TIME MUDDLE JUST AS BAD AS BEFORE

City Offices Will Continue On Saving Plan.

SCHOOLS NOT CERTAIN

But Board Members See No Necessity For Changing Again.

London is still in a muddle as regards the time. The nearest the city council came to clearing up the situation last night was to resolve that standard time from the date of the quashing of the daylight saving bill was and is the daylight saving time, "and evermore shall be" was not added to the resolution. At any rate, the situation remains as it was, even more so if one might judge from outward signs.

Bylaw Ready. A bylaw has been prepared ready to present to the council to set the hour of the day for all public bodies one hour in advance of standard time. This was not brought up, and the council and committee members will meet on Monday standard time, unless some change is made in the procedure bylaw. City hall employees will continue under the daylight saving bylaw.

Board Not Decided. Chairman J. S. Barnard of the board of education would not say what he thought the board would do in view of the situation. As far as can be learned there is but little opposition among the members of the board to the standard time, but the board will not get up in time to reach school at 9 o'clock, unless they wish a heart-to-heart talk with the teacher on the sin of being late. The general opinion among the members of the board is that no notice need be paid to the ultimatum which was served on the board in connection with the quashing of the bylaw. The regular meeting will be held tomorrow afternoon, when this question will be discussed.

Thesophy Tells of the Paths Which Lead to God. Second in Series of Lectures by F. G. Hanchett of Los Angeles.

"Thesophy explains the narrow path," so said Francis G. Hanchett of Los Angeles, divisional lecturer for the Theosophical Society, in his second lecture of a series to a large audience on Monday evening in the society's hall, speaking on "The Middle Path."

"The path is a poetical figure of speech, describing the evolution of the soul or the expansion of consciousness. Tolerance sees many paths upward. All paths lead to God."

Thesophy is a path of different paths. The path of forthgoing of the spirit, in matter, and then the path of return to God. It speaks also of three different paths taken by people according to their temperaments. The path of knowledge, the path of devotion and the path of action.

"It teaches the ancient path by which man ascends, along a steep and rugged trail, from the lowly vale of ignorance and sorrow to the lofty peaks of wisdom and love."

"These perfect men who have trod this narrow and rocky path to its goal are called the masters of wisdom and love. They have mastered life and all the lessons it teaches."

The cultivation of moderation and equilibrium is one of the surest ways to the promotion of the growth of the soul. One wishing to take the path to peace should hold aloof from extremes.

"The path of progress taught by theosophy are given most definitely the qualifications which must be unfolded the character if one wishes to unfold the gem of divinity within him."

"The qualifications which must be developed on the probationary path, which leads to illumination are: Discrimination between the real and the unreal; desirelessness and indifference to external things; good conduct, or the six jewels of the moral life; self-control of thought, emotion and action; tolerance, cheerful endurance of the hardships of life, equilibrium and faith and self-confidence. When all of these virtues are attained, the fourth qualification, universal love, naturally follows, and then as naturally comes illumination, attainment or initiation."

These perfect men who have trod this narrow and rocky path to its goal are called the masters of wisdom and love. They have mastered life and all the lessons it teaches.

QUERIES REGARDING MILITARY SERVICE

Address Your Problems to the Military Editor of The Advertiser and They Will Be Answered From Official Information.

CURIOUS. Q.—I enlisted in March, 1918, and returned to Canada in December, 1918. I was discharged from the service on January 18, 1919. Am I entitled to married men's rate of war service gratuity?

A.—If so, to whom should I apply for same?

A.—The military authorities gave me a discharge as an unmarried man, and to date I have been receiving single men's rate of war service gratuity. On date of discharge I was receiving married men's rate of war service gratuity five cents per day.

A.—If your wife was in receipt of separation allowance at time of your discharge it should be included in war service gratuity. However, from above facts it is presumed that you did not obtain permission to get married from your commanding officer, and as you were discharged as a single man you will receive gratuity at the rate of \$70 per month only.

A.—No. War service gratuity is payable, according to rank held at discharge with a minimum rate of \$70 for single men. As your wife has been a married man does not equal \$70 per month, you will receive the minimum rate which is payable also to those holding rank of sergeant, the monthly pay of this rank being less than the minimum rate fixed.

LIEUTENANT. Q.—What is the amount of war service gratuity due a lieutenant who is married, and who has served overseas for more than three years?

A.—If he has served in an "actual theatre of the war," such as the Western Front, or in the service on November 11, 1918, he is entitled to \$40 which is payable in five monthly payments of \$8, and a sixth monthly payment of \$39. In addition to the above gratuity if his wife was in receipt of separation allowance during his service she will receive \$240, being payable as separation allowance at rate of \$40 per month for six months. Total gratuity payable is \$720, which \$240 is made payable to his wife.

W. R. T. Q.—My husband enlisted for the Mechanical Transport in London in January, 1916. He proceeded overseas immediately and was placed in the imperial transport. Is the Canadian Government making up the difference in the gratuity given by the imperial Government?

A.—If he enlisted in the imperial army recruiting in Canada he is not entitled to any Canadian war service gratuity. However, if he enlisted in the mechanical transport of the Canadian army, and upon his arrival overseas was transferred to the imperial army, the difference in the war service gratuity will be made up from Canadian funds.

2. Application forms may be obtained by writing to the Paymaster, War Service Gratuity, Wesley Barracks, London, Ont., which must be filled in and returned to that department for certification, after which funds payable will be forwarded to applicant.

L. C. A. Q.—I was discharged from the Canadian army at Ottawa, on February 19, 1919, after serving in France for two years. I did not receive a war service badge at time of discharge, as I was not in time application for same had to be made to the officer in charge of the War Service Badges, at Kingston. I put in my application, but did not receive any button or reply to my application. Can you tell me how to obtain a button?

A.—It would be advisable for you to write to the D. A. & Q. M. G. Military District No. 3, Kingston, Ont., advising full particulars of your case such as full name, rank, regimental number, period of service, date of discharge, date of forwarding application, and you will likely be forwarded a war service badge in the near future. If this does not come, you should write to the D. A. & Q. M. G. Military District No. 3, Kingston, Ont., stating the same particulars, and a new application for a war service badge will likely be made in your favor.

ARDENT READER. Q.—Why are the military authorities discharging all category A2 men, and retaining the services of those in lower categories, such as C, now that the war is over, and we need our liberty to recover our good health?

A.—The military authorities have announced that those men whose services can be dispensed with are being discharged regardless of category. Soldiers in lower categories who cannot obtain their release are usually men specially qualified to act as clerks, stenographers, orderlies, etc., and are also trained men used for guard and picket duty. The A category men who are discharged are not men of honor, but are men who have served overseas and are discharged on return if it is only that they be released as soon as possible owing to the arduous campaigning which they have experienced.

RETURNED. Q.—I enlisted January 31, 1916; left Canada on August 18, and returned on February 21, 1919. I was discharged on May 23, 1918. I was returned to Canada owing to sickness caused by service in England. Am I entitled to any gratuity?

A.—If so, where should I apply for same?

A.—No. Since you were not in the service on November 11, 1918, and did not serve in the actual theatre of the war, such as France or Belgium, according to the regulations governing same, you are entitled to three months' post-discharge pay under the regulations which are required to answer satisfactorily certain questions, and satisfy the authorities as to their financial condition before being permitted to cross the border. There are no papers necessary for your discharge paper may facilitate matters. To obtain information as to what wire connections are required, the immigration authorities, write or interview John Riggs, Dominion Immigration Inspector, Carling Block, Richmond street, London, Ontario.

BURGULAR RANSACKS. POLICE CHIEF'S HOME

Another Nursing Division Authorized For the City

Will be Organized by Mrs. Swindall, Former Lady Superintendent.

Mrs. E. K. Swindall, former lady superintendent of No. 4 Nursing Division, John Ambulance Association, has been authorized to organize another nursing division in this city, which will make the third.

Several applications have already been received, and as soon as a few vacancies which still remain in the enrollment are filled, the work of organization will be completed.

It is proposed to locate the headquarters of the Hamilton road, within the southeast end of the city, who, it is expected, will constitute in a large measure the membership.

First Aid Class. A first aid class was started the end of last week in Chelsea Green Presbyterian Church with an enrollment of twenty. Mrs. Swindall is giving the demonstrations, Dr. J. E. Kidd the lectures, and Miss Nellie Barr acting as secretary. The classes will be continued each Thursday evening during the course and will be immediately followed up by classes in home nursing.

Recognition of Services. Mrs. J. F. Thomson, president of the John Ambulance Association, has been authorized to organize a new division is a recognition of her past services in the city. Mrs. Swindall, whose telephone number is 5357, will be glad to hear from any nurse who has been in the home nursing course who would like to identify themselves with the new division.

SEVENTY NEW MEMBERS FOR THE BAKERS' UNION

Seventy new members were initiated into the Bakers' Union at a well-attended meeting in the K. of L. Hall on Saturday evening. Organizer Walsh of the International Union of the Metal Polishers gave some valuable information. George Jackson of the trades and labor council and J. Maudsley of the Metal Polishers' Union were also present, and delivered addresses of encouragement. The local union has more than 100 members, and the labor men anticipate a successful organization. George Webb, returned, gave several recitations at the meeting on Saturday night.

Next Saturday evening a meeting will be held to organize the candy makers' union. Next Saturday evening a meeting will be held to organize the candy makers' union. Next Saturday evening a meeting will be held to organize the candy makers' union.

SOCIAL EVENING

Club Enjoyed Concert and Dance Immensely.

A very enjoyable evening was spent by the members of the Somerset Paper Box and O-Pee-Chee Gum Co. Social Club in their club rooms. Large numbers were present and were very delightedly entertained.

At the close of the concert refreshments were served by the members of the club. The evening was very enjoyable and was followed by a social dance. Much amusement was caused by the witty and clever dancing. The local union has more than 100 members, and the labor men anticipate a successful organization. George Webb, returned, gave several recitations at the meeting on Saturday night.

VOICE OF THE PEOPLE

COMMENTS ADVERTISER'S STAND. To the Editor of The Advertiser: We have been reading your editorial on shaking your editorial pen. It is not absolutely necessary that you extend the hand in which you carry the key to your cellar, for we have neither the time nor the inclination to be addressing you. What we started out to say was that we fully appreciate your efforts, which we have not flat-footed and announce that no one can write letters to the editor of The Advertiser unless they sign their names. "Hancock" at the bottom of the letter for publication.

That is a sure step in the right direction, for we have often noticed where an individual has been discussing a matter of public interest through your columns and some of the editors have been quick to pick them up and publish them. We feel sure that with personal abuse over a fictitious name, such conduct is equivalent to asking the referee of a fight to blindfold their opponent before they stepped into the ring to administer a good thrashing. We have also noticed instances wherein both parties used fictitious names. Their efforts may have been taken seriously by themselves, but the general public have received more amusement than education from them.

As we have read them it reminded us of an incident "over there," in which one of the boys in our unit, told a comrade that he could lick him blindfolded. The other fellow, not to be outdone, offered to put up a scrap on the same terms. Such an opportunity was not to be missed by the other members of the battalion, and an impromptu ring was soon formed. After the first rush, in which the boys found themselves a couple of dozen paces apart, each facing a different direction, the sense of humor overcame their transient anger, and they joined in a general laugh.

You are absolutely correct in asserting that a majority of the citizens demand to prevent the publication of their own decision in demanding the signature of all writers who request the free use of the columns of The Advertiser in discussing public problems and be of greater benefit to all the citizens of the home town vicinity. Your for a square deal.

DAYLIGHT SAVING AFFECTS THE FARMER. To the Editor of The Advertiser: The tiller of the soil, who rises at 5 o'clock new time, spends 1½ hours with a lantern doing chores, is called to breakfast at 6:30, has a premature dinner, then in the afternoon quits at 6, the sun being then not far from the zenith, when he is called for supper. His meals are eaten as follows: Breakfast, 5; dinner 10:30; supper, 4:30, sun time. A good stomach should rebel. Man down here is dissatisfied with God's own sun time, and is muddling things by changing it.

The "daylight" time for July and August is out of the question. Often in harvest time the morning dew hangs on till 10 or 11 o'clock before he can get up and haul his grain or hay, so either he must not move headway in the morning, or he must change his time in the forenoon.

It thoroughly renovates the blood, adds red corpuscles, creates an appetite, tones the stomach, aids digestion, perfects assimilation, secures 100 per cent benefit of the food you eat. Hood's Sarsaparilla represents the wisdom of one of the best physicians Boston ever lived, combined with the experience of a pharmacist who has been putting up prescriptions for more than 50 years.
