## PRIVILEGES DENIED LIBERAL SPEAKERS

The Socialist Leader Answers Questions for the Ministers on Departmental Matters

(From Friday's Daily. The provincial government is exhausting all its resources to win the Alberni seat in the bye-election. Every advantage possible is being taken, and unfair tactics are used even with respect to

Of a meeting held at Wellington last evening the Nanaimo Herald says: "The spectacle of the leader of the government refusing the representative of his opponent the same privilege accorded the representative of the Premier's party at opposition meetings, was offered the electors here, as well as the continual discussion of Dominion issues in a provincial campaign, which included a personal attack on a member of the Dominion House who had no opportunity to reply to the attack. Needless to say the meeting last night was held in the interests of the Conservative candidate,

Premier McBride, however, refused to permit Oliver, representing Mr. Aitken, to follow him last evening, evidently fearing to give the farmer from Delta an opportunity to meet his wild statements. For this small piece of business Mr. Oliver scored the Premier unmercifully, the audience heartily sympathizing with

Mr. Manson spoke about 20 minutes followed by the chief commissioner of lands and works, non. R. F. Green. The commissioner was followed by Mr. Oliver, who scored several telling points against the government, and repeated serious charges which the government speakers failed to meet or to explain satisfactorily to the electors.

"Mr. McBride. who followed Mr. Oliver, devoted most of his time to slighting criticism of the British Columbia delegation in the Dominion House, level-ling his remarks chiefly at Mr. Ralph Smith, whom he charged with interfering in Alberni affairs, repeating largely the false and malicious slanders which have appeared in the Nanaimo Free Press lately, and referred to the appointment of Hon. W. W. B. McInnes to the governorship of the Yukon in a very insulting manner, saying the Liberal party was making fat jobs for its Liberal friends. He followed with a discussion of Domin ion political issues, when Mr. Smith, who was in the audience interrupted, and offered to explain several points on which Mr. McBride was badly astray, after protecting that it was a stray after esting that it was something unusua to discuss federal issues in a provincial contest. He was not, however, given an opportunity of answering Mr. McBrde's charges. The speaker closed his discus-
