Prof. W. H. Jordan addressed the convention on "Feding Standards." Mr. Fisher, Dominion minister of agriculture, during the evening presented the medals won for dairy exhibits.

RIVAL CLAIMS DISCUSSED

Chamberlain Speaks on "Threatening Foreign Questions."

Especially the Dispute With France in Re Newfoundland.

How the French Have Strangled the Colony.

Russian Designs on Herat-Important Religious Movement Which Has Arisen in England.

London, Jan. 19.-The Right Hon. Joseph Chamberlain, secretary of state for the colonies, speaking last evening at the banquet of the Wolverhampton Chamber of Commerce, reviewed at great length the various threatening foreign questions confronting the gov-

In connection with the withdrawal of the French demand for an extension of the settlement of Shanghai, Mr. Chamberlain congratulated his hearers that Great Britain's opposition to the French proposal had been strenuously supported by the representative of the United States. "That, I think," he said, "a significant and noteworthy fact. Nay, I think and hope it will become history. It shows that circumstances are bringing about the community of interests between Anglo-Saxons which in the future may have far-reaching and beneficent results."

He welcomed the changing tone on the part of France, declaring that if the French Government desired an amicable settlement of all remaining difficulties they would meet France more than half way.

THE NEWFOUNDLAND DISPUTE. Dwelling elaborately upon the Newfoundland matter, he said: "In spite of charges to the contrary, nobody here has the slightest desire to evade the objects of the treaty of Utrecht, but we do desire that the rights conferred upon France by that treaty should not be extended and abused to the injury of our pockets. If when those rights are properly defined they are found to possess a value for France, we shall be perfectly willing to observe them; or, if France is willing, to arrange for their extinction in fair and reasonable terms of compensation." Mr. Chamberlain described in detail

how the French had been CONTINUALLY ENCROACHING and striving to extend their claims on the French shore, while at the same time their interest in the fishery had been continually decreasing. "In fact," he said, "by means of alleged rights, under antiquated treaties, they have strangled our colony of Newfoundland, and have done so without a pennyworth of advantage to themselves. If they are sincerely desirous of amity with England, it will be an easy matter for them to abandon their antiquated rights for a satisfying compensation."

OPEN DOOR POLICY. In conclusion, Mr. Chamberlain paid a high tribute to the success of Lord Salisbury's foreign policy, remarking: "It is cause of satisfaction that two great nations, Germany and the United States, both protectionist at home, have proclaimed their intention to adhere to the principle of the 'open door' in their foreign possessions. We shall regard their expansion without jealousy, and shall welcome their co-operation, and, I think, without being too sanguine, we may rely on their sympathy and assistance in securing the general adoption of a principle to which

we attach so much importance.' FEDERATION OF DISSENTERS. One of the most important religious movements the world has known since the days of Martin Luther has been inaugurated by the National Council of Evangelical Free Churches of England and Wales. It is no less than an attempt to unite the dissenting churches of the country under one creed. Should it succeed Methodists, Baptists, Presbyterians, Congregationalists, Primittive Methodists, Methodist New Connexionists, Bible Christians and mem-bers of the United Methodist Free will gain the strength which consolidation always brings.

REASON FOR THE MOVE. It has long been felt that the Roman, Anglivan and Russian churches, owing to their vast and unified organization, are possessed of a strength which the numerous Protestant deno-minations do not possess owing to their lack of cohesion. The movement for the federation of all these churches has therefore taken its rise, and its practical outcome has been the preparation of a catechism by a committee representing each body. This catechism has just been issued, and combines the creeds of all dissenting denominations into one. The Rev. Hugh Price Hughes, chairman of the committee, states: "The great object has been to express the Christian doctrine held in common by all Evangelical Free Churches. The theologians who have prepared this catechism represent the beliefs of not less than 60,000,000 Christians in all parts of the world. No such combined statement of interde-nominational belief has ever been previously attempted since the lamentable day when Martin Luther contended without a dissentient vote.

THE PHILIPPINES. London, Jan. 19.-The Spanish Cabinet, according to the Madrid correspondent of the Daily Mail, has decided to submit a bill to the cortes,

pines before presenting the peace treaty for ra fication. The French steamer Cachemire arrived at Barcelona from the Philip-pines with 1,170 repatriated Spanish soldiers. There are 300 sick, and there

sanctioning the cession of the Philip-

Carlists says that everything is now ready for a rising in Spain, and that Don Carlos is absolutely resolved to take the field, and that all are waiting for the signal.

BOTH BUSY. London, Jan. 19.—The St. Petersburg correspondent of the Daily Mail says: "In the event of a disturbance following upon the death of the Ameer of Afghanistan, the Russian Gen. Beguljuboff, governor of the Trans-Caspian district, who has a force of 20,000 men, has direct instruction to take Herat, 360 miles west of Cabul, and a post of

great military importance.' The British Government has decided to purchase all the western portion of the Island of Liu-Kung-Tuo, which protects the harbor of Wel-Hai-Wei.

THE REVOLT IN SAMOA

That Followed the Choosing of a King.

The Capital Looted and Fired by Rebels-British Blue Jackets Landed -Mataafa and His Chiefs Recognized as a Provisional Government.

San Francisco, Jan. 19. - A cablegram from Auckland, N. Z., under Oceanic steamship Alameda left Apia on Jan. 12, a revolution had broken being waged with much bloodshed and great destruction to property. The warships Falke and Porpoise-the latter under the command of Capt. Sturdee-were taking part in suppressing the rising. On Dec. 10 the chief justice determined in favor of Malietoa Tanus, claiming Mataafa was barred by the treaty of Berlin. On Jan. 1, 5,000 of Mataafa's followers rose in rebellion and defeated 2,000 of Malietoa's men, ambushing them and killing 13 natives and wounding many.

The rebels burned 400 houses and razed the town of Upolu. The bread fruit trees were cut down in many places. The foreigners were not injured. The crew of the Porpoise is guarding the mission as a refuge for Malitoa. The three consuls have signed a proclamation, recognizing the Mataafa's party provisional government, pending instructions from the powers, with President Rafael as executive head. On the 6th inst, Rafael proclaimed the supreme court and took possession, declaring himself chief justice. He asked Mataafa for 500 men and was refused. The British and American consuls united in a strong protest against the action of the posident of the municipal council. On the 7th Capt. Sturdee, of the Porpoise, and the two consuls declared the action illegal. The Porpoise cleared for action and landed a force of marines. Her force was unopposed and took possession of the court. Chief Justice Chambers was reinstated and the British and American flags hoisted over Chief Justice Chambers' house and the court house. The provincial government wrote to Capt. Sturdee on the 12th that he would seize Malietoa and take Tamesese off on the Porpoise by force. if necessary, deprive them of their titles and banish them. Chambers is living on the Porpoise. The British and American consuls have protested against any infringement of the Berlin treaty. British residents have taken refuge in their consulate, and the Am-

erican residents have taken refuge in the mission. London, Jan. 19.-The Times, commenting on the troubles in Samoa, says that the only satisfactory feature appears to have been the cordial co-operation of the British and American au-

MORE BRITISH WARSHIPS SENT. Wellington, N. Z., Jan. 19.-It is reported here that owing to the trouble at Samoa, growing out of the election of a successor to the late King Malietoa, three British warships will pro-ceed there, and that one American warship will start for the islands from Honolulu.

THRILLING **EXPERIENCES**

Of "Those Who Go Down to the Sea in Ships."

A Steamer Short of Fuel Has to Burn Sugar-Everything Swept From the Deck-The Lake Huron, With the Doukhobors on Board Overdue.

Halifax, N. S., Jan. 18.-The steamer Grangewood, which dropped anchor in Halifax harbor this evening, brought into port the most thrilling tale of ocean experience told here since the present tempestuous winter season opened. The Grangewood was out from Hamburg 32 days, bound to Philadelphia, with a cargo of sugar. Her hardships began the week after she started on her voyage. Christmas day a gale descended, which moderated somewhat in the afternoon; but on the following day it became a hurricane, which lasted until the 27th, and the ship labored heavily in the high-rolling sea, shipping immense quantities of water. On the 28th the storm subsided into an ordinary one; then, with night, once more increased to a hurricane, with a rearful sea, which swept over the vessel from all sides, flooding the cabin, forecastle and chart room. At 3 p.m. a tremendous sea tore away the starboard lifeboat and deposited it on the engine room skylight.

SWEPT BY HUGE WAVES. Cabin and mess room funnels, boat skids, accommodation and poop lad-ders and a quantity or deck fittings were swept into the sea by the torrent of water rushing over the ship's deck. At 4 p.m. the next day, with the storm still raging furiously, the port side of the bridge was wrecked, and the forewere 44 deaths during the voyage. castle had started leaking. For sev-One of the principal chiefs of the eral days stormy weather continued

and the ship's belongings were more or less damaged. On the 11th January the engineers reported the coal supply dangerously low. To make it last as long as possible the crew set to work sawing up the 'tween decks and bulkhead for ruel, and all the empty casks and boxes in the storerooms were cast

into the furnaces.

SUGAR FOR FUEL. On the 12th the stoke hole bulkheads were burned and six bags of sugar were thrown in as fuel. On the 13th the shifting boards were used as fuel. The gram from Auckland, N. Z., under stormy weather showed little abatedate of Jan. 15, says: When the ment, the only variation being from gales to hurricanes and back to gales. The cabin funnel was torn off, and the out on the Samoan Islands, and was More shifting boards and more sugar forecastle stoves smashed to pieces. had to be used to help keep the machinery in motion until Tuesday morning Cape La Have was sighted and the American fishing schooner Bertha D. was hailed to pilot the almost helpless steamer to a safe anchorage. There the worn-out and exhausted crew were given a rest until today, when the Grangewood headed for Halifax. She will proceed for her destination to-

morrow. THE LAKE HURON DELAYED. The steamer Lake Huron, which is bringing the Doukhobors, is now out 27 days from Batoum, and her arrival is expected shortly. The steamer is reported to have passed Gibraltar on the 4th inst. It is possible she may have encountered the bad weather reported by other steamers, and if so may not reach this port before the end of the week. The Huron is a staunch boat and a splendid sea vessel, and her overdue arrival is not causing any un-

easiness here.

IN DISTRESS. The steamer Manhauset, from Swansea, bound to Baltimore, put in here yesterday badly strained, and with her engines disabled, water in the forepeak,

and her coal supply exhausted. THE ALESIA SAFE IN PORT. Queenstown, Jan. 19.—The Hamburg-American Line steamer Alesia, which left Hamburg on Dec. 27 for Boston, Mass., and which signaled Kinsale yesterday that her rudder was damaged, and that her machinery was working very badly, has reached this

port in safety. ABANDONED TO THE WAVES

Loss of the British Steamer Glendower

-Her Crew Rescued. New York, Jan. 19 .- The Atlantic Transport Line steamer Menominee, Capt. Bocquet, which arrived this morning from London, brought safely to port Capt. Honeyman and 22 members of the crew of the British tramp steamer Glendower, wnich was abandoned at sea in a sinking condition, on Jan. 12, in latitude 49.23, longitude 35.37, while on the voyage from Philadelphia for Sligo with a cargo of

The Glendower left Philadelphia Dec. 27, clearing the capes of the Delaware on the 28th. Soon afterwards she experienced bad weather. The wind coming from the west and shifting to northwest with a very heavy sea on Jan. 2, the storm increased and blew with great fury, causing enormous seas to board the vessel. Peter West, able seaman, was washed overboard and

On the 7th an enormous wave broke over her, washing everything before it, causing the steamer to dip her stern and fill rapidly. Every effort was made by the crew to clear the vessel, but without success. The pumps became choked with cargo. Fortunately on Jan. 12, the Atlantic Transport Line steamer Menominee hove in sight bore down, launched her boats, and safely rescued the entire crew.
