Following are the shipments from the Cobalt Camp, for the week ending Aug.

World Office,
Friday Evening, Aug. 27.

Dulness was the only feature of the local mining markets to-day. Trading was even more limited than during the last few days and a continuation of the easy tone exhibited of late was apparent aimost thruout the whole list. Outside Interest was generally lacking and cide interest was generally lacking and following the weakness on the larger exchanges, a decline was only natural. Standard Stock and Mining Exchange.

As in yesterday's market trading was oncentrated on Rochester. The recent ors in connection with this stock, lacking official confirmation, the tacking official confirmation, are having their effect on the shares. Manipulation was very pronounced today, but quotations remained about steady, closing at 14 bid. The latest rumor in connection with the mine is that the directors contemplate issuing share, in order to carry on future de-velopment work. Meanwhile it is reported that the mine will be shut down owing to lack of funds. While these rumors in themselves would account for the depreciation in value, it is unrumors in themselves would account for the depreciation in value, it is understood that a bear clique is putting cons/derable pressure on the shares, to bring about future liquidation at the prevailing low prices...

The other Cobalts were generally Other ulet, and price changes were narrow. 36 and closed a point higher. Otisse continued on the easy side, selling ontinued on the easy side, selling silver Leaf silver Leaf silver Bar was lower around 58. Ophir remain- Silver Queen

at firm with sales up to 170.

In the higher priced issues La Rose was the only stock dealt in to any extent, prices for these shares remaining firm around \$8.00.
