LEISURELY RULES. Mr. Morris has a notice of motion on the order paper of the house of assembly which ought to receive the earnest attention of the members as well as the government.

LETTERS TO THE EDITOR. REV. MR. HUNTER OF DANFORTH. Sir, I was interested with your notice headed "Light Fantastic" in your edition of yesterday giving a report of a lecture on floor street church, on the evils of dancing, and after especially reading the same I can only conclude that the rev. pastor is not only a man of great talents, but a man of great courage.

TO OVERCOME THE DIFFICULTY. To overcome the difficulty, and ensure a copious supply of pure water, the city engineer has reported a scheme which proposes to run a large oaken pipe from near the present filtering basin out into the lake till a depth of thirty feet is reached.

THE NEWS OF THE WORLD.

A Summary of the Latest Interesting Events Happening in the Dominion and Elsewhere.

CANADIAN. The day after an immersion at Stratford, the Madeira river men are experiencing a boom.

THE STEAMER DORIS. The steamer Doris, bound for Mobile, put into Halifax owing to her cargo having shifted through rough weather.

THE MALL YESTERDAY. We believe in the impartiality of journalism, and therefore it is only in extreme cases that we would justify any reference to the personality of any writer on the press.

STRENGTH LANGUAGE. The country has been somewhat stirred by the failure of the crown in securing a conviction in the Biddell case, a case to which in some respects no parallel has occurred in the state of Kentucky.
