

EXTRACT OF BEEF.—Bouchardat warns against the incautious use of this extract, under the mistaken notion that an increase of dose will be followed by a corresponding increase of benefit. Both he and Stuart Cooper have shown that large doses of the extract are quite injurious. He further asserts that it cannot at all be compared to meat-juice (expressed in the cold from raw meat) as a strength giver.—*Bull. Therap.*

NEW REAGENT FOR URIC ACID.—Mr. Didelot recommends, in the *Repertoire de Pharmacie*, a new and simple method for detecting uric acid in guano, bird manure, etc. A few drops of nitric acid having been poured on a small quantity of the dry substance, when a glass rod is dipped into the mixture and rubbed on a spatula or a bright piece of iron, the metal immediately assumes a Prussian blue color. The reaction, according to the author, is extremely delicate—more so, perhaps, than the usual ammonia test.

## Registrar's Notices.

### RENEWALS SINCE OCTOBER 31ST.

Ansley, H. W., Port Dover.	Hawley, A. W., Trenton.
Armstrong, O. L., Teeswater.	Huffman, J. C., Napanee.
Armstrong, Wm., Orangeville.	Huffman, T. C., Napanee.
