

Messrs. W. B. Saunders & Company, Publishers, of Philadelphia, write us as follows:

"About September 25th we shall have ready 'The American Illustrated Medical Dictionary,' by W. A. N. Dorland, editor of 'The American Pocket Medical Dictionary.' This is an entirely new and unique work for students and practitioners. It contains more than twice the matter in the ordinary students' dictionary, and yet, by the use of clear, condensed type and thin paper of the finest quality, it forms an extremely handy volume only one and one-half inches thick. It is a beautiful specimen of the book-maker's art. It is bound in flexible leather, and is just the kind of a book that a man will want to keep on his desk for constant reference. It is absolutely up-to-date, containing hundreds of important new terms not to be found in any other dictionary. It is also extremely rich in the matter of tables, containing over one hundred original ones, including new tables of stains and staining methods, tests, etc., etc. An important feature of the book is its handsome illustrations and colored plates drawn especially for the work, including new colored plates of arteries, muscles, nerves, veins, bacteria, blood, etc., etc.—twenty-four in all. This new work has been aptly termed by a competent critic, 'The New Standard.' The price of this work will be \$4.50 net, indexed \$5.00 net.

NEW HOME FOR J. B. LIPPINCOTT COMPANY.—An important transaction has just been concluded by which a number of old-fashioned dwelling houses on East Washington Square have passed from the ownership of the heirs of the famous lawyer, Horace Binney, and will soon be torn down to make way for a fine building to be occupied by the J. B. Lippincott Company, whose old home on Filbert Street, above Seventh, was burned down some months ago. Possession is to be given by September 14, and it is expected that the demolition of the old structures will begin soon after. The site is considered a very eligible one for the Lippincott Company, as it has light on three sides, is very central, and they will be enabled to promptly issue and increase their excellent line of medical publications by standard authorities. By the way, their new catalogue, just issued, is handsomely illustrated with excellent portraits of many of America's leading medical writers. Many historic recollections cluster about the properties just sold. They stand on the ground once occupied by the old Walnut Street prison built before the revolution, and in which during the struggle the English confined American prisoners during the former's occupation of Philadelphia.
