BOVRIL
 Contains the
 life-sustaining
 elements of
B E E F

Beef extracts contain only the flavor
 and stimulating elements of beef—
 the nutritive values are lost in the
 making. Baron Liebig, the inventor
 of beef extracts, admitted that. He
 said "It is but a condiment and
 stimulant, containing no matter
 capable of sustaining life."
 That is where BOVRIL differs from
 beef extracts.
 BOVRIL does contain the nourish-
 ment and life-sustaining elements of
 beef as well as its rich flavor.
 BOVRIL gives strength and nourish-
 ment to the invalid. With its help
 you can make left-over scraps into
 delicious consommés, bouillons and
 soups with very little trouble.
 BOVRIL is the true economist in the
 home kitchen.

A PLUCKED CRANE.
A Port Huron Man Loses \$10,000
 Worth of Plumage

Port Huron, Nov. 22.—Van E. Crane,
 aged defendant in the breach of promise
 suit instituted by Miss Sarah M. Barnes,
 was surprised when a jury in Judge Tap-
 pan's court this morning returned a ver-
 dict of \$10,000 in favor of the plaintiff.
 The amount originally asked for by Miss
 Barnes was \$15,000.
 When the jury returned to the court
 room, after deliberating a little over an
 hour, Crane was stunned at the verdict.
 Not until the jury had been excused did
 Crane regain his composure and then he
 began to vent his spleen in language that
 was not altogether suitable to a court
 room.
 Asked what she was going to do with
 the amount, Miss Barnes replied:
 "Well, really, I had not thought of
 that yet. I hardly know what I will do,
 but my, isn't that great. Ten thousand
 dollars!"
 Miss Barnes admitted that she did not
 expect so big a verdict, but added that
 she has suffered as a result of the aged
 man's refusal to marry her was worth
 every penny of the compensation that
 the jury had given her.

La Grippe Coming Again.
 Europe is now in its grasp, and in a
 short time America will be over run with
 this awful epidemic. Get ready, use pre-
 ventive measures. Build up a surplus of
 vigor by Ferrozone, and inhale Catarrh-
 ozone three times each day. Nothing
 destroys the grippe germ like Catarrh-
 ozone. It cures the cold, breaks up the
 fever, relieves the headache and destroys
 every vestige of catarrh and sore throat.
 For Bronchitis, Grippe and winter ills
 Catarrh-ozone is best. Sold by all dealers
 25c and \$1.00.

Truancy Act No Use.
 Toronto, Nov. 26.—Asked as to In-
 spector Fotheringham's statement that
 "the present Ontario truancy act is a
 laughing stock in the rural schools,"
 Dr. Seath, superintendent of education,
 said:
 "The act is inoperative and not worth
 a row of pins. It will be amended, the
 change to be brought about being likely
 to form one of the bills soon to be
 brought up."
 "Perhaps the proper procedure would
 be to have one man for each township
 in order to have the truancy act en-
 forced."

She is White as a Ghost.
 Is it a matter of pride to be pale as a
 lily,—certainly not. What every woman
 wants is strength, color, vigor, buoy-
 ancy and health are the right of every
 woman, and these she need not lack if
 she only uses Ferrozone. It gives ap-
 petite, creates strength, enriches blood,
 gives vigor to the nerves, color to the
 cheeks and brightness to the eyes. Fer-
 rozone is at once convertible into health,
 and strength. There is power in Ferro-
 zone,—try it, and know what you have
 missed, 50c at all dealers.

Homestead Entries.
 Ottawa, Nov. 26.—There was a big
 decrease in the number of homestead
 entries made in September, 1907, com-
 pared with September, 1906. Of 200 or
 a total of 611 made in September, 1907,
 by persons coming from the United
 States, there were 174 from North Dakota,
 116 from Minnesota, 30 from Kansas, 33
 from South Dakota, 39, each, from Wash-
 ington and Wyoming, 29 from Michigan,
 and 25 from Illinois.

**Special Prizes for the Seed Depart-
 ment at the Winter Fair.**

The Official Premium List for the On-
 tario Provincial Winter Fair to be held at
 Guelph in December, contains a splendid
 offering of prizes for the various depart-
 ments embraced by this rapidly growing in-
 stitution. The development of this fair has
 not been a one-sided one but has taken
 place along all lines which conduce to pro-
 mote the general agricultural industry of
 the Province. Of all the various depart-
 ments perhaps none had a more humble be-
 ginning than did the Seed Department yet
 no department has made more rapid growth
 in the degree of intelligent interest taken in
 the cause which it champions. This speaks
 well for the far-sightedness of the Live
 Stock Men of the Province who are quite
 cognizant of the fact that while the Live
 Stock industry of the country is relatively
 the most important yet the success of this
 industry really depends upon our ability to
 successfully grow suitable and adequate
 grain and fodder crops.
 The losses that arise from sowing mixed
 and inferior strains and the danger from
 sowing weed seeds are coming to be recog-
 nized more and more each year and as a
 result the Seed Department at the above
 fair as an institution designed to assist in
 alleviating the prevailing difficulties has an
 important place to fill. This Department
 contains two general divisions. One divi-
 sion provides accommodation for exhibits
 of ordinary farm seed which has not re-
 ceived any particular attention apart from
 what any up-to-date, intelligent grower
 would aim to give. The other division pro-
 vides for the exhibition of "Specially Sele-
 cted Seed" which has been grown and se-
 lected according to the regulations of the
 Canadian Seed Growers' Association. This
 latter exhibition is designed chiefly to give
 publicity to the work which the various
 growers are doing by way of applying ap-
 proved methods of seed-growing. The
 prizes in this division are given by the
 Association, while those for the first di-
 vision are provided out of the general
 funds at the disposal of the fair board.
 This year a number of special prizes each
 valued at about \$100.00 are offered.

MORE THAN HALF PASSED.
Results of Examinations for Teachers'
Certificates and Matriculation.

The following report has been issued by
 the Minister of Education:
 There were 4,368 candidates for teach-
 ers' certificates, of whom 2,312 passed,
 338 passed as result of teachers' report.
 Of the 3,110 candidates for junior teach-
 ers' certificates 1,518 passed or 49 per cent.;
 341 of these would have failed but for
 Latin 1,780 took Latin and 1,365 passed in it.
 Of the candidates for district teachers'
 certificates 92 per cent. passed; for junior
 teachers' 49 per cent.; for senior teachers,
 part 1, 61 per cent.; for senior teachers,
 part 2, 74 per cent. Six out of the seven in
 commercial and three out of four in art
 passed.
 The total number of appeals was 306, and
 of these 76 were allowed.
 For honor matriculation, in whole or
 in part, there were 138 candidates who
 were not candidates for teachers' certi-
 ficates.
 For junior matriculation in whole or in
 part, the candidates numbered 2,959; 399
 made full matriculation standing; 1,207
 made what they tried for, partial matricu-
 lation in what they tried for. Of 39 appeals 11
 were sustained some only in part.

Great Danger in Headaches.
 It's often dangerous to consider head-
 ache a trifling ailment. If the head aches
 the stomach is out of order and some ser-
 ious disease may be impending. To tone
 up the stomach, to give it healthy action,
 nothing in modern medicines is so suc-
 cessful as Dr. Hamilton's Pills. The
 concentrated vegetable extracts in Dr.
 Hamilton's Pills have a quieting healthful
 effect on the stomach and remove all
 disorders. Your headache will be cured
 and they won't return, if you use Dr.
 Hamilton's Pills. Sold everywhere.

A New Invasion.
 The statement made by prisoners in the
 police cells at London that Canada is to be
 invaded by an army of unemployed from
 the United States is proven true by con-
 ditions on this frontier at the present time.
 The invasion is in full course now. The
 discharge from employment of thousands of
 men by the railways and steel and iron-
 working concerns of the eastern States has
 flooded the country with men seeking for
 work. Throughout the States tales of
 Canada's prosperity and the building of the
 National Transcontinental Railway, and
 other great works of development are cur-
 rent, and the men out of work flock across
 the border to seek it in Canada. Many
 come from Ohio and Pennsylvania, but
 others are from Buffalo and the cities of
 western New York. At Buffalo the steel
 plants have reduced the number of their
 employees and the discharged men have
 formed the army moving into Canada. The
 dismissal of several hundred men by the
 shutting down of the shipbuilding plant at
 Bridgeburg has also had an effect on the
 labor market along the frontier.

Backache, "The Blues"
 Both Symptoms of Organic Derangement in Women
 —Thousands of Sufferers Find Relief.

How often do we hear women say: "It
 seems as though my back would break,"
 or "Don't speak to me, I am all out of
 sorts?" These significant remarks prove
 that the system requires attention.
 Backache and "the blues" are direct
 symptoms of an inward trouble which
 will sooner or later declare itself. It
 may be caused by diseased kidneys or
 some derangement of the organs. Nature
 requires assistance and at once, and Ly-
 dia E. Pinkham's Vegetable Compound
 instantly asserts its curative powers in
 all these peculiar ailments of women. It
 has been the standby of intelligent
 American women for twenty years and
 the ablest judges agree that it is the
 most universally successful remedy for
 woman's ills known to medicine.

 Dear Mrs. Pinkham:—
 "After what your Vegetable Compound
 did for me, I am a firm believer that it is a
 wonderful medicine, and that any woman
 who is troubled with any of the ills we
 suffer from should try it and she will soon
 be convinced of its worth. Six bottles
 changed me from a peevish, despondent,
 sickly, ailing woman to a sweet-tempered,
 healthy one who rarely ever has a pain
 now, and who before was rarely without
 one. As a regulator, strengthener and a
 tonic, I think it has no superior and I
 certainly endorse it."

PANDORA RANGE

The Pandora oven is perfectly ventilated. The air in the oven is constantly being renewed with fresh air drawn through three vents between oven and fire-pot doors, and the cooking fumes carried out through another set of vents in back end of oven, as shown by illustration.

oven never smells close and stuffy, as do the majority of range ovens. Food cooked in it is more healthful, as well as more appetizing and satisfying. If your local dealer cannot give you complete information about the Pandora, write direct for free booklet.

Insure the Weather.
 Toronto, Nov. 23.—There are three in-
 surance companies in Ontario which in-
 sure against bad weather, according to
 the annual report of the provincial in-
 spector of insurance, just published. The
 aggregate income of these three com-
 panies for the year, however, only
 amounted to \$9,160.17, of which \$1,628.15
 were paid out in losses.
 There are 69 strictly mutual fire in-
 surance companies doing business in the
 Province. Their total assets amount to
 \$6,546,964.45, and their liabilities \$15-
 884.74.
