Ex-Reeve's Rheumatism Cured by Dodd's Kidney Pills.

Was So Crippled That He Could Hardly Get Around and Could Get No Relief From Doctors or Med-

"Then I tried Dodd's Kidney Pills, and six boxes cured me completely."

Dodd's Kidney Pills cure Rheumatism by curing the Kidneys. Rheumatism is caused by Uric Acid in the blood. If the Kidneys are right they will strain all the Uric Acid out of the blood and the Rheumatism will go with it.

Man and Wife.

The snow was falling. The day was still and gray and cond. Dr. Parkhurst, shaking the white flakes from his shoul-

ders, said:
"I have just witnessed an instructive happening—a happening that might teach us why some marriages do not

"A man and his wife were walking down a back street. The man had his hands in his pockets. The woman carried a basket filled with cabbages and beets.

"A group of boys danced like imps on a corner. They had snowballs in their hands. As soon as the married couple had pased them, they let drive. "But only the woman was struck. She pot two heavy blows about the head and face. Every snowball, somehow, missed

"He looked at his wife as she brushed the snow out of her ears and hair, and then he shook his fist at the

boys and shouted:
"It's a good thing for you, you young rascals, that you didn't hit me!'"

Glass Houses.

"Ha! Ha! You don't know how funny these items really are," said the drummer. Listen to his: 'Ed. Mossback was seen driving Sunday, He had a fine new horse and a pretty girl.' Hu! Ha!"
"Wall, I dunne," the goodsbox philisopher replied. "Here's an item from the New York Howler: 'Mrs. Van der Vest was observed driving in the Park yesterday. It was noted that her lap-dog wore a coat of soft green leather, a departure from the ruby velvet which has been so popular."

Gold dissolved in a woman's tears is said to make an excellent cement for nding broken hearts.

ROSES AS BAIT FOR RATS.

Fragrance of the Flower Lures Animals to the Doom.

The use of choice roses as rat bait is be experimented upon by the biological bureau of the Department of Agriculture. The bureau has been informed of a number of cases where rodents that spurned tempting cheese and crackers were easily enticed by a rose, and it is believed that the result of the experiments proposed by the bureau will be to show conclusively that the flowers surpass cheese, crackers, rinds of bacon and other baits that are commonly used

and other baits that are commonly used to entice the rats into traps.

The use of choice flowers as bait for rats will, no doubt, be looked upon as unworthy and degrading by the horticulturists and others interested in plant industry, but when the great value and importance of roses used in this manner is demonstrated it is believed they will take another view of the case.

It is explained that it is not so much the taste of roses that attracts the rat as it is their fragrance, and for this reason roses are expected to be the popular bait for the future.

Cases have been known where rodents,

Cases have been known where rodents. attracted by the sweet perfume of a rose in a house, have gnawed through doors to get at the flower. Rats have been known to become suspicious of traps with the familiar bait of cheese and bacon rinds and easily evade a trap for a long time. From experience it has been found that white roses, such as the dainty bride rose or the snowy Nephitos, have proved preferable in rat-catching.

Finger Nails and Tuberculosis.

Tuberculosis, particularly of the glands the bones and joints, is common among children, and it is generally surmised to be of local origin. The bacilli have been repeatedly found in the dust of rooms and corridors, especially in houses occuand corridors, especially in houses occu-pied by tuberculor patients, and evidence has been given to show that the same micro-organisms can often be demou-strated in the dirt found beneath the finger nails of children, whence they be-come a source of great danger. The ob-servations were made upon children from six months to two years of age, for a period of two and a half months, dur-ing which they were kept indoors a great Dresden, Ont., Jan. 22.— (Special.)—
"Dodd's Kidney Pills cured me of Rheumatism slick and clean." Mr. W. G. Cragg, the well-known merchant and ex-Reeve of this piace, was the speaker, and he evidently meant every word he said.

"It was the Inflammatory kind of Rheumatism I had and it crippled me up so that I could hardly get around to do my work in my store. I had the best doctors and verything in the line of medicines I could hear of, but nothing even gave me relief.

"The dirt from the finger nails was rubbed upon a sterile glass slide with a drop of sterile bouillon, and the result-ing emulsion was spread on the slide and used for injection under the skin of guinea pigs. Great importance was attached to the inoculation, but it was found that a number of the animals soon died as a result of acute infection. Accordingly, reliance had to be placed principally on the results of staining, as it also develoed that the number of tuber-level and the proposition of the said.

"It was the Inflammatory kind of Rheumatism I had and it crippled me used for injection under the skin of guinea pigs. One box cured me completely." 50 cents.—25

Natural Conclusion.

A lady had arranged an "authors" evening," and persuaded her reluctant husband to remain at home and help her receive the 50 guests who were asked to partake of this intellectual feast. The first author was dull enough, but the second was still duller. The rooms were intolerably warm, and, on pretence of letting in some cool air, the unfortunate host escaped to the hall, where he found the footman comfortably asleep on the arread and satten. "Walke un" on the carved oak settee. "Wake up," he said sternly, in the man's ear; "wake up, I say! You must have been listening at the keyhole!"—London News.

The Modern Actor.

Ellen Terry, the well-known English ctress, has a grievance. She writes in the Windsor Magazine as follows: "We hear too much of the charm and amiability of this actor and that, of his skill at golf or his proficiency as a painter or musician. We hear of his popularity so-cially. The actress' beauty is much more discussed than her talent. Nowadays capability for their work is not often the qualification for which actors are recommended."

English a la Française.

"Here," said a liveryman, "is a specimen of French-English. A Frenchman sent his horse to me to board along with this note. The note was so funny I framed it and hung it over my desk:

The framed note ran:

"I don't speak the English too much.
Put my horse on the barn and rub him
in. If he dry drink him and eat a quart
of oats."

LUNATICS AT LARGE.

Many Who Pass as Sane Are Mentally Unbalanced.

That hundreds of "erratic," "sensitive," or "queer" people are really more or less mentally unbalanced is ascrted in a recent issue of the Journal of the Kansas Medical Society, By Dr. C. C. Goddard, of the University of Kansas. "These," says the doctor, "are borderland peculiarities and types of neroparanoiae (victim of insane delusions) creates hell in neighborhoods and families; is constantly quarrelling with friends and neighbors; creating litigation on all subjects of dispute, and makes the living of a great many lawyers; imagines every one is trying to annoy, rob or smirch his reputation; all these are well over the border and can be put in the class of mental aberration. be put in the class of mental aberration De put in the class of mental aberration. Many a morbid religionist, going about not daring to 'smile or se an amusing thing in life, carrying a visage of gloom, with a thorough pessimistic nature, fearing to offend and thereby be eternal. fearing to offend and thereby be eternally damned by a God that is supposed to stand for love, but by them is made to represtn misery and sorrow, are without a question, within the territory of mental alienation. So many sane and insane travel the road of life together, making it difficult to distinguish one from the other, waile peculiarities of ideation are propagated and handed down to future ages; until finally it is a question: Is anyone fit to sit in is a question: Is anyone fit to sit in judgment upon his fellow? for often the judge is crazier than the subject." After taking up the topics of hysteria and moral perversion, the author asks: "Who then is insane?" and answers: "As his neurons are, so the man is," intimating that the sanity or insanity of an individual depends entirely upon the condition of his nerve-cells, including all their processes.

How Four-Leaved Clovers Are Made. Four leaved clovers may be grown abundance on lawns or in flower be

abundance on lawns or in flower betts. The raising of four leaved clovers has been made possible by Professor De Vries, of Amsterdam, who has found a plant bearing six or seven four leaved clovers, capable of being transplanted. He first sowed them, and since then he has had a new generation each year. Each time he chose his seeds from a fourth of the best plants; that is from fourth of the best plants; that is, from those which had the most four and five leaved clovers. It was the third gemera-tion which began to be rich in the desired form of letters, but only with four and five leaflets, and these only in the adulplant. During August and September of the same year he remarked a very few with seven leaflets. At this point he re-duced his selection to a severe standard. He chose for his progenitors only those plants having two-thirds of all their leaves with four or more leaflets. But he had discovered a curious fact that much simplified his selection from then on. In sowing clover one may observe that the simplified his selection from then on. In sowing clover one may observe that the first leaf of each young and subsequent leaflets have regularly three leaflets. This knowledge made it possible for him to make his selection much more quickly. He had only to choose the young clovers with compound leaves and transplant them from his glass house to his garden, leaving the others to perish. Thus he did not need so many hundred individuals as before, though each year he still selected some thousands of seedlstill selected some thousands of seedlings from their sowing pots. At last, after eight years of effort, the new variety of clover came into existence. Of this crop nearly all young plants had their first leaf compounded and all, with few exceptions were five leaved.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.

Motor Cars at Aden. A German newspaper correspondent at Aden reports that the demand fo motor cars is steadily growing in the coast districts of the Red Sea. At the present time he says, coast railways are in construction to connect Aden with various parts of Arabia and the officials have no choice but to survey the track by motor cars or motor-cycles. Yet the supply is still far below the demand.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. SUM-MERS, Box 8, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if your children trouble you in this way. Don't blame the child; the chances are it can's help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Transformation.

"May I ask of what becomes of all the waste food of the hotels, clubs and restaurants, etc.?" asks a gentleman who writes to the Daily Mail. The naivete of some persons is astounding. Has this person never heard of curried mutton?— —London Punch. -London Punch.

ISSUE NO. 4, 1906.

TOOK HIS ADVICE.

Eloped With His Employer's Daughter

and Married Her. "The late Bishop Thomas Frederick Davies, of Detroit," said a Detroit man, "once told me an interesting story of an elopement. He figured in this elopement as the officiating clergyman. It was in Philadelphia, during his rectorship of St. Peter's.

"It seems that the proprietor of one of the largest dry goods houses in Philadelphia had noticed for some months the melancholy of his head clerk, a young man whom he held in high regard. "The clerk's pallor and increasing lean-

ness, his frequent sighs and absent-mind-edness worried the milliomaire proprietor. He questioned the young man daily. And finally the clerk admitted to him that

finally the clerk admitted to him that he was in love.

"Well, said the head, 'marry her. Your salary is big enough.'

"Ah,' said the clerk sadly, 'you don't understand. She belongs to one of the first families of Philadelphia and her father is a millionaire.'

"Well, maybe he wasn't when he married. You have a good position and a good name. You are a fair match for any girl,' said the other.

"'It's no use sighed the clerk. 'Her parents would not listen to me for one moment.'

'Then,' said the head, 'elope with

"'Do you advise that?' the clerk asked excitedly.
"'Certainly, I do. Is she—do I know

her?'
"'Yes. She will be at your dance at
Devon to-morrow night.'
"'Well, see here,' said the head. 'I'll
have my coachman out in front of my
gate at 9.30. Rush the girl off into the
town and marry her. I'll arrange with
a clergyman for you.'
By jove, said the clerk, I'll do it.
"And he did. The next night Dr. Davies performed the ceremony and an

"And he did. The next night Dr. Davies performed the ceremony and an hour or two later the millionaire found his daughter missing and was telegraphing in every direction to the young couple to come home and all would be forgiven."

"Little yellow specks on the wrapper are positive indications of a cigar's ex-cellence. Choose a speckled cigar and you

can't go wrong."

The speaker was a skate salesman. The tobacco salesman laughed at him.
"Are you a victum of that error, too?" he said. "Listen and I'll tell you all about

he said. "Listen and I'll tell you all about those little yellow specks.
"We are in Cuba. In mile-long rows grow the tobacco plants in a blinding sunlight. Suddenly the sky is overcast, a shower falls, then the clouds disappear and the sun shines again upon plants dotted here and there with immense raindrops—raindrops peculiar to Cuba, as large as the largest peerls.
"These drops become burning glasses in the sunlight. The same as real lenses they concentrate the sun's heat and on they concentrate the sun's heat and on the leaf beneath them the little specks that you venerate, are burnt. These little yellow specks indicate the tobacco's qual-ity no more than freckles on a man's

nose indicate his ability.

"To choose cigars by their specks is as foolish as it would be to choose salesmen by their freckles."—Chicago Chron-

UNDER THE NERVE LASH .- The torture and torment of the victim of nervous prostration and nervous debility no one can rightly estimate who has not been under the ruthless lash of these relentless human foes. M. Williams, of Fordwich, Ont., was for four years a nervous wreck. Six bottles of South American Nervine worked a mir-acle, and his doctor confirmed it.

King Paid His Carfare.

We hear from Bucharest that a few lays ago King Carol, who had been tak-ng a walk, stepped into a street motor, o the amazement of the conductor and a few of the passengers, who recognized him. The conductor was at a loss to know whether to offer his Majesty a ticket or not, but the King says Modern Society, soon put him at ease by asking

HER HEART LIRE A POLLUTED SPRING.-Mrs. James Sringley, Peles Island. Ont., says: "I was for five years afdisease and nervous prostration. I cured the heart trouble with Dr. Agnew's Cure for the Heart, and the other ailments vanished like mist. Had relief in half an hour after the first dose."—27

An enterprising elephant, says the Al-lahabad Pioneer, tried a butting match with a locomotive on the Assam-Bengal Railway near Lumding. The engine got its cow-catcher bent, and its antagonist was killed on the spot.
