cently held, the sum of \$220.50 was cleared." As Mr. Arnold says, "This year the ratepayer has already paid for the upkeep by patronizing the concert and he had a good time as well, also largely helped by the country people who take as much interest in it as we do if one puts the matter up to them in a proper manner."

The establishment of parks and recreation grounds is probably the most popular feature of town planning that a council could take up. Other towns have probably had success along this same line. The Town Planning and Rural Development Branch would like to secure further accounts and data relative to parks in the towns and villages of the province.—Public Service.
