#### ALL IN FAVOR.

The report of the last meeting of the Town Council, as published in this issue, will be pleasant reading for our citizens. The statements of every Councillor, made before a crowded council chamber, that they were in favor of the strict enforcement of the prohibition law, is indeed gratifying especially after the doubt caused by a certain resolution, passed at a previous meeting, which now appears even as amended, as His Worship himself admitted, was passed in a hurry and not properly worked out to convey the meaning of the council. The statements of the different councillors should be convincing evidence to the police and the citizens generally that the prohibition law must be enforced, and more rigidly enforced than in the past. As the councillors severally declared that the act should be enforced it is therefore concluded that the resolution referred to above will be expunged from the minutes of council.

#### EDITOR'S MAIL.

Campbellton, March 5th, 1921.

Mr. Editor—  
In the report of the proceedings of the Council of Feb. 28th you did not give the public the proper interpretation of my resolution in respect to the duties of the police force.

For instance you inferred that the object of this resolution was to allow vice and crime a free hand. Your inference is not very complimentary to the intelligence and moral standing of seven eighths of the Council. It was not my intention or the intention of any of the other councillors, to prevent the enforcement of the Provincial Regulation, in respect to the Liquor Traffic.

The Provincial Government have a highly paid staff of officers, whose duty it is to enforce that Act. They get the fines and all the revenue derived from the sale of seized liquor. It is my opinion, shared in by hundreds of others, that if the Government use our police force, they should remunerate the Town for their services. We do not have any objection to the enforcement of the law, but we do object to paying our Police force to do the work others are paid for doing. The proper enforcement of the law is the duty of the Government, and we, consider that the Town of Campbellton, deriving no benefit from the fines, should not be asked to take its police force from other necessary employment.

Commendable as the enforcement of the Regulation of the Liquor Traffic is, we consider that our Police Court of last week, gave an illustration of the neglect of the proper attention to crime which must have flourished with the knowledge of our police, either direct or indirect. It is not conceivable that debauchery of that magnitude could possibly escape the attention of two alert policemen.

The present Mayor and Councillors are standing for the proper enforcement of all laws, but they want it understood that they are not going to share the expense without sharing the income. The police force have their duties to perform for which they are paid, and we desire them to carry on, as directed by the Town Council, and not by any clique or faction. If there is any extra work to be done by them, we consider it is only right, that the Council be notified and their consent obtained.

We believe that our stand on this question will bring about a much more effective enforcement of the law regulating the Liquor Traffic, and also give the Town of Campbellton a much more active and efficient police force.

Thanking you, sir, for your valuable space, I remain,  
Yours truly,  
A. C. BELLE-ISLE.

(The resolution as passed at the above meeting had only one meaning to any person who understands the English language. The interpretation we have placed upon it was that of almost every citizen. The resolution was plain and we presented it just as it was passed and it stands for itself. Non-enforcement of the prohibition law inevitably means that vice and crime becomes rampant. If our readers will read the report of the meeting held Tuesday evening the standing of the Council on this matter will be set forth clearly.) Ed.
