DISMANTLING CORONATION DECORATIONS

London Streets Given a Desolate Appearance After Great Event

MANY VIEW ABBEY

Sightseers Pay Fee to See Place Where Coronation Took Place—Great Gathering of Children—The Resumption of Nation's Business by Parliament

(Times Special Correspondence)
London, June 28.—Now that the coronation festivities are ended, the decorations in the streets are being quickly dismantled. The seats to view the procession on the route traversed on June 22 and 23, are stripped, and the timber work carried off. Friday will see them all swept away. The gaudy streets in this rainy weather present a desolate appearance—like the morning after the ball. In the West-End, in St. James' street and Piccadilly and Whitehall and in the neighborhood of the abbey, groups of ragged children and hungry-eyed women are picking up "unconsidered trifles" such as bunches of bedraggled paper roses which at the coronation made the processional garlands and pieces of wood that once were seats for the spectators are being eagerly removed to the homes of the poor for firewood.

It is a melancholy sight to witness more rejoicing among the poor at the capture of the refuse than was displayed by the rich occupants of the seats who spent their guineas to view the royal processions but a few days ago.

Sightseers at the Abbey
On Monday Westminster Abbey which on Thursday the 22nd was the scene of the coronation ceremony was opened to the eager curious public. The entrance fee of a sovereign did not prevent large crowds going in to see the scene of the magnificent historical ceremony. There was no crush on Monday, but the entrance was opened again on Tuesday, and today to repeat the exhibition of the coronation scene, at 2s. and its admission was charged. The curious flocked to see the furnishings which on Thursday last could be seen only by the privileged few. The workers to spend one of the last days of the coronation which will be kept open to visitors of the scene of the coronation and its administration will be charged, and at 6d on the next two Saturdays.

Already there is considerable complaint at the "greed" of the dean and chapter in making a charge for viewing a building which belongs to the nation and was extravagantly furnished at the expense of the taxpayers. This is not fair comment, the people should know the abbey clergy are devoting the entire proceeds to local charities.

This foolish grumbling of a thoughtless public at the called "greed" of the abbey authorities, is as absurd as the newspaper comments upon the "blunders" of the police and the "blunders" of the army. The people themselves realize how invaluable the thoughtful service they have seen on Monday and Tuesday. The regulations so strictly enforced for the public safety might have been fully needed, had the newspapers and the public been hysterical warnings against too great crowding. The cause of the unexpected smallness of the coronation crowds was owing to the scene of the public and the announcement of an extra "bank holiday" which tempted many of the two coronation holidays in the country and far away from the crowded city.

Since the coronation and the city procession the king and queen have had a busy time of festivity in which the common people and the London poor are participating. Tomorrow the city procession is to be in part repeated for the benefit of the residents of North London. Many of the citizens abstained from going to last Friday's city procession in the expectation of seeing a similar procession in their immediate neighborhood on June 29. It is therefore hoped that the procession will have all the attractions of a military pageant with the presence of their majesties and the royal family.

The Royal School Fete

On Friday June 30 the coronation event is perhaps the most interesting of all. At the invitation of the king and queen, one hundred thousand board school children are to have six hours entertainment at the Festival of Empire at the Crystal Palace. The organization of such a great gathering of youngsters with their teachers has been the work of the railways and transport authorities for some time. There will be a gigantic picnic in the football and cricket fields and games to amuse the children and a souvenir gift from their Majesties to the children of the board schools. The festival is an ancient act of parliament dating from the reign of Edward III which assigns all shipwrecks and whales captured to the king, while the Lord Mayor of London cherishes the privilege of claiming all sturgeons caught in the Thames above London bridge. It is many a century since a sturgeon was so venturesome.

Parliament Again

As our coronation revels now are ended, the work of parliament is resumed. A political crisis is threatening for the Lords throw down the gauntlet and the members of the opposition appear now to have changed their minds on the constitutional question. Lord Lansdowne's notice of amendments to the veto bill in committee is to the effect—(1) The establishment of a joint sitting of the two houses, with the speaker of the House of Commons presiding to decide financial bills; (2) Bill (a) relation to the protestant succession, (b) the establishment of separate parliaments in either parts of the three kingdoms (c) other grave matters upon which, in the opinion of a joint committee, the electorate has not been sufficiently consulted to be submitted to a referendum. The amendments which if persisted in would wreck the veto bill would upset the government and bring about a political crisis. An article in the London Times on Tuesday is said by moderate men of both parties to be a bad blunder. It suggests a complete change in the attitude of Union

The M. R. A. Sewing Machine \$28.50

As Silent As A Watch—Easy in Operation

We Guarantee it For Ten Years

The housewife without a good sewing machine is handicapped to just about the same extent as a farmer without a reaper. To be obliged to put through by hand the amount of stitching, hemming and gathering entailed by an adequate supply of dusters, curtains, sheets, etc., to say nothing of the repairing and renovating of the family wardrobe, is a wasting of time and strength. For any such housewife, the bestowal of an easy-running, up-to-date machine would be one of the happiest ideas possible.

When it is considered that the M. R. A. Sewing Machine, with its formal guarantee of ten years' satisfaction is procurable at \$28.50, the large returns for a small investment are apparent.

The wood work of the machine—which is of the convenient drop-head order with automatic lift and self adjusting belt—is of quarter-cut oak, highly polished. Some of the special features worthy of mention are—Head is full arm high and ball bearing shuttle is large and self threading; belt is adjusted so that it need never come off; bobbin winds the thread with particular proficiency, and the attachments are of the best quality and can not be put on wrongly. RECIPROcity AMENDMENTS ARE KILLED IN SENATE

Washington, July 10.—The Canadian reciprocity bill hurriedly unceremoniously tonight from the most serious ordeal it has yet experienced in the senate. The series of amendments offered by Senator Cummins of Iowa, and the two offered by Senator Simmons, of North Carolina, all seeking to increase the number of Canadian manufactured articles that shall be admitted free of duty to the United States, were voted down by large majorities. The vote in favor of the amendments was so small that Senator Cummins asked for only a roll call though he had previously announced his intention of asking for a division. The maximum vote for the tariff amendments was 15, compared to a maximum vote of 53 against. The defeat of the Cummins amendments cleared the situation in the senate and leaves the reciprocity bill much nearer final passage.

QUALITY OR QUANTITY

Which Do You Prefer?—Newbro's Herpicide Represents Quality

Did you ever have a dealer offer you a large bottle of something and tell you it was a better remedy for the hair than Newbro's Herpicide and cheaper because in a larger bottle?

What? Certainly we knew you had. Many other people have too.

What would you say to the same dealer were he to tell you a silver dollar was worth more than a five-dollar gold piece because it is larger?

Such an attempt being a reflection upon your good sense you would probably say some rather pointed things to him. You would be right.

There are just as many good reasons why the difference in size between two bottles as there are for the difference in size between a silver dollar and the five dollar gold piece. But do you know what the difference is?

No? Then why buy it? Your judgment, intelligence and the experience of your friends, if not your own, cry out against it.

You know when you go into that store that Herpicide is what you need and want.

You KNOW that Herpicide is the original scalp prophylactic.

You KNOW that Herpicide kills the dandruff germ.

You KNOW that Herpicide makes the hair light, fluffy and beautiful.

You know these things in the same way you know that the five dollar gold piece, notwithstanding its size, is more valuable than the silver dollar.

Then insist on having genuine Herpicide. One dollar size bottles are sold and guaranteed by all druggists.

Applications obtained at the best hair shops and hair dressing parlors.

Send 1c in postage or silver for sample and booklet to The Herpicide Co., Dept. 1, Detroit, Mich. C. Clinton Brown Special Agent.

SALE OF MONCTON BONDS

Moncton, July 10.—The city council tonight opened tenders for \$125,000 worth of four and a half per cent. bonds, the highest bidder being Amelius Jarvis Co. of Toronto, representing a London financial house. The offer was \$90,035, or \$123,787.40 for the whole \$125,000 issue. J. M. Robinson, of St. John, was among the tenderers. The council considered the offer a very favorable one, and accepted Amelius Jarvis & Co.'s bid. The issue is for the purpose of new water reservoir, new engine house and permanent sidewalks.

KEESHAW UNINJURED

Chatham, Mass., July 10.—The Merchant and Miners steamer Keeshaw, which went aground on Shoefield shoal rip early yesterday, was pulled into deep water, apparently uninjured, just after 11 o'clock tonight.

A NEW LAND TAX

An Australian Who is Pleased to Contribute \$85,000 to His Country

One of the largest and wealthiest landowners in Australia has set a fine example of patriotism in connection with the land tax on unimproved values just imposed by the Commonwealth parliament. This tax varies from 2c. in \$5 on values from \$25,000 to \$50,000, up to 12c. in \$5 on values of \$400,000 and above. An absentee landlord pays 2c extra in \$5 in each class.

Sir Samuel McCaughey has promptly sent in his cheque for the land tax to the Australian treasury, with the following communication: "Please find enclosed check for \$85,000, which I have pleasure in sending you for the tax on my properties. I am glad to do that much for a country which has done so much for me."

This patriotic Australian does not complain that his tax should be 12c. in \$5 while the tax on the British landowner is only 1c. He does not say he will have to discontinue his charitable gifts in consequence of the land tax. He does not ask the country to relieve him of this onerous burden.

FERNHILL DIRECTORS TO INVESTIGATE COMPLAINT

At the quarterly meeting of the directors of the Fernhill Cemetery Co., Ltd., yesterday afternoon, with Dr. James Christie in the chair, mention was made of certain rumors and charges concerning the conduct of the superintendent. The board decided not to hear the complaints, but to appoint a committee of four to make a thorough investigation. Dr. Christie said after the meeting that the directors did not consider the charges as serious and that complaints of neglect had been made before, but board felt satisfied that every possible effort had been made to meet the wishes of the shareholders.

It is understood that the gentleman who is pressing for an investigation has before made complaints against the superintendent. On this occasion he has consulted legal advice and states that he will bring witnesses to prove his charges.

The committee who will look into the matter and report, consists of Col. E. T. Sturdee, E. L. Rising, J. A. Likely and G. S. Fisher.
