NORTH TORONTO.

They Look Now to the North for Better Water Supply.

NORTH TORONTO, March 7.—(Special).—There is a well-defined movement thru the town to aid in every way the application of the Artesian Wells Company in their effort to tap the northern sources of supply up in Whitchurch. While the fact remains that the work carried on under public ownership would have been more acceptable to the people of the town. North Toronto wants more good water and wants it badly.

The town is growing rapidly and has only entered upon a great expansion which will enormously increase the assessment and population, and that even under the handicap of the lack of a sewage system. It is imperative that some other source of supply be secured than that of the local springs and the artesian wells
