Consumption Takes
Hundreds of People
every day in the year and the deadly
germs claim more victims in cities
than in rural districts, due no doubt
to the increased number of indoor
workers in confining quarters and
their lack of sunshine.
Tubercular germs always attack when
the system is weakened from colds or
sickness, overwork, overstrain, confining
duties or any drain which has reduced the
resistive forces of the body. But nature
always provides a corrector and the best
physicians emphasize that during chang-
ing climate our blood should be kept rich
and pure and active by taking Scott's
Emulsion after meals: the cod liver oil
known; it builds energy and strength
and is totally free from alcohol or any
stupefying drug—every druggist has it.
