Breeder's Illustrated Directory, larger size, 1 year, \$6, half year \$4; smaller size, 1 year \$5, half year, \$3.

All communications must be in our hands by the 6th and advertisements by the 9th to insure insertion in issue of that month.

Address,  
JAS. FULLERTON,  
Strathroy, Ont., Canada

A GREAT many are still in arrears for subscriptions. We would be obliged if they would remit at once.

THE REVIEW will be a day or two late in reaching its readers this month, but increase in size will fully compensate for the delay.

APPENDIX containing changes in Standard at 1879 meeting of American Poultry Association, will be mailed to applicants who enclose a three cents stamp to Geo. S. Josselyn, Sec. and Treasurer, Fredonia, N. Y.

MR. CHARLESWORTH informs us that he had very hard luck in getting his birds from Peterboro show. On reaching Port Hope, they were left on the platform for several hours, exposed to the severest weather experienced this winter, and the combs and wattles of many of them were severely frozen, making them unfit for exhibition at Guelph, where he intended making a large exhibit.

## New Advertisements this Month.

As the hatching season is now about to commence, intending purchasers will be scanning the advertising columns of the Review to discover where they can be best suited with eggs of the varieties they wish to keep; and we are happy to be able to present them a list comprising all varieties, and offered by the best breeders of Canada, and some of the most celebrated in the United States. It has been our aim to secure nothing but good men—such as would represent their stock just as it was—and absence of all complaint is proof that we have succeeded. A glance at the prize lists, in last number and this will show that nearly all the successful exhibitors patronize our advertising pages.

We have received a large number of additional

"ads" this month, and hope our readers will look them over—old and new—carefully.

W. H. Todd, of Vermillion, Ohio, has sent a great deal of stock into Canada, and has regular customers here of many years' standing,—a sure proof of square dealing. One of them once remarked in our presence; "If you send to the States for stock, send to Todd."

D. Ferguson, Goderich, is a gentleman of middle age, and a thorough fancier. His patrons will find him courteous, honorable, and able to supply good stock. He figures in the prize list of Guelph show.

J. E. Horsman, Guelph, is thoroughly in earnest in breeding Bantams. His stock is good, and those who favor him with orders will be very likely to be pleased with the result. He is also agent for "Todd's Tonic Food."

G. T. Simpson, Falkland, is well known to most of our fanciers, as a practical and reliable breeder. He is strong on Bronze Turkeys, Rouen Ducks, and several other varieties of Fowls.

In the Breeder's Directory will be found the card of G. H. Pugsley, a new exhibitor, who took us all by surprise at Guelph, winning on nearly everything he entered, and in those classes where competition was keenest. His Plymouth Rocks were extra fine. He did not remain long at Guelph, but succeeded in making many friends during his short stay. His address is Fisherville, Ont.

Jas. O. Weldon, London, is one of the most successful breeders of Fancy Pigeons in Ontario. His lofts are a short distance out of London, and contain some of the best specimens in the Dominion.

J. D. McEwen, Falkirk P. O., has been at considerable expense to procure good stock, and gives them unlimited range. He showed a fine pair of Golden Spangled Hamburgs at Guelph, the hen taking 2nd; the cock was out of condition.

Andrew Munro, Caledonia, has every facility for successfully breeding fowls. Reference to the prize list of Guelph show will convince that he has good stock. His exhibit was principally water fowls.

Charles Goodchild imports fowls and pigeons. His imported Black Hamburgs were greatly admired at Hamilton last year.

Mr. Hall, of Port Hope, offers a very attractive list: Games, Game Bantams, and Canaries.

Anderson & Watson, of Ayr, were highly commended to us. They figure as winners at Guelph show.

J. West, of Brampton, breeds L. Brahmas exclusively. We saw his stock at Provincial last year; but for an error in entry, would have had 1st on chicks.

Geo. Elliott, of Port Robinson, made a splendid show at Guelph. We had the pleasure of considerable intercourse with him there, and can freely recommend those to him who desire stock from the varieties he breeds.

Changes will be found in the "ads" of the following gentlemen:—

Wright & Butterfield, Sandwich; Jas. Lockie, Waterloo; W. Stahlschmidt, Preston; R. Mackay, Hamilton, (offers eggs for hatching from his premium pen of L. Brahmas at Guelph); P. Breiding, Berlin; C. A. Keefer, Sterling, Illinois; Thos. Bogue, Strathroy; J. M. Carson, Orangeville.

A number arrived too late for insertion.
