IF YOU QUALIFY

At \$1.75
Are Men's Neglige Shirts

That offer more than ordinary value because of the fact that they were bought months ago. Materials consist of fine, closely-woven cambrics, percales and zephyrs that last long and stand up under many washings. The assortment of patterns is a most extensive one, embracing single, cluster and fancy stripes of blue, black, mauve, green and brown, in one or two-tone effects. The shirts are specially well made, having roomy bodies and sleeves. All have soft double cuffs. Sizes 14 to 17. Each, \$1.75.

See Also the Assortment of Neckwear at \$1.00

There is, of course, an extensive variety, but most of them are in pleasing figured designs, on plain grounds of blue, green, purple, brown and grey. They are made of silk and cotton materials, in wide, four-in-hand style. Each, \$1.00.

Main Floor, Centre.

Store Opens at 8.30 a.m.--Closes at 5 p.m.
Closing Saturdays at 1 p.m.

T. EATON CO. LIMITED

INSURANCE MEN BREATHE FREELY

T. Eaton Company Decide to
Continue Insuring With
Outside Firms.

Insurance companies and insurance agents who make a living "on commission," may breathe freely today and put the demon gloom in the coal box, for The World is able to announce that the T. Eaton Company are not going into the insurance business, and will continue to insure "outside" just as they have done in the past. A paragraph in The World yesterday caused a flutter in local financial circles. It was announced that application had been made to parliament by the T. Eaton Company for the incorporation of the "General Insurance Company," with headquarters in Toronto and power to carry on sickness, accident, guarantee, burglary, inland transportation, plate glass, automobile, sprinkler leakage, fire and steamboat insurance. An additional application under the same name, the T. Eaton "Life Insurance Company," is also made, and power is asked to make contracts of life insurance, to grant or purchase life annuities and endowments, and carry on the business of life insurance in all its branches.

There is little wonder that financial and insurance circles became agitated over this announcement, as the T. Eaton insurance through the whole Dominion is a business within itself, and the premiums amount to a sum that no insurance company would care to lose. The World yesterday saw J. J. Vaughan of the executive of the T. Eaton Company. Mr. Vaughan attends to the insurance business of the firm, and he told The World that the reason for the application to parliament for insurance by the Eaton company was explained by the fact that the firm had a life insurance scheme for the benefit of their employees. It was necessary to obtain legal sanction to conduct the scheme on a commercial basis, and whilst applying for that authority the company thought they might just as well obtain all the insurance powers they could at one bite of the cherry. Alas, the firm had no intention now or in the immediate future of entering the insurance business, it was deemed expedient to obtain such authority, as if the firm ever contemplated doing their own insurance, they would possess the power to do so. Mr. Vaughan

affirmed the statement that the T. Eaton Company would continue to insure as hitherto on the "outside," and would not adopt a scheme for self-insurance, except, of course, the one now in operation for the benefit of their employees.

WINDSOR RADIALS

Associated Street Car Lines to Be
Taken Over April 1 Owing to
Delay By Printers.

The World was informed yesterday that owing to the delay of the printers in getting the bonds of the Hydro-Electric Radial Commission ready for signature before the end of February, the Detroit United and the officers of the Hydro-Electric Radial Commission have agreed to make the delivery of the railways and the bonds in discharge of the same on the last day of March. Until then management of the roads will continue under the Detroit United. In the meantime arrangements are being completed for taking over the street car lines and all equipment and property by the Ontario Electric radials at the end of March. The public had expected that the transfer would be made at the end of February; but the only thing in the way is the printing and signing of the bonds and these will not be ready until sometime early in March. Both parties are anxious that the transfer take place at the end of the month when the accounts close, and the two sides have decided that the end of March will suit everyone and make a clean-up deal of the transaction.

PRICE OF TEA ADVANCES.

The price of tea is advancing slowly, but local retail prices will not be immediately affected. Owing to the advanced rate of exchange, tea buyers are paying more for supplies, but the new higher-priced stock has not come into the local market yet. There has been a surplus of tea in England for some time, but this stock is now disappearing. Importers report an advance of 8 cents a pound in the last three weeks.

Coffee is also on the upgrade, owing chiefly to frosts, lack of shipping and labor conditions. The advance has been about 20 cents a cwt. in the last month in London.

GERMAN LEAVES \$73,625.

The Toronto General Trusts Corporation has applied for administration of the estate of August Friedrich Emil Gunther of Hamburg, Germany, who died testate in Hamburg in 1918, leaving Ontario estate of nearly \$70,000. A nephew and two sisters of the deceased will receive one-quarter share each, the balance being divisible in equal portions amongst the children of a deceased brother.

STALLING REPLIES BRING CRITICISM

Fear Alliance Putting Screws
on Raney at Vital
Hour.

In U. F. O. and other political circles yesterday a great deal of critical comment was heard concerning the stalling replies of Premier Drury and Attorney-General Raney to the Dominion Alliance deputation on Thursday. There is a strong public conviction that the objective of the deputation is kept as much as possible out of view. One leading U.F.O. said it looked as if Ontario is to adopt the scrapped "Cracker" legislation of Florida and Carolina. "The premier and the attorney-general," he said, "are unsatisfactory when they tell Rev. Ben Spence that the objections to his demand are of a legal sort only. Mr. Raney knows that the province has the right to do wrong and that legal difficulties in the way of any demand can be brushed aside. The premier knows, because he has been told, that the Dominion Alliance is stampeding Raney into recognition of these demands, which are put forward publicly at this moment under pressure of his election in a strong prohibition riding. They are putting the screws upon Raney and he has not the courage to say 'Stand off.'"

Colonel John Z. Fraser, the most prominent of the original U.F.O. executive, made the following statement to The World: "With regard to the extreme demands, which, according to the press, the Dominion Alliance have made upon Premier Drury and Attorney-General Raney, I merely wish to say once and for all that the U.F.O. was not organized in Canada to adopt or bring up any of the children of fanaticism; and I believe that as long as the U.F.O. continues to have an influence in the politics of Ontario it will frown upon all faratical divisions of our people."

MOUNT PLEASANT LINE.

A meeting of the Executive Committee of the Mount Pleasant Ratepayers' Association was held last night. In view of the fact that no tenders had been received for the construction of the extension of the St. Clair avenue car line to and up Mount Pleasant road, a resolution was passed requesting the city council to construct the line by day labor, as is to be done with the Bloor street extension. It was also decided to oppose any change in the bylaw governing the building line on Mount Pleasant road as originally passed by the council of the town of North Toronto.

GIVE TWO STORIES

Did Married Man Give Plaintiff a
Wedding Ring or Didn't
He?

Further evidence was adduced in the action by Mrs. Ada Dima Donn against Harry Rottenburg for the recovery of \$850, before Mr. Justice Rose yesterday. The plaintiff gave evidence that she had handed the money to the defendant, who said he would keep it until they were married three days later. He bought her a wedding ring which cost \$12. After she found out that defendant was a married man with children she signed a release of all claims against her because she liked

defendant, "and he was to have been my husband."

The defendant denied that he promised to marry plaintiff and denied purchasing a wedding ring. He admitted that he had given information to the police that the plaintiff had a large quantity of whiskey in her house, and that he accompanied the detectives to her house when only one bottle of alcohol was found. The hearing was adjourned.

JEWELRY JOBBER FINED.

Judge Coatsworth yesterday fined Jacob Rothman, a jewelry jobber, from Montreal \$200 or two months for issuing a cheque for \$3,273.03, when sufficient funds were not in the bank to meet it.

BUSY WEEK FOR RANEY.

Mr. Drury's attorney-general, Hon. W. E. Raney, will not father much moss next week—he is going to be real busy amongst those he is trusting to find him a seat in the legislature. He has arranged meetings in Kenilworth on Tuesday, Arthur on Wednesday, Erin on Thursday, and Hillsburg on Friday. To assist him at the meetings he will have R. H. Halbert, M.P.; Mrs. G. A. Brodie, president of the U.F.W.; R. W. E. Burnaby, president U.F.O.; A. A. Powers, Kari Homuth, M.L.A., Harold Currie of Strathroy, who led in the agitation against Mr. Raney's appointment of the woman registrar for Middlesex.

NO MISREPRESENTATION.

The action by T. W. Fallon and J. T. Mott against Frank Barton, Limited, for repayment of \$504 paid on account of the purchase price of a used car, which the plaintiffs alleged was not up to representation, was dismissed yesterday by Judge Widdifield.

HYDRO MUST PAY.

The appellate division yesterday held that the Hydro Commission is a person within the meaning of section 10 of the assessment act, and is therefore liable for the business tax to be calculated on the value of the land only, not on the offices, occupied by the commission in Hamilton.

Appeal to the Public!

Telephone operators have not escaped in the prevailing epidemic, the result being a very high percentage of absentees in all our eleven city exchanges.

Numbers of citizens, kept at home through illness, are using the telephone more than under normal conditions. As a result the calling rate is very heavy.

There are, of course, necessary telephone calls that must be made. But may we ask that, until the situation clears, all telephone users assist us by making only necessary calls.
