GOOD ADVANCE IN EDUCATIONAL LINES

Increase in the Number of Pupils—The Minister of Education Submits His Report.

Yesterday afternoon the minister of education tabled the thirteenth annual report of the public schools of the province. The report is prefaced by the superintendent's review of the year's work, of which the following is a synopsis:

The total enrolment during the year was 23,615, an increase for the year of 2,084. Of this number 12,069 were boys and 11,546 girls, an increase of 933 and 1,097, respectively. The enrolment of the five high schools was 584, an increase of 21; at the graded schools, 15,460, an increase of 1,647; and at the common schools, 7,571, an increase of 406.

The average daily attendance of all schools was 15,334.31, an increase of 1,607.05; average actual attendance, 15,008.28, an increase of 1,659.87. The grand total actual daily attendance made by all pupils enrolled was 2,965,029, an increase of 289,023.

Amount expended by provincial government, \$38,345.14. Grand total cost of education for the year 1899-1900 was \$389,367.39.

By referring to the figures quoted above and comparing them with those of the year 1899-1900, it will be observed that the cost of education proper increased from \$284,909.10 to \$312,187.17, or an increase of \$27,278.07. The expenditure on the Department of Lands and Works increased from \$22,569.90 to \$38,345.14, or an increase of \$15,775.24.

MR. A. E. KIDD.

ELGIN, ILL.—In a very recent communication from this place comes the news that Mr. Arthur Ernest Kidd, a well-known architect of that city, has made complete recovery from catarrh of the head from which he had suffered for nearly a quarter of a century. He writes from 18 Hamilton ave.:

"I am 42 years of age, and have had catarrh of the head for over half of my life, as a result of scarlet fever, followed by typhoid fever. I got so bad that I was almost constantly coughing and clearing my throat. The catarrh greatly impaired my eyesight, and the hearing in one ear, and reduced my weight to 110 pounds.

"I tried nearly every catarrh remedy advertised, besides a great many different physicians' treatments, all of which failed.

"I had heard of read of Peruna, and finally decided to try it two months ago. I have now taken seven bottles, and weigh 172 pounds. Never felt happier or merrier. Feel top-top."—A. E. KIDD.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving full statement of your case and he will be pleased to give you his valuable advice gratis.

CHANGE IN DATE OF BYE-ELECTION

GOVERNMENT WANT THE MAYOR TO MAKE FIGHT

Mr. Bodwell's Committee Actively Commence Work of Campaign—Seating of Opposition.

The election for Victoria city to fill the vacancy caused by the resignation of John Herbert Turner will be held on the 10th prox., nomination being on the 6th. Last evening, on the authority of the premier, the Times announced that the nomination would be on the 6th, and the election on the 8th. Last night, however, a change was made first to the 10th and 15th respectively, and finally to the dates mentioned, namely the 6th and 10th. The only reason which can be assigned for the change is a desire to have the opera house for the final meeting of the campaign.

On the announcement appearing in the Times the opposition secured the opera house for the last unoccupied night preceding the election. The government subsequently endeavored to secure the opera house, and on finding this option had hired it for the last available night preceding the fight, had no option left but to change the dates.

The returning officer named in the Gazette notice is the sheriff, J. E. McMillan. The name of the government standard-bearer has not yet been announced, but it is known that Mayor Hayward has been asked to stand before the administration, and that he was to give the government his answer this forenoon. His Worship declined, this afternoon, to discuss the matter at all.

The game of battle thrown down by the issuance of the writ has been eagerly taken up by Mr. Bodwell, and the magnificent organization which is being effected seems imminent, it being brought at once into activity. A general meeting of the various ward committees will be held in the committee rooms, Forest street, on Monday, at 8 p.m., when vigorous work will be commenced for the campaign.

The opposition are delighted over the strong anti-government sentiment exhibited at last night's gathering, and its members will take a prominent part in the campaign.

The members of the newly organized opposition are perturbed over the question of seating in the House. There seems to be a disposition on the part of some of the members to occupy the opposition benches from the opposition, and to keep Mr. Martin and his supporters there. If such is attempted a course of action has been mapped out which will rob the government's action of its effect.

On Monday next Hon. Mr. Wells will introduce a bill entitled "An act to amend the Public Docks Act, 1891," and a bill entitled "An act to amend the Public Docks Act (1898) Amendment Act, 1899."

NEW COMMISSIONERS. Ald. Worthington and W. H. Price the Appointees—Other Gazette Notices.

The police commissioners for the current year have been appointed at last. Last night's Gazette announces the appointment of Ald. Thomas Irwin Worthington and W. H. Price, who, with the Mayor, will constitute the board.

The following will comprise the board of examiners for the Nanaimo mine during the year 1902: Appointed by the Board of Examiners, John Newton and Benjamin Brown; alternates, John Newton and Thomas Budge; appointed by the Lieut. Governor-in-council, Joseph P. Planta; elected by the miners, Wm. Neave and Geo. Johnson; alternates, Thos. James Shenton and William Smith.

H. M. S. CONDOR. Vessel's Seagoing Qualities Criticized—Ship Rolled Badly in Rough Water.

Mr. Algernon Lennox, writing to a London paper, from Calais, respecting the missing Condor, says: "When the missing warship Condor was stationed in Panama Bay, April last, with a view to the protection of British lives and property in the event of any revolutionary movement on the Colombian isthmus, I made the acquaintance of her officers and also knew the boat well."

"I voyaged from Colon to Southampton with one of her officers (going home on sick leave), who, in conversation with me, anticipated the reported remarks of Captain Selater, referring to the ship's behaviour in heavy weather, and stated that should the guns break loose from their lashings, the Condor would probably be lost, owing to her huge 'rolling.'"

FAREWELL AND PRESENTATION. Popular Non-Com. at Work Point Remembered by His Comrades on Leaving for England.

Military Mechanist Staff-Sergeant Robert Jenkinson, Royal Engineers, was yesterday (21st) the recipient of two very handsome presents in the shape of binoculars and a gold headed walking stick, both of which were suitably engraved with his name and that of the corps of Royal Engineers who presented them to him on the occasion of his leaving the station for England.

Staff-Sergeant Jenkinson in reply said that, although of course, he would be glad to return to the Old Country again, he could not help feeling sorry at leaving his comrades here, and so good a station, and only hoped that should he be ordered abroad again he would have the luck to be sent to so good a station as Victoria—he knew he could not get a better one.

Staff-Sergeant Jenkinson came to Victoria for service in Canada extending over a period of nearly 12 years.
