

THE ST. JOHN EVENING TIMES, SATURDAY, OCTOBER 29, 1904.

ACADIA AND ST. JOHN PLAYED A GOOD GAME.

**St. John Won Out in a Fine Exhibition of
Gentlemanly, Sportsmanlike Football
---About Great Batters---Another In-
stallment of Rugby Rules.**

The game between all St. John and Acadia college scheduled to start at 4 o'clock yesterday afternoon did not commence till 4:15, when Acadia, having won the toss, decided to defend the grand-stand and Marshall kicked off for the home team before a goodly crowd of spectators, who had the pleasure of witnessing quite the best display of Rugby football seen in St. John this season. Both packs of forwards were evenly matched, the visiting pack settling down to real hard work first, and heeling the ball on well to their outside. These started the first of many good passing bouts seen during the afternoon's play. The ground was somewhat greasy owing to the frost of the previous night, and this seemed to trouble some of the players at first, but having accustomed themselves to the conditions of the turf, some exceedingly pretty play was witnessed on both sides. Thompson opened the scoring for the home team, with a very neat "try," after the ball had come away well from the scrum, and had been handled by both the quarters, and the whole line of halves. Although the place kick was an easy one, this was all the scoring up to half time the home team led at the interval by 3 points to all.

On the resumption of play Acadia kicked off, but were ordered back for a scrum on the half way line, one of their forwards being in front of the ball when it was kicked off. A series of scrummages now followed, when one of the Acadia forwards picked up the ball out of the scrumage for for which St. John were given a free kick. White, who was playing full-back for St. John, took the kick, and dropped a beautiful goal, thus placing his side 3 points further ahead. Acadia then rushed matters for a few minutes, but the home forwards heeling well, enabled their outside to again get going, which gave Burpee an opportunity to get in again for the home team, after a good run down the touch line, and although he placed the ball down quite near the uprights, Thompson again failed to convert.

This third reverse had the effect of putting Acadia on their mettle, and after quite a series of good hard rushes by their forwards, from a scrum near the home line, they managed to scramble over the line, for out, with a couple of St. John men on top of him, and this drew first blood for his side. The place kick was unsuccessful, so St. John still had a lead of 6 points. From

now to the call of "no-side," the play became very fast, both sides bent on scoring again, but as neither side were successful, time was called, leaving St. John victors of a well-fought game by the useful margin of 6 points. Final score being, St. John 1 penalty goal (3 points), 2 tries. Total 9 points; Acadia 1 try, (3 points). Of the home team, Malcolm was far and away the best forward on the ground, his strong running, and heavy weight, proving a great thorn in his opponents' side. Both the quarters played a good game, especially Marshall, whose following up, and tackling, were brilliant at times and ably assisted as he was by Coll, they were big factors in the home teams victory. Fairweather and Thompson in the half-back line made a strong combination, while Burpee did well, what little he had to do, his centre half failing to feed him. White as full-back showed great kicking powers, and helped his side greatly with his long drops and punts. In the tackling department, he was not much called upon.

Much praise must be given to the St. John forwards, who every one of them, played a really sterling game, none shirking the scrums, and all heeling out well, Vince being most conspicuous at this. To pick out any one of them as being better than the other on the afternoon's play (with Malcolm's exception), would be unfair.

As a team, Acadia, as a fine lot of men, all thorough sportsmen, and game to the finish, and the fact of their being beaten by the all St. John team is no disgrace to them, as without doubt, the better side won, and all due praise to the visitors for the excellent fight they put up, and the good clean game they provided for the St. John spectators. May many more such teams visit St. John, was the unanimous wish of all those present.

The Turf.
The handsome young stallion, Lord Roberts, purchased last spring by Mayor J. M. Johnson has arrived here and is being greatly admired by the horsemen. He is by Arion 074, dam Nancy Hanks 204. He was purchased by his present owner for \$4000 at the Travick-Kenny sale. P. C. Murchie of Milltown, N. B., has disposed of his fast pacer Kingfisher, 2:17 1/2, to Adam Skene, the well-known Bangor driver. Kingfisher was bred in old Kentucky and brought north by T. H. Blair of Presque Isle who afterwards sold him to P. C. Murchie. Kingfisher has gone a half mile to one minute, one

HALF SICK PEOPLE

Just sick enough to feel heavy-headed, lay and listless to have no appetite, to sleep badly, to feel nervous and restless, to feel that something is wrong, but just sick enough to not know what to do. Ninety-nine times out of one hundred these symptoms are all caused by the stomach, bowels, liver and digestive organs. Just think for a moment what habitual neglect of the stomach, bowels and liver means, sickness instead of health, nervous and wasteful instead of useful and cheerful. Now all this can be remedied in one night. Smith's Phenolphthalein and Bismuth Pills. They will give you the appetite of youth, your food will agree with you and you will feel like a new man.

SMITH'S BUCHU LITHIA PILLS
A POSITIVE CURE FOR CONSTIPATION AND ALL FORMS OF BILIOUSNESS AND ALL FORMS OF ACIDITY. A CURE AT THE PEOPLE'S PRICE.

percentage of .375 for the season and a comfortable lead over Willis Kiehl, who is second to Larry with .355 per cent. President Pulliam figures place Wagner at the head of the National's batters with .349.

Despite the handicaps against the batters, Larry has a better percentage of home hits than he had in any season since 1901, when he led the National League with .422 per cent. In that year Larry made the great record of being the first major leaguer to go through an entire season with a batting average of 400 or better. Lajoie's percentages since he has been in last company follow: 1904, .328; 1902, .309; 1903, .355; 1904, .375. Grand average for nine years .381 per cent.

The figures show hardly any difference between Anson and Lajoie. Lajoie and Wagner are much alike in many respects. Both are free-hand hitters, impatient while at the bat, and willing to hit anything within reach. Each can pick a ball from off his shoe tops or from behind his ears and smash it out for two bases.

When Lajoie was playing with the Fall River team and was secured by the Philadelphia club in 1898, the question was asked him, "Which ball is the hardest for you to hit?" Larry's reply was "The one I can't reach." The same answer would do for Wagner if he were asked the question. Truly, all pitchers look alike to Larry and Hans.

Never in the history of the National and American leagues have there been so few batters to finish in the select .300 class as landed there this year. President Pulliam's figures show that nine National leaguers batted over 300 per cent. Unofficial figures place six American leaguers at 400 or better.

The magnates realize that the fans like to see hitting, and for that reason they are figuring on legislation next winter that will decrease the pitcher's effectiveness and help the batters more. The spit ball annoys the batters more, so they say, than does the foul strike rule. Still, competent managers, like John McGraw, for instance, claim that the foul strike rule gives the pitchers entirely too much advantage. As an instance of the batting decline, the New York club won the championship without a regular player in the 300 class.

Finally, it is the duty of the visiting team to see that the ground complies with Law 1, as to size, and is

properly marked, that the dead-ball line is distinct, &c. If they fail to see these points before the game begins, no appeal can afterwards be entertained in relation thereto.

Glossary.
A Rebound is not a knock-on, and therefore no fair-catch can be made therefrom, or penalty given. This is important, as some referees appear to regard a rebound as a knock-on. A Fair-Catch can only be claimed by the catcher making his mark after he has caught the ball; the mark, however, must be made as soon as possible, and in practice, the referees might allow a claim when the mark was simultaneously made with the catching. A fair-catch can be made in a player's in-goal.

If a player goes beyond the 25 yards to Drop-Out, or if he punts the reform, must blow his whistle and order the player to take a new kick, which must be a drop within the 25 yards' limit.

All grounds should be properly marked out, including the half way, 25 yards, touch, goal and dead-ball lines (unless other boundaries form these later), in which case flags at the half-way and 25 yards' lines are necessary; if they be used, they should be set well back from the touch-lines. Corner flags should be placed, and should be at the junction of the touch and goal-lines. If a player holding the ball touch one of these, the ball must be considered as in touch-in-goal, a player may himself be in touch-in-goal and yet play the ball with his foot, if the ball be not touch-in-goal, or he may touch it down with his hand.

Referee Whistling.
No paper is given to a Referee to whistle simply because a player is tackled with the ball, and this is one of the most important points to which the Board wish to direct the attention of players and referees, as the present habit of whistling the moment a man is tackled is simply spoiling the game by slowing it down and taking away any advantage a side of quick followers would otherwise gain. When a player with the ball is tackled and fairly held, a referee may only blow his whistle for one of the following cases:--

(1) Law 11 (b) When such player does not at once fairly put the ball down.
(2) Law 12 (c) When such player is on the ground and he does not at once fairly put the ball, and either get up or roll away from the ball.
(3) Law 3 (e) When the referee considers that the continuation of play would be dangerous.

ordering on a scrumage on the plus of danger, as by so doing he deprives one side of an advantage and does not inflict a penalty on the other, both of which are desired.

(To be continued.)

THE VALUE OF CHARCOAL.

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables. Charcoal effectually clears and improves the complexion, whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of croup, diphtheria and other diseases.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest powdered Willamette, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat. I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some cases a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

Concerning Miss Baillie's Recital.
Extract from commendatory letter from school of which Miss Baillie is a graduate:
"Especially is Miss Baillie a favorite in her original monologues and sketches. Her delineation of various characters is excellent, and she not only produces comical effects with extraordinary skill, but gives fine bits of coloring to her more serious numbers. Her monologue 'Darkness is a gem.' Emma, was a Gypsy. Principal Greely School of Elocution and Dramatic Art."

Special features of interest will be added to the Evening Times as the work of organization is further advanced.

BIG REDUCTION SALE

Ready-to-Wear Coats and Costumes.

Seasonable Clothing for Ladies and Misses forms the basis of an Important Sale which started today in our Showroom, Second Floor.

The Special Offerings for this sale comprise some of the best ever put forth at the prices quoted.

LADIES' COATS.

Sizes 32 to 42 Inch Bust Measure.

Special Sale Prices, \$4.00, 6.00, 7.50, 8.00, 10.00, 12.50 and 15.00.

MISSSES' COATS.

For Ages 8 to 18 Years.

Special Sale Prices, \$5.00 to 8.00.

CHILDREN'S REEFERS.

For Ages 4 to 12 years.

Special Sale Prices, \$3.50 to 5.50.

LADIES' COSTUMES.

Sizes 32 to 42 Inch Bust Measure.

Special Sale Prices, \$6.50, 7.50, 10.00 and up to 30.00.

MISSSES' COSTUMES.

For Ages 14 to 18 Years.

Special Sale Prices, \$6.50 to 10.00.

LADIES' SEPARATE SKIRTS.

Special Sale Prices, \$1.50, 2.25, 2.75, 3.75, 4.50 and 5.00.

Although the prices quoted are Far Below Regular Value, we make no charge for necessary alterations. A Perfect Fit is Guaranteed.
