

*** INSURANCE ON PRIVATE CARS ***

1. It is sometimes possible to obtain "fleet rates" on insurance for privately owned vehicles. In order to be eligible for this benefit, it is necessary for enough of the personnel in a mission to form a group which agrees to deal with one agent.

2. In making such an arrangement care must be exercised that the office is not identified as the insurer with the Trade Commissioner or other F.S.O. signing as its authorized representative. Any policy on privately-owned vehicles must be contracted for by the individuals concerned in their personal not official capacity.
