AS IN FAIRYLAND.

have cut loose from the cold matter of fact world and gone back to the days of the fairies. The event was a garden party and sale in aid of the persecuted Armenians, but in its scale and manner of celebration it outdid everything of the sort that the East End has seen this summer. The closely-grouped trees of the pretty private park, wrapt about with flags and evergreens, made an admirable spot for the introduction of stalls, which, covered with the things human nature can never resist, brought in over \$200 for the fund. An invitation had been given Kew Beach to join the garden party, and when, a little after 3 o'clock, the more westerly resorters arrived in their lantern-decorated fleet, they found Balmy Beach in a blaze of light. Not alone the water front, but, by mutual arrangement, every cottage in the neighborhood was hung with Chinese lights, while on the beach the flames of a bonfire leaping 50 feet high lit up the sands for hundreds of yards both to the east and west, and threw a glare far out in the lake. we cut loose from the cold matter of

FIGHTING FIRE WITH CANNONS.

When Oil Tanks Catch Fire the Trouble is Cleveland, O., Aug. 15.—A special to The Press from Lima, Ohio, says: At 1 o'clock this morning lightning struck a 36,000-barrel oil tank on the Kemper farm, three miles south of here, owned by the Standard Oil Co. It was situated in a group of such tanks, and the fire communicated to three others. The Standard people hired 300 men to throw up embankments, and then took their cannon on the ground and began shooting the tanks to let the oil out. The smoke from the burning oil obscured the sun, and it was as dark as an eclipse. The fire was under control at noon. Loss \$75,000. to Empty Others.

What is Being Done for Cyclists? Editor World: I noticed in Thursday's isue of your paper that the work of continuing the bridle path in Queen's avenue had commenced. It would be interesting to know just how many of the citizens will use the said path for the purpose for which it is intended. Then a speeding track has been made on Eastern-avenue. How many will use this? Take the army of wheelmen and women and inquire wheelmen and women and inquire what has been done in their interests, and you will find that with the exception of a path on Winchester, petween Ontario and Parliament-streets, hey have been overlooked entirely. It has been estimated that there are roronto, or about out to where the one of those mentioned, and for iom so much is being done. Surely me consideration should be shown some consideration should be shown such a large class of the community; a class that has furnished employment to thousands in this city. Perhaps it is pretty large vote among wheelmen, and possibly the members of the corporation will find it out at the ensuing municipal elections. By inserting the above in your widely-read paper you will oblige many a disgusted

McIntyre & Wardwell send the following despatch to their branch office in Toronto: New Yo.k, Aug. 15.—There was little do-ing in to-day's stock market worthy of ing in to-day's stock market worthy of note. It was rather heavy early on lower London, and in anticipation of a bad bank statement. Bank figures were even worse than had been expected, showing a loss of nearly \$10,000,000 in deposits, with a shrinkage of \$5,000,000 in loans, while the surplus reserve fell off \$4,415,000, leaving the surplus at \$9,400,000. The statement forestantows higher rates for money, which will probably deter buying, and even induce further liquidation, but it was evidently discounted for the moment, as the market rallied on its appearance. Trade reports are bad, tight money supplementing the effects of political situation. Bank clearings for week decrease 5 per cent. The business failures were 298, against 196 in same week last year. American stocks closed heavy in London to-day. The Treasury gold is down to \$100,000,000. Foreign exchange is dull at 4.874 for sight drafts. Rapid Transit Commission has invited the Manhattan to present a new proposal for

Bowling Tournament

Bowling Tournament

of pure "stump tail wheat." We are apparently to look to a spring wheat crop of 75 millions less than that of 1895 and to look to a spring wheat crop of 75 millions less than that of 1895 and to our visible supply for exportable wheat, and nowth standing this wheat sells down. We think wheat well worth what it is selling at, but opplifons are worth nothing in the present financial and political disturbance. Northwestern receipts to-day were 42c cars, against 201 cars a year ago. To-day was extremely dull and September fluctuated only half a cent, closing at its opening price, 55c.

Corn and oats—Were fractionally firmates were 650 corn and 330 oats. The brilliant weather is having a depressing effect on corn and the fear of another large crop on top of the largest, in our history, but at present prices it seems to us this must be discounted. There is very little
