Publications  
Pulp and Paper Engineering/Technology  
Recycling, Research and Technology  
Remote Sensing  
Rescue Equipment  
Research Services  
Sludge Handling/Treatment  
Soil Treatment/Reclamation Technology  
Spill Clean-Up Technology  
Water Pollution Control

## Company/Product

The Alberta Research Council, established in 1921, is one of the oldest and largest provincial research organizations in Canada. The Alberta Research Council has a stated mission to advance the economy of the Province of Alberta by promoting technology development and application; performing applied research; and providing expert advice, technical information, and scientific infrastructure. With 600 employees, it offers a diversified range of scientific, engineering, and technological capabilities in: geological and soil surveying; environmental research and engineering; oil sands and hydrocarbon recovery; coal and hydrocarbon processing; advanced computing and engineering; electronics testing; forestry biotechnology; and manufacturing technology. Joint research venture programs are carried out with industry partners. The ability to assemble multi-disciplinary teams that provide comprehensive integrated solutions to difficult technical problems is one of the major strengths of the corporation.
