

dle of March. He was accompanied by W. J. Elmendorf, consulting engineer, of Spokane, who is manager of the Arctic Chief mine in Whitchorse camp.

Edward K. Judd, mining engineer, of New York City, is examining some newly opened coal property in the northern part of Vancouver Island, to report on it. Mr. Judd is an occasional contributor of descriptive mining articles to the *Engineering and Mining Journal*.

Warner Miller, of New York, has resigned as president of the Dominion Copper Company, Limited; also from the directorate of the company. C. J. Cull, stated to be the representative on the board of British shareholders, is acting president for the time being.

W. A. Carlyle, consulting engineer, of London, after spending about a month at Rossland, during which he made a thorough examination of the Le Roi mine, left on his return to England early in March. He was accompanied to Spokane by A. G. Larson, mine superintendent for the Le Roi Mining Company.

James Cronin, of Spokane, formerly manager of the St. Eugene mine in East Kootenay, was at Nelson lately. In company with N. J. Cavanaugh he went to the Queen Victoria mine, which was under bond to himself and associates. It was afterwards stated that the bond had been relinquished, owing to the discouraging outlook for the copper market.

George Otis Smith, director of the United States Geological Survey; R. W. Brock, acting director of the Geological branch of the Department of Mines of Canada; and Dr. Willet G. Miller, provincial geologist of Ontario and president of the Canadian Mining Institute, have been invited to speak at the annual meeting of the Mining Society of Nova Scotia, to be held late in March.

Francis A. Thomson, head of the Department of Mining Engineering at the State School of Mines, Pullman, Wash-
