VALUES OF FRUIT BECAME FIRMER

Demand for Saturday Supplies Responsible for Tightening of Prices.

PEAR TRADE SLACKER

Prices as a general rule were slightly firmer on the market yesterday, partly caused by the demand for Saturday supplies.

Melons were less numerous than they have been, and on the whole were of better quality. They sold as follows:
Ordinary, 11-quart baskets, 20c to 30c; better quality, 11-quart leno baskets, 30c to 40c per basket, and salmon flesh, 16's, 40c to 60c per basket, 20c to 70c to 25c to 40c per basket, and salmon flesh, 16's, 40c to 60c per basket, 20c to 11 quart leno baskets, 30c to 40c per basket, and salmon flesh, 16's, 40c to 60c per basket.

Canadian Press Despatch. LONDON, August 28, 6.06 a.m.-The British marines in force are now in control of Ostend, says a despatch from the last named place to The They continued landing all day yesterday and several quick-firers were brought ashore early today. The men present a splendid appearance, and all are eager for a speedy meeting with the enemy. The work of disembarkation is proceeding with smoothness and precision.

Meanwhile the approaches to the

station are thronged with sightseers and citizens who express regret that the marines were not landed sooner. The British officers declare they had not landed sooner because of objections by the local authorities, Field Battery, Kingston. The squad is who held a meeting in the town hall, where several prominent local officials objected to the British landing on the ground that it would frighten the hotel

visitors. The fighting at Snaeskerke on Tuesday changed the minds of these objectors, and the city fathers did forthwith ask the British Government to

Western Railroads of U.S. Order Resumption of Thru Bills of Lading.

NEW YORK, Aug. 28 .- Shipments of this country's foodstuffs to European ports were further facilitated today by the action of the eastern trunk railroads, which ordered a resumption of thru bills of lading, subject to minor restrictions. It is anticipated that this will have the effect of vastly increasing American exports and bring about a gradual readjustment of the foreign existing situation. The approach of the monthly settle-ment period in London with calls for heavy cash payments at that centre, deheavy cash payments at that centre, despite the prevailing moratorium, was a factor of importance in the exchange market today. Cables on London sold at 5.08%, with 5.07% for demand. Considerable business was done at these higher rates, which were again ascribed in part to the victories credited to the German arms.

to the victories credised to the German arms.

There was another conference of international bankers regarding the means to be employed for payment of New York City warrants, which mature in the course of the next fortnight. The amount due London is something like \$12,000,000, with that much or slightly more, for Paris. While most local bankers continue their opposition to the suggestion that gold be exported, the impression prevails that only by some shipments of the precious metal to Canada can the terms of this city's obligations be met.

ELECTRICITY IS THE

PRICE OF WHEAT DROPS ABRUPTLY

Trading Was Narrow and Selling Orders Had Marked Effect.

CHICAGO, Aug. 28.—The hysteria of recent sessions was absent from the wheat market today and that cereal led thers to a lower level. Wheat dropped

wheat market today and that cereal led others to a lower level. Wheat dropped 2½c to 3½c, corn 1½c to 1½c and oats %c to %c. Provisions closed from 5c higher to 12½c lower.

What selling there was in the narrow wheat market was done by scattered longs, and much of the buying also was credited to them on the theory that a long with a profit secured can scarcely resist buying in at a decline in hope of another bulge. As was the case yesterday when prices were soaring, the trade paid no attention to the news, such as it was. Most of the trading was done in the first half hour. At 1.15 May was ten cents under yesterday's top. It reacted one to two cents from this and lingered in the neighborhood of the closing price the remainder of the session. At the close the tone was heavy. Commission houses made an effort to attract legitimate trading, but 15c and 20c margins demanded in some cases did not prove inviting. Country offerings were reported decidedly larger in response to the bids of millers in the northwest.

Rains in the corn belt and the influence of wheat depressed corn prices. There was a fair eastern shipping demand. Samples were %c lower.

The dectine in oats was due to profittaking influenced by wheat and the slowing of the seaboard demand.

September provisions eased off on continued scattered liquidation, while January gained modestly on investment demand.

WINNIPEG GRAIN MARKET.

WINNIPEG, Aug. 28.—The wheat market was more settled today, fluctuations being comparatively narrow and trading quieter. Quite a lot of hedging was going on and cash premiums were fading away, the demand being less keen. Sentiment generally is that the bulge recently seen is enough for the present.

Winnipeg wheat opened ic to 1%c lower for October and December and the range in prices up to noon was 1½c to 1½c.

for October and December and the range in prices up to noon was 1½c to 1½c. Oats opened unchanged and ranged ½c to 1c. Flax opened ic lower and dropped five cents, altho it recovered later slightly. Wheat closed 1½c to 2½c lower. Cash grains closed: Wheat, 2½c to 2½c lower; oats, 1c to 1½c lower; barley, ½c lower; flax, 3c lower.
