THE NEW PLAN OF
HEATING.

In recent years a new
plan of heating has come
into being. It is the Pipe-
less Furnace. A warm air
furnace with only one
register. This furnace has
so many advantages over
other heating systems; it
is adapted to so many uses
to which other furnaces
cannot be put; is so low in
first cost; and so econ-
omical in fuel; that we sin-
cerely believe it to be the
greatest forward step made
in the heating business in
two generations.

Dwelling Houses, Public
Buildings, Large Stores,
Halls, School Houses, Lodge
Rooms and Churches are
perfectly heated with this
type of furnace. Made in
six sizes. Full information,
