Henry Allen & Co. to J. J. Dixon & Co: The market to-day again moved up. An additional impetus was given to it by the receipts of gold imports to the extent of \$650,000 from Europe. This was so unusual an event that it could not have failed to influence even a bear market, but coming in the midst of the bull activity it formed a natural effect. Stocks are about 10 points below where they were a year ago.

coming in the midst of the bull activity it formed a natural effect. Stocks are about 10 points below where they were a year ago.

Kennett, Hopkins & Co. to R. Cochran; The week opens with the strongest stock market the exchange has enjoyed in many a day. The eagerness to buy stocks, which was a feature of Saturday's market, gained force over Sunday, and commission brokers' offices were full of orders at the opening of the exchange to-day and additional orders came from hour to hour, so that the upward tendency of prices was maintained, with the exception of a short period of dullness and a slight reaction which however, was followed by larger buying than ever, which carried prices to their highest point.

The Burlington & Quincy statement for July shows a gain in net earnings of \$259,000.

Lamontagne, Clarke & Co. to Drummond & Brown: Stock markst opened active and feverish. There was big buying and wild fluctuations. After first sales traders sold London and commission houses were confident buyers. We are, as in the past, most decidedly bullish on the situation and ultimate outcome, but certainly advise waiting for the reaction before loading up; expecting a decline now at any time and advise purchases of the whole list on the first reaction. pecting a decline now at any time and rchases of the whole list on the first rea

EPPS'S COCOA BREAKFAST. "By a thorough knowledge of the natural law which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hunoreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fattal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
