

BELIEVES THAT LOVE HAD WIFE AND INTENDED TO DESTROY HOUSE BY FIRE

Son Testified that the Prisoner Had Asked Him to Agree With His Story About Mrs. Love Being at a Neighbor's Home—Prisoner Found Body an Hour After Neighbors Had Told Him They Were Going to Search Premises.

By a Staff Reporter. DOWNSOUND, March 19.—Well-known link slowly and examining witnesses with utmost aggravation yesterday started to form a chain of circumstantial evidence in the murder of Mrs. Love, Hannah Love, in their home near Fleisherton last December. During the day only witnesses took the stand. Arnel Love testified against his father, and his statements were much the same as given at the inquest.

Such care was exercised by Mr. Gibson in securing information about the architecture of the house at Downsound. The world learned that the crown was endeavoring to prove that Arnel had placed the body of the woman under the rear section of the building with an object so cunning that it would not be discovered until the coroner's jury intended to follow the murder, but unforeseen complications arose and it was prevented from doing this.

Provincial Inspector Reburn discovered some time ago that the spot where Mrs. Love's body was found happened to be directly under her bedroom. Measurements showed that the bed in the room was completely destroyed after the place where the corpse lay. It was found that Mrs. Love had planned to fire the house from a point near the body and that she figured on the coroner's jury intended to follow the murder, but unforeseen complications arose and it was prevented from doing this.

When interviewed by Inspector of Detectives Reburn prior to the preliminary hearing, Mr. Love testified that he did not remember the night of the murder. "No, I suppose you can't," he said. "Still, you can come here and be very clear about things that happened at the time of the disappearance."

He did not remember whether he had answered a question put to him by the coroner's jury. He had asked Love about the disappearance while driving the latter to Fleisherton. Hemphill admitted he did not mention Arnel's name in his statement to the coroner's jury. He would sell the furniture if he could not get a better price elsewhere. He was interviewed by Inspector of Detectives Reburn prior to the preliminary hearing.

Home, Merchants Bank May Be in Some Deal For Banking Quarters

The latest deal in banking houses is said to be a move that contemplates the leasing of the ground floor of the Merchants Bank building to the Home Bank when the Royal moves into the 20-story building next year and the occupying of the Home Bank's present quarters at 8 and 10 West King street by the Merchants Bank. It is on West Wellington street.

So far as can be learned, the idea was progressed little further than the proposal in state. No one can name the underlying reasons that might bring about such a move.

adduced yesterday it was shown that the crown was endeavoring to prove that Love could not see the blood on the woman by standing on the steps as he said he did, therefore he had no apparent reason for trying to bleed to death unless he had other knowledge.

The defence contends that Love did not see the body the first time he searched for the simple reason that he had to hold the lantern right and look in the proper direction. They claim, however, that he could see the blood when he observed the body.

During the whole session Love evinced no surprise whatever at any of the statements made by witnesses, in the same stolid manner he has conducted himself since the murder of the prisoner listened to the proceedings in the same stolid manner.

There is no truth in the report published in a Toronto paper to the effect that the defence plea would be "emotional insanity."

MANY ACCIDENTS IN TORONTO YESTERDAY

Publishing Co. which was proceeding north on the main street, was struck by a motor car, which was being driven by Edgar Roberts of 1177 Keele street, ran right over the boy.

He was carried in a stunned condition into the office of the Reliable Messenger Co. Temperance street, where he is employed, and a doctor called, but after receiving medical attention he was able to be taken to his home, suffering only from shock.

Struck by Car. James Brown of Mount Dennis farmer, while driving a rig across the corner of Bloor and Marguerite streets, yesterday afternoon, was struck by a Belt line street car and received painful injuries.

The car was proceeding rapidly at the time, and practically ran over the man, who was thrown some distance, and landed on his face. Dr. S. Moore, 1205 West Bloor street, attended the injured man, and found him to have sustained a broken nose. He is also suffering from a number of painful bruises, in addition to the general shaking up.

Sewer Caved In. A cave-in in a sewer on Emerson avenue yesterday afternoon resulted in serious injuries to a Macedonian laborer, of 452 King street west. He is now in the Western Hospital, with a broken leg and suffering from shock.

Bogomilkinoff, who is employed by the McKinnitt Construction Company, was removing the shoring from the site of the sewer, and a section of the structure gave way and caved in on him, nearly burying him alive. He was rescued by fellow workmen, and taken to the hospital, where he is now recovering.

Heard Woman Scream. No one went into the cellar farther than the steps until the coroner arrived. Witness noticed that there was no blood about the head, but that there was a large quantity of blood between the right arm and body. He declared that a person would have to be within four feet of the body to see this blood, while the steps are a great deal further away. Asked if he had anything to add about a scream he had heard, he said he could not remember.

Couldn't See Blood. Isaac Travnor, a civil engineer, explained several plans of the house, which he said he had prepared to be used in the case. From the evidence

of a company, it is cited that while the laying of main sewers cost \$1,500 per mile, municipal car lines can be built and fully equipped for less, or \$500 per mile. Sewers under the local improvement plan cost the city one-third of the expense. Car line extensions would cost the city less than \$17,000 per mile, and the balance of the \$50,000 per mile would cost the property owners about a dollar per foot, frontage.

The projected tubes down Yonge street are the backbone of the system of municipal car lines, as single fair will thus be made possible by connecting up the lines, and connecting up Danforth avenue line by street 1962 from the east bank of the Don river to Yonge street.

The impossibility of striking an 18-2 mill rate this year is becoming more and more apparent. The estimates of the several city departments, of cost of labor and material has continued to advance, and the needs of the works department are out of comparison with the previous year. The works department also requires special attention.

Departments that had to accept deep cuts last year will not be able to get along with similar treatment this year. It is now understood that the basis of control should be the estimate for an 18-2 mill rate and a practical consideration to the up-keep of the city. What is probable is that the rate will be a 20-2 mill rate, or even a 20-2 mill rate.

RULES OF HOUSE TO BE AMENDED UNLESS OPPOSITION SURRENDERS

Continued From Page 1. Mr. Guthrie between them went so far as to say that some such pledge was signed and was in the hands of the Nationalists. But the Conservatives will not answer. "And the situation turns largely on this lack of reply to the questions on the part of the Conservatives, and this insinuation by the Liberals that there is some kind of pledge given to the Nationalists which limits the government's policy, which prevents proposing money for a Canadian navy."

ARTHUR HAWKES ASKS PREMIER WHAT IS THE PERMANENT POLICY?

Last night The World received the following from Mr. Arthur Hawkes, editor of The Canadian British News, the champion of "The British-born." He took a prominent part in the fight and organization against reciprocity in 1911: "World: In the belief that it reflects a widespread feeling in the public mind and in the hope that it may contribute to the spirit of non-partisan agreement upon national defence, I venture to send you a copy of a letter recently addressed to the prime minister, appended herewith, in the crucial aspect of the historic issue on which it would seem both political parties must desire public opinion to crystallize."

Arthur Hawkes, Toronto, March 19. "Dear Mr. Borden: I am sure you will not be sorry to have an enquiry regarding Canadian defence from one who worked in the last general election without reference to what may have been said as to submitting any aspect of that question to popular vote."

"In joining those memorialists who desired to remove the whole matter from the dangers of partisan politics I hope it would be understood that whatever might be determined as to an emergent contribution, the only solution of the question, from the point of view of Canadian nationality as an increasing power within the British Empire (which was the whole reason for my aid) I was able to render to you in 1911 to ensure the implementation of the resolution of the house of commons of 1909, which I have always believed to be the charter of Canada's naval development, a final reversal of which would be a declaration to the empire and the world that a course taken by parliament in a matter of such national importance need not be regarded as conclusive."

"As an elector who desires only to render such service as he may to Canada, will you allow me to ask for guidance on a point which, it does not appear to me, has no definite strong relief in the parliamentary discussions, may govern one's attitude to the order, according to the following graded plan:

Table with 4 columns: Age, Rate, Rate, Rate. Rows 1-65.

INSURGENTS CONTINUE FIGHT

Continued From Page 1. Officers—Major J. J. Craig of Ferguson; James M. C. Ewing, grand master workman of Drayton; W. M. Mickel, Belleville; J. Lockie Wilson, M. D. Carder, F. G. Inwood, Dr. Milton Cotton, T. C. Irving, three delegates from the Toronto, W. A. Hastings, James M. C. Ewing, Judge D. F. MacWatt of Sarina; J. M. Peregrine, Hamilton; Jos. Gibson, Ingersoll, and S. B. Morris of Rodney—were present at yesterday's session.

F. G. Inwood, grand treasurer, presented a report that of £100,000 for 1912, that of the balance fund, and the auditor's report. At the opening of the afternoon session, S. C. Doran of Brandon, Manitoba, who came to the convention bearing greetings from the North-west Grand Lodge, was presented to the assembly and received a most enthusiastic reception.

Amendments Rejected. In the last two hours of the session last night a snap vote was taken upon the proposed amendments to the grand lodge constitution, which dealt with the re-organization of the lodge, and all but one of them were rejected by the standing vote. Amendment No. 1, which is known as the Longmore amendment, because of the name of the proposer, was rejected by a large majority.

To Pay Double. The insurgents are headed by the delegates of the Quebec subordinate lodges, which took a decided stand against the grand lodge schedule and obtained an injunction in the courts restraining the grand lodge from raising the rates until all the members of the order had been officially notified of the increase. The older members of the order were naturally very much dissatisfied at a change in the rates, which would compel them to pay nearly double what they had been paying.

Saloniki, March 19.—(Can. Press.)—The assassin of King George is still held in close confinement. At various periods throughout the night he was forced to undergo an examination, but without eliciting any facts to show that other persons were implicated in the crime.

KING'S ASSASSIN IS AN IMBECILE Was Nervous Wreck and Wished to Redeem Life, His Statement.

SALONIKI, March 19.—(Can. Press.)—The assassin of King George is still held in close confinement. At various periods throughout the night he was forced to undergo an examination, but without eliciting any facts to show that other persons were implicated in the crime.

Wished to "Redeem Life." Interrogated as to why he assassinated the king, Schinas replied: "I had to die somehow, as I suffer from neurasthenia and therefore wished to redeem my life." He appears to have had a wretched existence, subsisting almost entirely upon milk. His family has long ceased to acknowledge him.

Wanted to Redeem Life. Interrogated as to why he assassinated the king, Schinas replied: "I had to die somehow, as I suffer from neurasthenia and therefore wished to redeem my life." YORK COUNTY AND SUBURBS KEY TO RAILWAY STATION THE HANDS OF THE CITY

Joint Committee of Northern Ratepayers' Association Advises Mayor and Controllers That They Control the Situation in Connection With the Metropolitan Tracks on Yonge Street.

The joint committee appointed by the northern ratepayers' associations to confer regarding the proposed agreement between the city and the Metropolitan Railway Company regarding the double-tracking of Yonge street have prepared the following statement of the results of their conference, which will be sent to the mayor and board of control: Toronto, March 17, 1913.

Equally Interested. In discussing the radial situation, all realized that both the city and the County of York were equally interested in making the Metropolitan Railway to properly handle their business. It was also realized that the Metropolitan Railway, in its use of the tracks from York Mills south by the city and radial cars, the local traffic would cause a growing speed handicap to the radial, as the speed of the radial car would be limited to the speed of the local car.

Equally Interested. In discussing the radial situation, all realized that both the city and the County of York were equally interested in making the Metropolitan Railway to properly handle their business. WARD SEVEN

The building business in ward seven received another impetus during the past few days. Among the larger items on the permit list for West Toronto are a 4-story brick addition to the Campbell Milling Company's plant on Cavendish avenue, to cost \$15,000; a block of 100 flats on Dundas street by M. Shinkman, costing \$10,000; and a detached brick house on Fairview avenue, by Kerr & Martin, to cost \$12,000.

Rev. Dr. J. C. Speer delivered an exceedingly interesting lecture last night in the High Park Avenue Methodist Church to a large audience on "The Great Discoveries of the World," with special reference to the famous Keweenaw Peninsula. The lecture was under the auspices of the Ladies' Aid of the church.

Rev. W. H. H. Sparks, rector of St. Olave's Church, Swansea, was the special preacher at the Lenten Wednesday evening service in St. James' Church last night. Special services of a penitential nature will be held on Good Friday.

The West Toronto Cricket Club held their annual banquet and election of officers last evening in St. James' Hall.

SCARBORO

On Tuesday night, March 25, an inquest will be held at the morgue over the body of the late Alfred Burnham, who was found St. Augustin's seminary, on "The Right" Tuesday night. At present there is no word from Michael Daly, a local man on whom it is believed that he was the murderer of the victim.

On Tuesday night, March 25, an inquest will be held at the morgue over the body of the late Alfred Burnham, who was found St. Augustin's seminary, on "The Right" Tuesday night. At present there is no word from Michael Daly, a local man on whom it is believed that he was the murderer of the victim.
