He was presented with a set of ivory brushes and a dug bag containing several useful articles, about fifty guests were present and a very enjoyable time was spent by all.

## GREATER TEA CONSUMPTION IN GREAT BRITAIN

The reduction of the English duty on tea by four pence a pound will undoubtedly result in greater consumption on the part of the public of Great Britain, which is now by far the largest tea consuming country in the world. This increased demand will tend to raise the present abnormally high market, and an increase in cost of tea throughout the world may be expected.

A colored couple stood once again before the probations officer.

"Now this," the officer said to both, "seems to me to be a case where there is nothing very much the matter, except that your tastes are different. You, Sam, are much older than your wife. It is a case of May married to December."

A slight pause, and then Eva, the wife, was heard to remark in a tired voice:

"I really don't know what you means by yer saying May is married to December. If yer goin' to talk that way, it seems to me to be a case of Labor Day married to the Day of Rest."

## TUB FROCKS

A **SPLENDID** quality of imported Gingham and Chambrays are used in these Smart Dresses. The garments are new, youthful and exclusive. ## NEXT WEEK'S GREAT PICTURE.

Cecil B. De Mille's Paramount Production "Fool's Paradise" is Excellent.

A Kansas pastor was in the midst of a patriotic sermon and to arrest particular attention cried out, "Now listen!" All were at eager attention, when a couple of guinea fowls from a neighboring henry set up their peculiar cackle. Everybody smiled but the preacher.

When little Percival arrived at school on the opening day he carried the following note to the teachers: "Dear Teacher—Our sweet little Percival is a very delicate, nervous child, and if he is naughty—and he is likely to be naughty at times—just punish the boy next to him and that will frighten him so he'll be good."

HERE THEY ARE!  
The Final Letters—  
OL' P E

and coupled with the letters published in the three last issues they will make the name in full, which is

## "A FOOL'S PARADISE"

**M. P. MOORES**

Opp. C. N. R. Depot

Campbellton, N. B.

## Railway News

Vernon, B.C.—The Canadian Pacific Railway has completed at Okanagan Landing an extension of its ice house at that point, giving about 20 per cent. additional storage capacity. Besides this there will be an improved method of icing cars which will enable the workmen to crush the required ice in advance of arrival of cars, so that when cars come to the lake, the ice may be put to ice house and the entire train iced with one movement of the switch engine. This should materially hasten the movement of the fruit from Okanagan Landing. It is expected that cars will be iced in about four minutes each.

The amount of ice put up at Okanagan Landing this year is 8,500 tons. It was brought from Banff and is exceptionally good, and should be adequate for a very prosperous season.

How medical advice was conveyed by wireless and acted upon with benefit to the sufferers was told by Dr. E. W. Drury, surgeon of the Canadian Pacific line "Metagama" upon the arrival of that vessel from Canada at Liverpool.

During the Metagama's eastward run five wireless messages were received from three steamers, viz., "Canadian Raider," "Dunbridge," and "Agadir," asking for advice.

(1) With regard to the treatment of the chief engineer of the "Canadian Raider," who was suffering from kidney disease.

(2) A man on the "Dunbridge," who had sustained a severe crushing injury to one of his hands.

(3) A fireman who had been the victim of a serious accident on the "Agadir."

Five replies were sent at the instigation of Dr. Drury, the "Metagama" winning at the time at least 200 miles distant from the vessels named.

Replies were that satisfactory progress was attending the treatment of patients in accordance with Dr. Drury's instructions.

Calgary.—"I did the company out of \$2.50 and I have hardly been able to sleep ever since. I enclose a remittance for this amount. I am sorry for what I've done."

This was what a man now residing in Eastern Canada wrote J. E. Proctor, District Passenger Agent of the Canadian Pacific Railway. He apparently has been much troubled ever since he "put it over," and has done what his conscience dictated.

"Do you receive many of these kind of letters?" asked a press representative when Mr. Proctor showed him the letter. "Oh, yes, quite a lot," said the Passenger Agent, "probably on the average one a month in this division alone. I cannot say why it might be before the whole of the Canadian system. Of course I am referring to the passenger department alone for there are many others." Mr. Proctor called for his "conscience" file, which bore out his remark that it is a very frequent occurrence for people "to lose sleep" during the summer months.

Some of these run into fairly large amounts; for instance, one of them some little time ago returned the company \$75. He had been a contractor for the railway, but instead of going on the land he went to Vancouver and engaged in some other occupation. On one occasion a man wrote enclosing \$5, of which amount he said he had defrauded the company, and this occurred many years ago.

Montreal.—The Dominion Express Company have had in operation in Montreal during the past few months a unique system for the conveyance of Express shipments in transfer between stations in the city, and the distribution of delivery collection shipments in districts situated four and five miles from the railway stations. This is the tractor trailer system. The tractors are simply two-ton trucks, with a fifth wheel or turning plate mounted on the chassis in place of the ordinary truck body; and in the centre of this fifth wheel is one portion of the automatic coupling device. The trailers are large, completely enclosed bodies, with a capacity of three and a half tons, or 515 ft. cubic measurement, each mounted on two rear wheels, with solid rubber tires, and two small front wheels, with folding legs, to hold the trailer up and permit of movement to any desired position when free from the tractor. On the front of the chassis of the trailer are two small wheels for mounting the track of the fifth wheel on the tractor, and permitting turning of the equipment within a small radius when coupled up; also the other portion of the coupling device by which the tractor and trailer are coupled up.

The process of coupling and uncoupling is a matter of seconds only, merely involving the raising of a lever. The driver never leaves his seat on the tractor. The tractor brakes are controlled by a lever on the tractor.

## A Glittering Hit!

Jesse L. Lasky presents a  
**Cecil B. DeMille**  
PRODUCTION  
**'Fool's Paradise'**

with  
Dorothy Dalton, Mildred Harris, Conrad Nagel, Theodore Kosloff, John Davidson, Julia Faye

A dance hall queen in a Mexican oil town. A penniless youth, blinded. A petted dancer, with Europe at her feet. A gambling "greaser" whose dagger was his law.

All strangely caught up in a story that starts in underworld strife, then grows and grows, through stately temples, gorgeous palaces, shimmering beauty and wealth, to lavish proportions never equalled on stage or screen.

By Benah Marie Dix and Sada Cowan  
Suggested by Leonard Merrick's Story, "The Laurels and the Lady"

**OPERA HOUSE** WEDNESDAY & THURSDAY
