless Furnace. It has a regular wood fire box, takes sticks from 2 to 4 1/2 feet long and there is no trouble in keeping a fire all night in the "Hilborn."

The same guarantee that applies to our other Furnaces applies to this, it must do the work we say it will, or we will take it out and refund your money.

Write for particulars.
