[Written for the Miramichi Advance.] The Demon of "Old Baldy."

BY GEO. J. PORBES, SAN GABRIEL. CHAPTER 2ND.

CONTENTS-A JOLLY SHIP AND A JOLLY out to frighten his fellow mountains. SER JOR. CHAPTER 187).

We were soon at sea. What sailors call a quarterly wind sent us booming down the coast, sometimes we were bebulwarks. Soon we began to miss many spirits, but Fred was as sanguine as ever. of our small traps; then some dainties in the way of grub had disappeared, but but at the end of a month nothing that dinner. While I was frying some bacon when our flour and bacon was attacked would pay. I wanted to leave the place, the door darkened. Looking around I it was more than we could stand. Fred but Fred looked so miserable at the nearly jumped into the fire and upset it, and made them a neat, feeling speech. They understood enough of it to sneer and grin from ear to ear. One cut-throat looking chilano even got facetious. I could not stand that kind of thing. Jumping up I addressed a few short sentences to the crowd. I day's work with the rocker gave us a harsh and his body shook like a galvanic trouble with the eatables by throwing could hardly blame the poor devils. The bacon and frijoles had about given | must have come from somewhere Fred out, so they were obliged to fall back on reasoned and I agreed with him. The artillas which had been baked so long and were a trifle more nourishing than question being as to how it was to be alab soup. To see them steeping the found. flinty looking stuff in their coffee pre- While affairs were in this state, we paratory to eating fairly gave a fellow

Fred wanted them to land us at Santa although an hour would have done it. San Diego, leaving us on a sand point at least two mules to carry our mining of a horse in this case, as there must needs be if the scene of labour was 90° in the shade, I asked to see it, but twenty yards distant.

One day while my courage was up to signs to Fred, I took hold of him and shook him, but it was of no use. He

able, considerate and obliging. By his influence I soon secured everything required. Returning on the second day. I found Fred not at all lonesome. He had been studying the map and piling up imaginary heaps of gold. By his calculations we were one hundred and thirty to fifty miles from the rich deposit. We followed up the coast to San Luis Key and then struck in towards the northeast. Here and there we the fumes of sulphur strongly. came across a solitary ranch and were always well used by the owners as far as their means went. Many of them were English or Americans settled here in these mountains in heaps, in wagon for many years, and were rich in cattle, even if bread and vegetables were scarce or wanting altogether. To all these the news from the upper country was particularly interesting. Of the outside world they heard nothing. Occur- posit, and if he could only find certain rences of four years standing were fresh as a wet trout. I am not very well the Bank. Fred was in a glow. This posted, as you know, but was equal to exactly tallied with the information a dictionary alongside those fellows. Which he had received in the upper country. He readily jumped at the offer which only wanted some water to be a landmark among all the surrounding didnt. Well his pipe went out and he It was the last I ever saw of him

Then all was com- head waters of the south San Gabriel. thing of that sort would have led us to otion as every long, glassy swell exert- We had plenty of all kinds of timber. his camp. But there was nothing of ed its utmost to hurl us to destruction. The water was cool, clear and pure and the kind. Fred was in a despondent We kept too near the land, but our lazy the surroundings of rock, cascade and state. He had failed to find any indimongrel crew whose instincts might be living green were particularly refreshing cation of the hidden treasure. As a roughly estimated at one half pirate, after our experience from San Diego. general thing, Mother nature does'nt one quarter snuggler, and whole devil. At this time there were no miners on leave her precious stores lying around seemed as if they did not want to lose the river. In prospecting around we loose. Our further developments of came on several old washings, but it was the claim had turned out an ignowere likely to be rolled ashore they plain to be seen they were abandoned minious failure. We hardly saw the anozed comfortably under the lea of the long ago. This put a damper on my color since the finding of the nuggets. The colour we found in several places, but at the end of a month pathing the Coming in after a long and futile

weeded out all sentiment. The princi. couple of ounces and this continued for pal points turned on my revolver and pal points turned on my revolver and a trifle up and down. At last, it came bowie knife. This they could and did a trifle up and down. At last it came ashes and burned patches were any invie knife. This they could and did to an ounce and then to nothing at all. When we were about giving it up we hair and trembled till it shook itself off. in a trifle of watching. In one way l struck a pocket by the edge of the ledge And he was pale; I declare he was taking out about one hundred and pale. In sitting down his bones crack-They had the dogs life, hunger and ease. thirty ounces in large nuggets. This ed and rattled worse than ever. His eyes were if possible more flery and reasoned and I agreed with him. The "somewhere" was evidently the place of which the Maximum had all him the that they looked like consumptive tiles of which the Mexican had told him, the ed to have grown an inch. The bones and joints of his hands were covered by only the thinnest skin, and as they hung were visited one evening by a tall. world like claws. He evidently could swarthy, singular looking man. He could'nt sit still for a moment. His and if he was'nt what he was, I could Barbara, then at San Luis Key, but no, eyes were the most restless and fiery I have pitied him when he coughed a had ever seen. As I looked at him, I hollow cough and asked faintly for "" varmints" did not even run into fancied I could see flames rising and water. And he drank, good gracious falling behind them and now I am sure how he drank. The in'ard fires was San Diego, leaving us on a sand point of it. His hair was short and lumpy at at the north side of the harbour on the morning of the seventh day after the ends as if it had been singed off. I made up my mind he'd have one of leaving San Francisco. Carrying our Awful teeth he had, scattering and yelus pretty soon, but that that one should traps above high water, we sat down to low, like tenpenny nails with the ends not be me. After a little he lighted consider the situation. It would take broken away. His coat hung on him the ugly pipe, making a show of getting like a rug on a buffalo fence, showing a coal from the fire. I saw that he did tools and grub and where were we to every joint and hollow while his waisit with the point of one of his bony get them? There was not a human coat fell in awfully. It seemed to lay fingers. He refused to eat with a look get them? There was not a human being or house in sight and the mission of San Diego was at least twenty miles away. Some one had to go there and I went. All the springs were dried up was a I leard his joints crack. He refused to eat with a look of disgust. If the coffee was cold he said he might drink it. Then he smoked. Soon we could see nothing but the crown of his head for all the went. All the springs were dried up and I suffered a good deal for water. swear I heard his joints crack. He world like Point Conception looming was'nt English, he was'nt American above a Santa Barbara fog. The pipe Was'nt it hot? phew! and the sand and yet he could talk our language as well as we could. I'll bet there was'nt while we were eating. He had found while we were eating. well as we could. I'll bet there was introcky and rough which was worse.

The mission was "not much" in those times—a few adobe buildings—a few dark skinned Mexicans and darker Indian dark skinned Mexicans often "worked the thing" on the same principal by splitting the bark of a he thought, but it was only a horrible near where we had been working. At principal by splitting the bark of a tree, turning the hollow part of the under ones up and reversing those used as battens. At a distance it appeared as battens. At a distance it appeared I think of it; dear me how that—man I think of it; dear me how that—man certainly broken off from the face and result in the sould be a ploughed and the control of this precipice he had picked up several pieces of quartz which had certainly broken off from the face and result in the control of the several pieces of quartz which had certainly broken off from the face and result in the control of the several pieces of quartz which had certainly broken off from the face and result in the control of the several pieces of quartz which had certainly broken off from the face and result in the control of the several pieces of quartz which had result in the control of the several pieces of quartz which had result in the control of the several pieces of quartz which had result in the control of the several pieces of quartz which had result in the control of the several pieces of quartz which had result in the control of the several pieces of quartz which had result in the control of the several pieces of quartz which had result in the control of the several pieces of quartz which had result in the control of the several pieces of quartz which had result in the control of th as if the roof had been ploughed and I'll have to call him yet—did smoke. certainly proken on the fallen down. They were rich and by thrown up into drills and, knowing the habits of these people, I would not That was a poor comparison—a horse thunks more than half pure gold. habits of these people, I would like that was a poor compension that was a poor compension that have been greatly surprised to find it don't smoke. Like a steamboat is a Unless he could fly—and he chuckled, cultivated. It would go to show great tolerable strong illustration—often actually overdoes the thing, but it fails in place and wanted help. Would we Padre in getting up something novel as an inducement for his lazy dependents to stir themselves, and there would be no excuse for losing time in the saddling made of the slag of the infernal reigens. made of the slag of the infernal reigons. One day while my courage was up to

TO THE General Business. FARMERS OF MIRAMICHI. We have been Manufacturing

CUSTOM TAILORING

combining greater excellence of mechanical siplicity together with greater durability and entiplicity of all the requirements of the field, the any other Mower extant.—In construction they a similar to the celebrated Walter A. Wood's Ire Frame Mower, and the Richardson Buckeye, both amount of the Mood Company of United States.

20,000 were manufactured and sold last season, but the Wood Company of United States. We have over 500 of our manufacture on win use, every on of which (no exceptions) stands as a monument at the grand and unprecedented success of hom manufacture and our enterprise. A list of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquestionable supernority over any other mower to be had in our market.

The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Marilime Provinces.

For the coming harvest of 1877 we will manufacture LARGLY in excess of our numbers of last season, and trust that our grow ling enterprise may find such inducements held out to take ab be commensurate with its merits.

It is all times, in enterprise we have no hositation at all times, in enterprise would do well to enquire prices and terms before purchassing else where.

AGENTS: BEST MOWER, FIRST-CLASS Tailoring Establishment in the Shop formerly occupied by a Mr. Anslow, and owned by the Hon. Wm. Muirhead, near Letson's Scales, Water Street, Chatlam.
