SHOWS NEED OF MORE MONEY FOR THE PATRIOTIC FUND

Sir Herbert Ames Tells Public Meeting That New Brunswick's Contributions Will be Exhausted Next Month—Only 40 Cents Per Head So Far—Support Pledged for Province-Wide Campaign

"By the end of September every dollar contributed in New Brunswick to the atriotic Fund will have been returned and you will be drawing on the cental fund," was the surprising statement made by Sir Herbert B. Ames, secretary of the Canadian Patriotic Fund, at last night's meeting. He went on to

say that the average for the province had totalled forty cents in contributions "Even Newfoundland," he went on, the poorest part of the North American continent, has contributed \$98,000, or 48 cents per head of the population, so that if you are to keep up in this province you will have to take a hold of the problem seriously."

Sir Herbert spoke before a gathering at the High school that was not large but which was, in the words of Mayor Frink, who presided, splendidly representative of St. John. On the platform were Lieutenant-Governor Wood, Judge Forbes, chairman of the local executive committee; C. H. McIntyre, treasurer of the New England Association which works in the relief of those who have volunteered from there with offices at Boston; and Rev. L. R. Sherman. A resolution was adopted pledging the meeting to make a great province-wide appeal again for the Patriotic Fund, so that it might be adequate to meet the increased needs of the families of the 150,000 Canadian soldiers.

Sir Herbert's speech was brim full of facts with scarcely a word that deviated from the plain business aspect of the appeal for aid and its reasons, but rarely has a more finished or more clearly defined speech been made in the city. Every phrase had a point.

He at once explained that he did not he left of the government, who were, however, undertaking the equipment is supply of munitions and equipment is decidedly limited. The world, therefore, looks only to the British Empire for the full means of bringing this war to the full means of bringing this

MORNING WAR NEWS BY CABLE

London, Aug. 20—The garrison of the fortress of Novo Georgievsk, which was left behind by Grand Duke Nicholas when he commenced the evacuation of Poland, to delay the advance of the German invaders, after accomplishing its task for just a fortnight, has succumbed to the heavy siege artillery of the Ger-

mans, which throughout the war has made every fort attacked by it untenable Berlin was able today to announce the capture of the fortress, with its 700 guns and a large quantity of war material. The spoils have not yet been estimated, but they probably are large, as it had been hoped by the Russians that the earthworks around the fortified camp would enable it to hold out much longer than it has done. It is now expected by the military observers that the other Russian fortresses, such as Brest-Litovsk, Grodno and Ossowetz,

either will be captured or given up.

After the Tall of Morshal Von Hindenberg's army co again an offensive along the whole front, from the Gulf of Riga to Kovno, with the object of taking Riga and the whole Warsaw-Petrograd railway from Vilna northward. He is meeting with stubborn resistance and may be denied even the possession of Riga, unless the German fleet succeeds in entering the Gulf of

South of Kovno, as far as Grodno, the Russian armies, after the fall of Kov no, fell back toward the Niemen river, and here, according to the German official account, they are offering fresh resistance, in the hope of preventing or delaying the envelopment of the northern flank of the Brest-Litovsk line.

There seemingly is danger of this line being forced by direct attack. Six

Austro-German armies, strengthened by the corps which have been investing Novogeorgievsk, are converging on the Russian centre which is behind the Bug and along the railway from Brest-Litovsk to Bialystok, and no doubt will soon commence a bombardment of Brest-Litovsk.

Other armies have cleared the whole of the left bank of the Bug before Brest-Litovsk, while Field Marshal Von Mackensen having crossed the Bug, is advancing on the fortress from the south. This means that the obstacle of the marshes has been circumvented and that Brest-Litovsk, the chief military depot and concentration centre of Russia, is virtually enveloped. Although mil observers are of the opinion that the grand duke probably again will be able to withdraw his army in safety, the loss of these lines is considered a graver military misfortune than the loss of Warsaw. GERMAN SUCCESS DUE TO ARTILLERY.

The German success has been due almost entirely to their great superiority artillery, and the military critics express the belief that as long as the intain this and continue to press forward the Russians must retire before

mistic as to the future. it is understood, make a state entry into Warsaw, and there let it be known by ment what the future status of Poland will be. Along the western front there have been some spurts of livel

fighting, but nothing that could be called a battle.

It is now evident that the fresh landing of British troo

Extract of Wild Strawberry.

Mrs. Guy R. Rhyns, Middle Clyde, N.S., writes: "Last summer my little boy Ross, then a year old, had summer complaint. He was so bad the waste matter from the bowels looked as if it had come from a broken boil. I live some distance from a doctor, but I sent word to him to come as soon as he could. In the meantime I gave him Dr. Fowler's Extract of Wild Strawberry, and he gradually grew better after the first two doses, and after using all the bottle he was cured. I am the mother of three children, and I could not get them through the long summer months without it."

Hound. "You have got to get men into the trenches; that is the vital factor in this and don't let us get lost on side issues," he called with an expression of pride in his native province of New Brunswick and in the work the Canadian soldiers had already done.

The resolution was passed by a standing vote and the singing of God Save the King closed a gathering of workers in the vast patriotic effort that will come to the province this winter.
