THE MEN WHO HAVE NOT YET REGISTERED

Days of Grace Granted—An Analysis of the Figures Here

Those who are liable under the military service act, and who have not registered, have one or two more days in which to do so, was the information received at military headquarters here this morning.

This morning four men applied at the military headquarters to ascertain just what to do, saying that they had not applied in the allotted time.

It is estimated by a gentleman in a position to judge that at least two-thirds of the men in St. John who could be expected to go to the front have registered for active service.

At the main post office, where most of the applications were handled for the province who happened to be in the city, a total of 2,200 forms were issued to men registering for service and applying for exemption.

An analysis of these figures, J. S. Flagg, who had charge of the work, said that about 800 of these would be duplicates, owing to the fact that employers would apply for the exemption of men who had also applied on their own account.

Regarding the number who have registered, Mr. Flagg said that he believed that there are comparatively few in St. John who should have done so, who have not registered.

VICTORY LOAN CAMPAIGN IS GIVEN A LIVELY START

(Continued from page 1.) Before the canvass opened the sum of \$500,000 was assured by advance subscriptions, this including one of \$100,000. In a Chadolette street store on Saturday evening a list was circulated with the result that the employes subscribed immediately for \$2,800 worth of bonds.

The Canadian Consolidated Rubber Company has taken hold of the matter in a public spirited way. The head office has announced that every employe is expected to subscribe and that the company will buy the bonds and finance their payment, permitting the members of their staff to pay off the amount in regular installments and giving them double the usual time allowed. The company has about fifty employes in this city.

In other establishments a similar spirit of co-operation is being displayed and various arrangements to aid the employes in the purchase of bonds have been announced. Good Reports. H. P. Robinson, chairman of the provincial committee, said this afternoon that the way the loan was being received had passed the expectations of the committee. He had been receiving many telephone calls from all parts of the province and they all told the same story. One man reported that the first fifteen he had canvassed only one had refused; another said that he had canvassed seventeen and had made a sale in each case. Everybody who reported told of similar enthusiasm.

The local office was deluged with calls from persons not only willing but eager to buy, who asked that canvassers be sent to them. It was estimated this afternoon that the close of the day would see a total of at least \$600,000 subscribed.

In Halifax. Halifax, N. S., Nov. 12.—With the ringing of church and fire bells, the tooting of factory whistles and a procession of automobiles through the principal streets, the Victory Loan campaign was opened in Halifax this morning. All the autos carried banners bearing the words "Victory Loan." In the procession were Lieut.-Governor Grant, Mayor Martin, the members of a committee having the campaign in charge and prominent citizens.

Quiet in Moncton. Moncton, N. B., Nov. 12.—The Victory loan campaign here opened rather quietly. It has been very little advertised, though committees are struck to canvass. A public meeting is called for tonight with two bands in attendance, and no doubt interest will be successfully stimulated in that way and offset the lack of preparatory local newspaper advertising.

In Ottawa. Ottawa, Nov. 12.—The tooting of factory whistles, the ringing of bells and the discharge of the gun on Parliament Hill at nine o'clock this morning announced the opening of Ottawa's Victory loan campaign in hopes to secure \$1,000,000 in two weeks.

Din in Toronto. Toronto, Nov. 12.—Ten thousand autos tooted and shrieked, factory whistles roared, school bells rang for several minutes, and there was a general din like a battle in Flanders when the Victory loan campaign was inaugurated here this morning. Brokers and banks report an early rush of all classes of people to buy the bonds.

A \$200,000 Subscription. Sherbrooke, Nov. 12.—The Victory loan campaign opened strongly in Sherbrooke and eastern townships today. Influential committees are at work and it is expected that amount set out to be raised will be passed. In Stanstead county Harry Norton started the campaign there by subscribing \$200,000.

Interest in Quebec. Quebec, Nov. 12.—Quebec opened the campaign for the Victory loan with something more than the ringing of bells, the blowing of sirens and factory whistles; it opened several branches and appointed scores of canvassers that will crisscross the city and district for the Victory loan of "Jean Baptiste." The main committee had a large meeting on Saturday afternoon and final details of the canvass work were arranged. The most prominent citizens and public men take a deep interest in the campaign.

Bright in London. London, Ont., Nov. 12.—The Victory Loan campaign was started off today with a roar of locomotives and factory whistles and the ringing of bells. The

SMALLPOX CASES IN THE PROVINCE NOW NUMBER 29

Fredericton, N. B., Nov. 12.—Twenty-nine cases had been reported to the Provincial Board of Health up to this morning. The number is larger than last week, the increase being due to new cases being discovered in Victoria county. The provincial board probably will meet here tonight. The Fredericton board met this morning and decided to place guards on the Waverly hotel. An attempt is being made to secure a building which can be used as an isolation hospital in Fredericton should cases be discovered here.

Hotel staffs are to be warned to take precautions against allowing travelers from infected districts to register. Hon. J. D. Hazen will be sworn in as chief justice of the Supreme Court of New Brunswick in succession to Sir Ezekiel MeLeod resigned.
