going away, but the sleighing is good yet. The days, this week have been warm but the nights are pretty cold and the thermometer sometimes registered about five degrees above. The boys are expecting to play foot-ball before long as this game is their favorite.

-We were sorry to learn that Mr. Flynn, our master carpenter, died on the 6th inst. after a few months illness. Several of the boys went to see him a few days before he died, but he was not able to talk with them. They were sorry for him because he was so ill and asked Jesus to bless him. Mr. Flynn was very good to us and we will not forget his kindness. We all feel very sorry for his widow and his family. He left eight children, and his family old. We heard that his successor would be Mr. Dowse, of Hamilton. He has not come here yet.

PUPILS' LOCALS.

From the Girls' Side of the Institution

(By JESSIE MUNRO.)

-Did you see the eclipse of the moon on the evening of March 10th?

-Poor old winter has passed away and how glad we all are that spring is here now, when we can begin our outdoor sports.

-Miss Wood, who had stayed at Mr. Mathison's for a four weeks visit, went home again on the afternoon of Feb. 28th. We all felt very sorry to part with her.

-Our head teacher says that always a few days before the CANADIAN METEOR is published, we girls are very industrious and orderly and nice in the school room. We understood what he meant, but knew he was only jesting.

-On the 7th inst., Miss Gordon, sister of the lady superintendent of the Belleville hospital, came up and spent the day visiting here. She thinks a great deal of the work going on here. Let us hope she will come again.

-Miss Florio Gardiner received a parcel from home on the 2nd inst., containing a book and some sweetmeats. She was pleased with them all. On March 9th, also Misses Annie Butler and Bertie Pilling got each a parcel from home.

-On March 2nd Miss Annie Butler's mother came here after her to go to her cousin's place, where she stayed for two days. She reported having a good time. She does not stay here much on Saturdays and Sundays this session, as she is always called away to visit her relations on those days.

-On the 9th inst., Miss Douella Beatty's mother and brother John came here to see her, and she was very glad to see them again. Her mother told her that John was very proud to think he could drive to town, 12 miles from home, as that was the first time he had driven to town. He is only eleven years of age.

-Mr. Mathison's eldest son, Robert, who has been at the Dental College in Philadelphia, came home on the evening of March 5th, and we were all glad to see him again. George, Robert's brother, is not home yet but we all hope to see him next week. He is having an examination now in Toronto. As soon as it is finished, he will come home.

-The 10th inst. was the birthday of one of the teachers, Miss James, and many of the girls entered her bedroom wishing her many happy returns, and trusting that she might long be spared from her friends. During the day we sent her some addresses and presents from her friends. During the day we went into the parlor to keep her company. We are all so glad to see her improving steadily.

-On the 6th inst., we all were allowed to go out skating and ice-boating on the bay in the afternoon, but many of us walked around on the ice, as it was not good enough for skating. After returning from the bay, to our great surprise we met Miss Ada James, who was out of the hospital in Belleville, and she looked much better, but weak. As she as Miss James entered the dining room we all waved our handkerchiefs as a token of joy.

-On the afternoon of the 8th inst., some big boys went to town to see the hockey match between the Trentons and Bellevilles for the cup, but they were disappointed, as the ice was very bad, and the boys heard that the match would be postponed till the 11th inst., and on that evening, some big boys went again, but they were also disappointed.

-On the afternoon of the 8th inst., we are glad that spring will soon be here. We have had a capital time during the winter skating, but we were rarely out ice boating, as the ice was covered with snow. The snow is quickly

PUPILS' LOCALS.

From the Boys' Side of the Institution.

(By WILLIE MCKAY.)

-Last week, Mr. Burns, the instructor of printing, was absent for four days, because he was on the jury at the Court of Assizes. David Luddy, who works in the office all the day, took charge in his absence.

-Mr. Coleman, our head teacher, gave the pupils of the high class an enigma puzzle. The following is the sentence: "A man's age was represented by two figures which were the same, and their sum was 12. How old was he?" Can you solve this?

-Our head teacher, Mr. Coleman's birthday was on the 12th inst., and the pupils of the high class gave him an address saying that they wished many returns of the day and he said that he was glad that they appreciated his labors in trying to improve them, and he also said that he would keep the address in remembrance of the pupils.

-On the 12th inst., there was a grand celebration in the city in honor of Sir Mackenzie Bowell, Premier of Canada. His grandson, Charles Holton, went to town to see him. He said he was very glad to meet his grandfather again. We heard that Sir Bowell, Sir Caron and others intended to visit the Institution, but they did not. We would like to see him.

-On the afternoon of the 8th inst., some big boys went to town to see the hockey match between the Trentons and Bellevilles for the cup, but they were disappointed, as the ice was very bad, and the boys heard that the match would be postponed till the 11th inst., and on that evening, some big boys went again, but they were also disappointed.

-March is the last winter month. So we are glad that spring will soon be here. We have had a capital time during the winter skating, but we were rarely out ice boating, as the ice was covered with snow. The snow is quickly

covered with snow. The snow is quickly

Knowledge will not be acquired without pain and application. It is the soul and deep digging for pure wisdom, but when once you come to the end they rise up and meet you.
