

SPECIALTIES.

JOHN WYETH & BRO., Philadelphia.

PAPOMA

Is made out of the entire kernels of the choicest wheat, subject to a peculiarly thorough process of torrefaction or roasting, by means of patented apparatus. The phosphates and all the constituents of the grain are retained, the gluten cooked, and the starch converted into dextrine; and the result is, that the elements necessary for the nutrition and support of the infant body, are supplied in such a condition as to be easily digested and assimilated.

MEDICINAL FLUID EXTRACTS.

Our List of **FLUID EXTRACTS** embraces not only those official in our Pharmacopœia, but also those whose therapeutical value has induced their use among physicians.

Our many years' experience as practical pharmacutists, thorough knowledge of the character and properties of each drug, together with appliances for manufacturing (which, for completeness and economy of working, cannot be excelled), enable us to produce a line of Fluid Extracts of unsurpassed purity, activity and reliability. We ask for them the most careful and critical examination and comparison, claiming, as we do, their superiority over almost all other similar preparations in the market. We feel confident our claims will be sustained by any unprejudiced and experienced druggist.

Every detail of their manufacture, from the crude drug to the completion of the operation, is based upon the most extended and intelligent knowledge of the characteristics of each drug.

PEPTONIC PILLS.

Pepsin, Pancreatin with Lacto-Phosphate of Lime and Lactic Acid.

(Copyright secured.)

This Pill will give immediate relief in many forms of Dyspepsia and Indigestion, and will prove of permanent benefit in all cases of enfeebled digestion produced from want of proper secretion of the Gastric Juice. By supplementing the action of the stomach, and rendering the food capable of assimilation, they enable the organ to recover its healthy tone, and thus permanent relief is afforded. One great advantage of the mode of preparation of these Pills is the absence of sugar, which is present in all ordinary Pepsin and Pancreatin compound—in this form the dose is much smaller, more pleasant to take, and is less apt to offend the already weak and irritable stomach. The results of their use have been so abundantly satisfactory that we are confident that further trial will secure for them the cordial approval of the Medical Profession and the favor of the general public.

COMPRESSED TABLETS OF CHLORATE OF POTASH.

For Hoarseness, Bronchial Irritation, Sore Throat, Diphtheria, Croup, Etc., Etc.

Chlorate of Potash is a remedy of acknowledged value in cases of Diphtheritic Sore Throat, and in inflammation of the Mouth and Throat, induced by a depressed state of the system. In these instances, as in the milder forms of Croup, it has, besides its depurative and detergent effects, a solvent action on the deposits characteristic of those troublesome and dangerous affections. It relieves Hoarseness; and in many cases of Fetid Breath from disordered secretions, it proves an efficient corrective. Its virtues in simple Angina, or ordinary Sore Throat, are recognized by many of the most eminent Physicians.

Samples will be sent to Practicing Physicians free of cost, by addressing the General Agents,

PERRY DAVIS & SON & LAWRENCE,
