

We Take Hood's

Sarsaparilla and Hood's Pills, and we cannot praise them too highly. First, Hood's Sarsaparilla cured a swelling in my right breast, which was called a cancerous tumor. This winter we all had the Grip, but resorted to Hood's Sarsaparilla and Hood's Pills and were soon well again. We all take Hood's Sarsaparilla when we feel bad or out of blood is poor and it always makes us well. Mrs. J. FALLOWFIELD, Brampton, Ontario.

HALF-MILE TRACK RECORD

SMASHED.

Rochester, Aug. 24.—At the Driving Park meeting yesterday during the afternoon J. S. Johnson accompanied by J. O'Connor, Al Stenson and Weinig and Seavey as pacemakers, started to beat the track record of 57 2-5 seconds for a half mile. The start was from the third quarter to the quarter pole, and Johnson succeeded in covering the distance in 52 2-5 seconds, the first quarter in 27 seconds and the second quarter in 25 2-5 seconds. This makes a world's track record in public, and also for Weinig and Seavey on tandem, they finishing well ahead of Johnson.

FAST TEN MILE CLIP.

Mount Clemens, Mich., Aug. 24.—The national circuit bicycle races here closed yesterday. The events were all hotly contested, the feature being the 10 mile open for class B riders. L. C. Johnson, Cleveland, won by half a wheel in 23 min. 38 2-5 seconds; Willie Decardy, Chicago, 2; Monte Scott, Chicago, 3.

HERE'S A PICTURE.

St. Louis, Mo., Aug. 23.—Dr. Haines McKee, ex-superintendent of the city hospital, denounced bicycling as follows: "To my mind owing to the excess of exercise indulged in by bicycle riders of today when a man or woman buys a wheel they take the first spadeful of earth from their graves. I do not have some idea of the unwholesomeness of bicycle riding. Listen to this: First, you have a kind of paralysis of the hands from constant gripping of the handle bars; then, contraction of the muscles of the legs, contraction of the posterior muscles of the lower limbs and of the inside muscles of the thighs; round shoulders from stooping over and contraction of the chest. This causes congestion of the lungs and leads to consumption; continued violent exercise also leads to enlargement of the heart. Furthermore, with men rupture, varicose, hemorrhoids follow, and worst of all it destroys virility.

"With women constant riding causes troubles peculiar to women, and also promotes a morbid desire for riding. Women riding bicycles are especially liable to very serious mishaps. In fact, the dangers are multitudinous. People buy a wheel, they take the first spadeful of earth from their graves. And if the entire world is not devoted to the rapidly increasing membership of this suicide club, the human race will die out by reason of lack of manhood and inability to propagate."

HEART TROUBLE RELIEVED IN 30 MINUTES.

Wonderful Results Follow the Use of Dr. Agnew's Cure for the Heart.

The good that Dr. Agnew's Cure for the Heart has done finds a ringing echo in the hearts of thousands in Canada who have used this medicine.

There are some diseases where prompt action is not absolutely necessary to avert quick disaster. This is not the case with heart affection of any kind.

Whether the cause be chronic or sympathetic, or partakes of a more serious character, he is a foolish one who will hesitate to apply an immediate remedy.

This remedy will never fail to relieve in 30 minutes, no matter how long standing or distressing the trouble may be. If you have heart disease and wish to live, you have only to use this great cure. At druggists.

SCENE IN MANITOBA.

How the Great Wheat Fields Are Moved Down.

Processions of Movers Up and Down a Mile or More.

Winnipeg, Aug. 24.—The sight of 25 or 30 self-binders at work in one field is, in Manitoba, a thing of the past, since the big Sanderson farm at Brandon went to pieces.

The scene was revived on the Brasseys farms at Qu'Appelle and westward, where blocks ten miles square are operated as one farm and ten furrows ten miles long were plowed there as a boast. Some of these farms were in a dry territory and the manager had big sprinkling carts made to sprinkle their crops, but in spite of every effort the Brasseys farms were a failure and are seldom heard of now. There is a decided tendency to reduce large holdings of wheat land.

The largest field on Portage Plains is 640 acres, or a mile square, bounded on every side by wide roads. The best spectacle that can be seen is nine or ten binders working in one of these mile-square fields. Work begins when the dew is off the grain, usually between 6 and 7. The binders are pulled usually by three heavy horses or four lighter horses abreast. If the clearing swath has not been already cut the first binder drives along close to the weeds and grass. When fully started the second binder takes the next cut, keeping at a short interval behind the first. The binders come on in succession until the long string of whirling machines is moving like a succession of cavalry squadrons in echelon to the attack.

WESTERN ONTARIO.

Ex-Judge Kingsmill, of Bruce, has been appointed a Q. C.

Mary, wife of Mr. Patrick DeCoursey, sen., of Logan, passed away the other day at the ripe old age of 82 years. She was one of the best of mothers, a townswoman, a model resident, quiet, industrious and highly respected.

A child, presumably about a year old, was left on the doorstep of a kitchen resident of Brantford on Thursday night. The child was not of other indication which might serve as a means of identification.

The death is announced of Annie, the wife of the public school inspector for a village near Clinton, Ontario, which took place the other day. She was in the 34th year of her age, of a retiring disposition, and passionately fond of her home.

Ed Wheeler, appeared at the Brantford police court yesterday morning charged by T. H. Spence with obtaining from him by false pretences \$28 cash, a roan pony and a receipted cheque for \$12. The trouble arose over a horse trade, in which Wheeler, it is alleged, falsely represented his animal to be unencumbered. The defendant elected to be tried by jury, and the case will go to the court of common law, waiving examination.

Common Sense vs. Will Power.

Much of the prejudice that has existed in years gone by against the Gold Cure for alcoholism has now happily passed away. Employers of labor and brains were at one time reluctant to believe that a man who had undergone the treatment was more worthy of confidence than one who had sobered up from force of circumstances or by will power. Now it is everywhere recognized that the man who has taken the Gold Cure for alcoholism, and who has been treated by the Gold Cure, has a clear reasoning faculty, and the recollection of former bitter experience, suffice for all time to justify the confidence he thus inspires. THE WEATHER TO-DAY.
Fair and warm, with thunder storms.

WHEN THE HARVEST IS PAST

And the summer days are ended, you with many of our customers will be looking around for warmer garments, seasonal millinery and the like. It is well to think over these requirements now—to make up your mind as to just exactly what you want. Another good point is to know exactly where to go for it.

With those who know us best there is no question in their minds as to the place to buy—the best place.

They come to us as a matter of course, experience having taught them that they get good goods at right prices from us. But we desire to interest newcomers to the city as well as those who have never dealt with us. We will leave nothing undone that will please our patrons, as we are fully alive to the fact that a customer once fully satisfied will return again.

THE COMING SEASON

We will have many new styles to offer in every department. Already in our Jacket and Cape Departments new goods are coming in.

Twenty-two cases were unpacked this week, and each day something new arrives. We desire that every lady should examine these goods.

They embrace the newest styles, and every lady is interested in the coming fashions. There is no doubt that we do the largest Jacket trade in London, because we buy only the right kind of goods. Having such a large trade we are able to make a considerable saving with the manufacturers by placing large orders.

You receive the benefit of this in our popular prices.

Favors the Abattoir Idea.

To the Editor of the "Advertiser":

Your correspondent, Thos. J. Cook, has opened a very important question on the meat supply of this city, which I hope will be thoroughly ventilated until a city abattoir is an established fact. I consider the well-being of the city demands such a movement and further, that the interests of butchers as well as the consumers of meat will be promoted thereby. If all the butchers would unite in this movement other questions would arise out of it, the solution of which would enable the butchers to give a more uniform quality of meat, make more money, and at the same time sell cheaper, which makes it an interesting question to all. Yours faithfully,

JOHN SYMONS,

SAD SUICIDE.

A Tiverton Girl Jumps Off the Ferry Promise—No One Cared for Her, She Thought.

Windsor, Ont., Aug. 23.—Passengers on the ferry steamer Promise were startled this evening by seeing a well dressed young woman, about 20 years of age, whose peculiar actions had attracted general attention, jump from the upper deck into the river when the boat was opposite Belle Isle Park.

Although the boat was stopped almost at once, and life preservers thrown out, the girl made no attempt to save herself, and sank in a few moments. On the seat which she had occupied on the ferry boat was found a letter, written in lead pencil, in which the suicide gave her name as Grace Newman, of Tiverton, Ont. She said she was a poor girl, and that no one cared for her, and that she had determined to die. She also stated that her parents lived in Tiverton, and asked that they be notified of her death. The body has not yet been recovered.

FATAL FIRE.

Three Men Burned to Death Near Toledo, Aug. 23.—Three men were burned to death last night in the Air Line Hotel at Air Line Junction, about four miles from this city. The hotel fire broke out about midnight, and by the time the fire engines from this city reached the place the flames were beyond control. Most of the people in the house escaped in their nightclothes.

Timothy McCarthy, of Hillsdale, Mich., and two men whose names are unknown, perished. Healy was taken from the building alive, but died within a few moments after. The bodies of the other victims have not been recovered. The loss on the hotel and several small buildings to which the flames communicated, is \$20,000.

Shelbyville, Aug. 24.—Fire has destroyed Conway, Eberly & Co.'s table factory. Loss, \$55,000. It was the largest exclusive table factory in the world.

WEARS AN ALUMINUM EAR.

What Science Has Done for an Aged Englishman Whose Ear Was Diseased.

We have had people with glass eyes, porcelain teeth and artificial whiskers, and now along comes a man with an aluminum ear. He is sixty-three years of age and was admitted into the Queen's Hospital, at Birmingham, England, in April, 1893, with an epithelioma of the left auricle.

The greater part of the diseased ear was cut off by the attending surgeon and a plaster-of-paris cast was
